REPORT

I, Mrs. G.Florance, Assistant Professor, Department of Computer Science and Engineering, TOCE attended the 6 Days workshop on "DAA with Java, Microprocessor Programming and Software Testing Laboratories" organized by CMR Institute of Technology jointly organized by the Departments of ISE, CSE and Computer Applications, CMR Institute of Technology, Bangalore Chapter from 16th to 21th January 2017. The workshop was very useful and informative in finding complexity and derives formula from the problem statement, difference between microprocessor and microcontroller, RICS and CICS machine and boundary value problem in software testing and how to do these in laboratory also. I assure you that the new concepts will be taught and used for the UG and PG students of CSE department. I thank the management for giving me the opportunity to attend the workshop by providing financial assistance for the registration of workshop.

Thank You

Mrs. G.Florance

Three-day Faculty Development Programme on

Emerging Topics in Computational Intelligence and its Applications
18th – 20th Jan 2017 (9am-5pm)

Computational Intelligence is an emerging interdisciplinary technology focusing on Neural Networks, Connectionist System Evolutionary Algorithms, Fuzzy Systems, Big-data, Multimedia Systems, IoT, Hybrid Intelligent Systems and Biologically Inspir Systems. The FDP is designed to include expert talks, hand-on sessions, panel discussion, etc.

Speakers and Topics

Speaker	Affiliation	Topic
Dr.Swagatam Das	ISI Kolkata	Evolutionary Computing
Muralikrishna Ramanathan	IISc, Bangalore	Targeted Client Synthesis for Detecting Concurrency Bugs
Dr T Srinivas	IISc Bangalore	Quantum Communication and Computing
Dr.Gopinath	IISc Bangalore	Cognitive Science and Sleep States in Indic Tradition
Dr.Vijaykumar B P	MSRIT - Bangalore	CI for Ubiquitous Computing
Dr.Dilipkumar	UVCE Bangalore	CI and IoT
Dr. Sunil Kumar S Manvi	Reva University – Bangalore	Software Agents
Dr.Pushpa P V	PDACE Gulbarga	IoT
Dr.Anandhi R J	TOCE - Bangalore	Machine Learning and Hands on session.
Prof.Vinay K	MSRIT - Bangalore	Insight of Cloud Sim and Hands on session
Mrs. Anandi Giridharan	IISc	Multimedia applications
Dr.Ratna G N	IISc	Real Time systems and sensor networks.

Registrationweblink:https://goo.gl/forms/2nuKUdX0pyQHAHbg1

participants have to register by 15 Jan 2017. No registration fee for members of IEEE Computational Intelligence society, including those who join on the spot. Fee for non-CIS member: Rs.1500/-; Fee for non-CIS student member: Rs.1000/- .The fees includes kit, lunch/tea/coffee, etc. Participation certificate will be given. Accommodation is not included in fees; but help will be provided for outstation participants.

AGM of IEEE CIS Bangalore Chapter is scheduled on 19 Jan 2017 during 3.30pm-5pm.
All IEEE CIS members are invited, including student members.

REPORT

We, Ms. Chandanita Thakur and Ms. Fenita F, Assistant Professors, Department of Computer Science and Engineering, TOCE attended the 3 Days FDP on "OOP's With Java" organized by AMC from 23th to 25th January 2017. The FDP was very useful because OOP's With Java is introduced in VTU curriculum from the current academic year 2017 for the students of fourth semester. It was so well taught by the corporate trainer that we assure you, the concepts both theoretical as well as practical will be taught for the student which will surely help them to gain knowledge as well as to develop their project work in future. We thank the management for giving the opportunity to attend the FDP and provided the financial assistance for the registration of FDP.

Thank You

Ms. Chandanita Thakur

Report On

One day Technical Event on Emerging Topics in Computational Intelligence and its Applications

One day Technical Event on Emerging Topics in Computational Intelligence and its Applications was conducted by IEEE Computational Intelligence Society, Bangalore Chapter in association with IEEE Student Branch REVA University on 5th May 2017. We two faculties, Ms. Sowmya HK and Ms. Chandanita and 10 students from the Department of CSE attended the technical event. During the workshop we formed the students group of IEEE CIS Bangalore Chapter. On the same day there were several speakers handled sessions on Emerging Topics in Computational Intelligence and its Applications. The first session was handled by Prof. T Srinivas from Indian Institute of Science on a topic named Photonics for Quantum Communications and Quantum Computing. The second speaker, Prof. K. Gopinath Indian from Institute of Science shared his knowledge on the topic Computational Intelligence in Indic art forms. It was really vibrant and interesting. Third session was handled by Dr G.N. Rathna Indian Institute of Science on Embedded system Applications in Signal and Image processing and th last one is by Mr. Kishore from UTL Technologies on QoS latency considerations for Tactile communications. All sessions were really interesting and were very useful for all of us to upgrade our knowledge.

