Report on "Save Water- Save Earth" Campaign on

23rd July 2021 at Mangampalya, Bangalore -560068

We all know that life cannot be imagined without water, yet no concrete steps are taken by us for its conservation. So, it is our responsibility to conserve water for our future generations because without water every kind of life will be destroyed from the earth. Without water, trees, animals, birds, crops and even human beings themselves will have no existence on earth. Therefore, this is the time when we need to take effective steps to deal with it, taking this matter seriously. Our mother equivalent earth has always protected us and has ensured that we get everything we need. In this way, many types of natural resources exist on earth for the good of mankind. But it is unfortunate that instead of making good use of these natural resources, we only exploit them and one of these natural resources is water which is the basic basis of all life on earth.

It is believed that the first origin of life on earth originated in water. This clean water is the most important basis of life on earth. We have not only exploited this natural resource but have also created a crisis on its availability by wasting huge amounts of it. Along with contaminating the rivers, oceans, we have spoiled the ground water level as well.

We always hear that we should save water because it is a very important resource for our future, but we always take these things lightly. We use water in various ways, from getting up in the morning to sleeping at night, in fact, it cannot be imagined to live even a day without water. But in every task we waste a lot of water. Although we have been told in our schools since childhood that water is present in 70 percent of our planet, but this whole water cannot be used for our daily use activities. Our government and other organizations periodically spread awareness about water conservation to educate people about this subject. There are several ways by which we can save water in our daily life, such as turning off tap water when not in use, re-using washing water, using bucket instead of shower while bathing. We can easily give our valuable contribution in saving water. If we do not adopt these methods in time, then in the coming time we will have to face a terrible problem like water crisis. We humans cannot live without water, but it is most wasted by us. We should not forget that life

is not possible without water on the earth, so to face this crisis, we all have to work together to conserve water.

Still, clean water is a very important item in some rural and backward regions of India and many people have to walk for several kilometers daily for only two buckets of water. On the other hand, some of us waste huge amounts of water every day. Receiving clean water for drinking should be the right of every citizen. We have to understand the importance of water and have to be aware of the causes of water crisis. For this, we also have to educate our children about the careful use of water and water conservation for the future. Clean water is also contaminated by us, due to which it is not potable for us. Many projects have been started by the government to make people aware about water conservation, yet the problem remains as it is and many people are still facing this dreaded problem of water crisis as before. :

It is very easy to understand that if we do not start conserving water, we will not survive. Water is the basis of all life on earth. Although we think that there is sufficient amount of water available on the earth, we forget that it is available in a limited quantity. If we do not start efforts to conserve water, the reserves of fresh water from the earth will soon be exhausted. Water conservation should be the first priority of all government institutions and citizens, so that this problem can be resolved.

Water conservation has many positive effects on society. Due to increasing urbanization, the level of ground water is rapidly decreasing, due to this there is very little left for our essential activities like farming and irrigation etc. If we conserve water, then we will have enough water available for the fields and this will increase crop yields more.

Beti Bachao Beti Padhao is a government social scheme launched by the Prime Minister Narendra Modi in order to address the gender imbalance and discrimination against girl child in the Indian society. This scheme is regarding girl safety, protection and better education in the future without much load on the parents. As per the evaluation report of NITI Aayog, Beti Bachao Beti Padhao (BBBP) scheme has been able to generate significant mass- mobilization to eliminate gender discrimination and valuing the girl child and the scheme has been able to develop many good practices and community-level initiatives. The awareness about the scheme was also found to be high.

In view of above government instruction We , Students and Faculties of **The Oxford College of Engineering** initiated program to create awareness among Garebhavi playa village people to benefits of , Beti Bachao Beti Padhao (BBBP) .Consistent efforts are made under BBBP at all levels to generate awareness about the rights of girl child through community engagement, stop sex selection at birth and encourage positive action to support their education growth and development. Convergent efforts are made in collaboration with other Ministries and stakeholders. The implementation of the Scheme is monitored by the task force under BBBP at District, State and National level.

The overall objective of the BBBP Scheme is to address the issue of decline in Child Sex Ratio and create an enabling environment for education of the girl child. Conducting Math's Events - Benefits

The students, who had attended the program, enhance their hidden talent. As they are pursuing Engineering , they understood the importance and essence of Mathematics. Critical reflection in mathematics helps students gain insight into their strengths and weaknesses as learners and to appreciate the value of errors as powerful motivators to enhance learning and understanding, to explore math's beyond textbooks and apply it inday-to-day situations. Students are looking forward for the next math's activity.

National Youth Day, also known as Vivekananda Jayanti, is celebrated on 12 January, being the birthday of Swami Vivekananda. In 1984 the Government of India declared this day as National Youth Day and since 1985 the event is celebrated in India every year. It was a decision of Government of India taken in 1984 to celebrate the birthday of great Swami Vivekananda, i.e. 12 January, as National Youth Day every year. The Government of India quoted that 'the philosophy of Swamiji and the ideals for which he lived and worked could be a great source of inspiration for the Indian Youth Day. On 12 January 2013, Former Indian Prime Minister Manmohan Singh told in his address at the inauguration of four-year-long celebrations of Swami Vivekananda's 150th birth anniversary.

What Gandhiji said captures the great importance of spreading Swami Vivekananda's ideas and ideals among the youth in our country today. He personified the eternal energy of the youth and their restless quest for truth. It is entirely fitting that the Government of India has declared 12th January, the birthday of Swami Vivekananda, as National Youth Day. We must work to rekindle the eternal message of this great patriot and son of India.

The National Youth Day is observed all over India at schools and colleges, with processions, speeches, music, youth conventions, seminars, Yogasanas, presentations, competitions in essay-writing, recitations and sports on 12 January every year. Swami Vivekananda's lectures and writings, deriving their inspiration from Indian spiritual tradition and the broad outlook of his Master Sri Ramakrishna Paramahansa. These were the source of inspiration and have motivated numerous youth organizations, study circles and service projects involving the youth.

Swami Vivekananda's birthday (12 January 1863), according to the Indian Almanac (Vishuddha Siddhanta Almanac) is on Pausha Krishna Saptami tithi, which falls on different dates in the English Calendar every year (generally in the month of January). This is observed in various centres of Ramakrishna Math and Mission in a traditional Hindu manner which includes mangal arati (a kind of worship practised in India, especially by Hindu people), special worship, homa (fire-ritual), meditation, devotional songs, religious discourses and sandhya-arati (vesper service at evenings). The National Youth Day is observed all over India at schools and colleges, with processions, speeches, music, youth conventions, seminars, Yogasanas, presentations, competitions in essay-writing, recitations and sports on 12 January every year.

For the event, chief guest was Ms. Geetha Menon, the co-founder of Stree Jagruti Samiti and also a Joint Secretary of Domestic Workers Rights Union. Three decades ago, she began her journey towards fighting injustice and exploitation of the working and toiling people. Her inspiration has always been the working-class women of India who continue to stand strong in the face of caste based and patriarchal oppression. She has been closely involved with the women workers in the informal economy and helped them find their voices. Ms. Menon has been at the forefront of community issues, domestic violence and sexual harassment as well as trafficking, that forcibly immobilize and captivate women further restricting their presences in the public sphere. Any human rights violation has been strongly opposed, and in the quest for a society where exploitation of Man over Man, Man over Woman, Man over Nature will end. Ms. Menon is the recipient of the prestigious *Citizen Individual of the Year* award