Ms. Sowmya HK
Ms. Chandanita

Call for Humanitarian Project Competition
[Award and Travel Grant = 1800 USD]

2016 IEEE International WIE Conference on Electrical and Computer Engineering (WIECON-ECE) invites projects on Humanitarian Technology for demonstrating in HTA Special Session track. This track is sponsored by IEEE HAC. Major objectives of this session are to enhance the engineering skills of students for the improvement of peoples' lives and utilize the knowledge which has a direct impact in solving the humanitarian problems worldwide. The competition inspires engineering students to show their works and interests to serve for the resource constrained and unprivileged communities. Finding technological solutions, which can change the life- is the main objective of this competition.

[Eligibility of Participants]

1) The project must have involvement of graduate/undergraduate students. *One of the project members must be female.*
2) At least one of the members must attend and present their work in HTA special session of IEEE WIECON-ECE 2016

[Focused Area]

Humanitarian Technology Projects in the following areas are encouraged but we also appreciate projects in relevant other areas:

1) Physically Impaired People
2) Education
3) Health Care
4) Disaster Recovery
5) Frugal Technology
6) Smart Devices
7) Renewable Energy
8) Social Enterprise
9) Assistive Technology
10) Smart Nation

21

[Selection Criteria]

1) A simple project which has significant humanitarian impact will be given more value than a complex project with comparatively low humanitarian impact.

2) Each project needs to be exhibited physically to be evaluated.

3) The judgment and evaluation will be based on the innovation, results expected, sustainability. But impact on humanity, community or life will carry the highest weight.

4) In no case, claims of rights or ownership of the projects by any individuals/organization other than the registered team members is expected. This may cause the cancellation the project from the competition.

5) Each member of a Project who be attending the session needs to pay 10 USD (500 tk) registration fees.

[Prizes]

1) Top five projects will be awarded total prize money of 800 USD.
2) Five projects will be granted travel grant of total 1000 USD.
3) Get free access into the HTA track of the Conference.
4) Certificate of Participation will be awarded to all the participating teams.
5) Satisfaction of working for the humanity and being the reason of someone's smile!

[How to Submit Project Abstract?]

1) Team leader of the project is requested to submit title and abstract (200 words) via https://goo.gl/gPiRgZ

2) Right one day after the submission, evaluation report with notification of acceptance will be sent so that the project member can start necessary arrangement to attend the conference

3) During the conference a short video describing functionality and features of the project will be required.

Department of Computer Science and Engineering
The Oxford College of Engineering
Hosur Road, Bommanahalli, Bangalore – 560 068.

Submitted:

The Department of Computer Science and Engineering is happy to inform that three of our project prototypes have been short listed for presentation for grant of fund of $800 each, by IEEE- WIE conference to be held in Pune during 19th–20th December 2016. Permission is requested to attend the same.

Projects that are shortlisted

1. Smart Stick for visually challenged persons.
2. Electronic Pill box for senior citizens.
3. Voice based Email application for visually impaired.

Preparations for the presentation:

1. Staff and Students have already made the prototype and is working
2. Video of working model is ready for presentation
3. Two A3 type posters have been made as per the requirements

Fund request

Sl No	Type of expense	Amount requested
1	Registration ($10 each for 3 projects) ie 68 * 30	Rs. 2040 + 680 = 2720
2	Travel for two faculty in train to present the project (BLR to Pune) 2440 * 2 +1	Rs 4880 + = 7320
3	Incidental expenses (Rs 200 * 2 staff) for 2 days	Rs 800 +400 = 1200
4	Two A3 poster/banner printing for 3 projects, Rs 60 each	Rs 180 + 60 = 240
5	Accommodation	Arranged by the event organizer
	Total	Rs 7900 11,480

SMART STICK-An Electro-Visual aid for Visually Impaired

God gifted sense of vision to the human being is an important aspect of our life. But there are some ill-fated people who lack the ability of visualizing things. The existing aids involves usage of white stick as a tool, along with GPS for outdoor navigations and RFID cards, for indoor navigation. The demerits of this system are usage of two independent technologies apart from being risky, prone to self-injuries and expensive.

The objective of the proposed system, is to provide a low cost and efficient navigation aid for a visually impaired **to get a feeling of artificial vision** by gaining information about the environmental scenario of static and dynamic objects around them. The obstacles or objects are detected, in all three states of matters like solid, liquid, gas. The electronic stick will be integrated with ultrasonic sensor along with fire and light sensor. The ultrasonic sensor is used for detecting obstacles in solid and liquid state. The Fire sensor is used along with gas sensor for detecting the fire and smoke, along with its source of origin and activates the buzzer accordingly. On detecting any presence of an obstacle, microcontroller transmits text message to smart phone via GSM module which is given as a voice alert to the visually impaired individual. An additional feature will be included for people with night blindness or partially sighted, which allows them to detect the presence or absence of light in the room.

Highlights of Proposed System

Obstacle detection for all three states of matter: solid, liquid, gas.

Focus on guiding the visually challenged individuals to move confidently in an unfamiliar environment.

Indoor or outdoor navigation using ultrasonic sensors.

Detects fire and activates voice alert.

Impact of the Smart Stick

Smart stick is an innovative stick designed for visually impaired ,assisting in their smooth navigation, even in unfamiliar terrain.

Cost effective and user friendly

E-PILL BOX

We, the people of modern world have become very busy with our day today activities and are left with very less time for our old and ailing family members. This always creates a sense of guilt and leaves the younger generation with a lot of tension with regard to providing the needed support to our family members. E-Pill Box (Electronic Medication Reminder System) is a project proposed to help old age and physically challenged family members. The E-pill box available in the market is very expensive and not affordable to common man. The main objective of this project is to enable senior citizens and physically challenged people to take the correct medicine on time with minimum dependency of family. Also the E-pill box will ease users to keep all medicines required for one week, in one small box, which can be carried around easily and also can be located easily , if misplaced, based on the transmitter and receiver system. The unit will also be provided with beep sound and LED, is tablets are not taken in time. The challenge in this project is to design device, with low cost so that this will affordable by all class of people.

With this box, people don't even have to worry about how to manage their medication time as, this product can be provided with a display clock and reminder which will alert them about their medication time through LED glow, Beep sound, and message to the concern person. The project can be done in a simple way with minimum low cost components that includes Sensors, Micro controller, LEDs a, small buzzer and GSM Modem along with receiver and transmitter (optional). This unit can be custom-made based on the requirements and cost factor.

REPORT

I, Ms. Latha R, AssistantProfessors, Department of Computer Science and Engineering, TOCE
had participated in Five days Faculty Development Programme on on "Big Data Analytics: A
complete hands on Approach ", held on 21st January 2019 to 25th January 2019 , at New Horizon
College of Engineering ,Bangalore organized by Department of Computer Science and
Engineering. The first day was inaugurated by Dr Manjutha, Principal, NHCE, Bangalore,
followed by the first session on "Introduction to Big data Analytics,Overview to the program", was
given by Mr. Kumar saurabh, Senior Data Scientist, Mind Tree, Bangalore. The second session
with "Neural Networks with Hands on" was very informative session where the concepts of
statistics was taught.

The 5 days FDP covered Regression, Decision trees, Neural networks, Naïve Bayes with
hands on session using Anaconda, Data warehousing concepts, AWS, Amazon Athena and hands
on session using AWS, accessing S3(secured storage service) etc. Hands on R-studio was provided
to give practical knowledge on regression, generating training set data and validating set data. It
also includes Business intelligence concepts and hands on session on Hadoop tools, Hbase, spark
and hive. Creation of Virtual Machine, executing Pig and Hive commands using cloudera was
demonstrated in hands on session.

The related course material was also provided for better understanding of the concepts.
The session was very organized and well planned. It is useful especially for the faculties handling
the subject.

All sessions were very useful and informative in the new area of Big data Analytics, Data mining,
web mining and mapreduce program. We assure you that the new concepts will be taught and used
for the projects of the UG and PG students of CSE deportment. We thank the management for
giving the opportunity to attend the FDP.

Thanking You.

Ms. Latha R

REPORT

We, Ms. Shobha T, Ms. Seema Patil and Ms. Sowmya HK, Associate Professors, Department of Computer Science and Engineering, TOCE had participated in Five days Faculty Development Programme on on "Machine Learning with Python: A complete hands on Approach ", held on 07th January 2019 to 11th January 2019 , at New Horizon College of Engineering ,Bangalore organized by Department of Computer Science and Engineering. The first day was inaugurated by Dr N C Nagaraj , Principal, NMIT, Bangalore, followed by the first session on "Introduction to Machine learning, Case studies,Overview to the program", was given by Mr. GuruPrakash,Founder & CEO Xobin Technologies,Bangalore. The second session with "Introduction to Descriptive statistics & inferential statistics" was very informative session where the concepts of statistics was taught. The third session give the basic introduction on Python with problem solving. With this session all fundamentals related to python was solved hands-on.

On day 2 the session begin with 45 minutes "Hakathon on Python" in which we explore more programming concepts of Python, followed by session "Juptyer Overview and Introduction to pandas, Excersices in pandas", in which we learned about built in library with all its features. Followed by " Introduction to Numpy & MATPLOTLIB and Exercises in NumPy" in which the new library Numpy was explored with all its options. The session on " Scaling Machine learning data-1 and data 2 with Solving exercises" made all of us to code python programs with measuring parameters on Diabetes data set and general data set.

On day 3 the session started with "Baseline models and evaluation metrics with Exercises" with hands-on practical implementation of models on dataset was demonstrated. The sessions like "Simple Linear Regression- Theory and Project" and "Multivariate Linear Regression Theory - Theory and Project" and "Logistic Regression Theory and Project" was discussed with practical hands-on session with proper data set.

CHILDREN'S EDUCATION SOCIETY (Regd.)

Ph: 080-61754601/602, Fax: 080 - 25730551
E-mail: engprincipal@theoxford.edu Web: www.theoxfordengg.org

On day 4 the session begin with "Perceptron- Theory and Project" followed by " Naïve Bayes- Theory and Project " followed by the session "Support vector machine and k nearest Neighbourhood, LVQ". All the session was hands-on practical implementation of concepts with diabetes data set, IRIS data set and local data set.
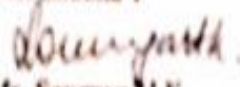

On day 5 the session were "PCA" implemented with dataset followed by "Back propagation" implemented with dataset followed by the session " Introduction to Recommender Systems with case studies,NLP with Tensorflow-1 and 2" in which the basics of NLP was given.

All sessions were very useful and informative in the new area of Machine learning, optimization, computational intelligence. We assure you that the new concepts will be taught and used for the projects of the UG and PG students of CSE department. We thank the management for giving the opportunity to attend the FDP.

Thanking You.

National Workshop on
"NIRF India Rankings for Higher Educational Institutions"
Conducted by Institute for Academic Excellence

Dear Sir/Madam,

"Ranking, Accreditation and Grading of Institutions" is perceived as a very important parameter by the stakeholders of all Higher educational institutions. MHRD established NIRF for ranking of HIEs in 2016 and it is being improved upon year by year.

In view of the importance being assigned to this process, to support the Higher Educational Institutions, we conducted a two day workshop on "Quality Enhancement Measures in Higher and Technical Education with a special focus on NIRF Rankings" on 18th and 19th October 2019, which was well appreciated by all the delegates. We (IAE-KAB) propose to conduct a similar event this year also on 18 and 19th January 2021.

In view of the current pandemic situation and with the experience gained from last year's event this year's programme will be as follows:

1. The 'workshop' will be in "on line mode" for two days 18th and 19th January 2021

2. It will be conducted "category-wise". To be more specific the schedules will be arranged on different days and times which will enhance its efficacy and appropriateness to different streams.

3. The registration fee is Rs.5,000 per institution/college.

4. An Institution/College may nominate five of their faculty members.

We do hope you will make use of this opportunity. Please visit our website "www.iae.education" for registration details. The last date for registration is 31-12-2020.

With regards

-Dr. M. Kamala Rani
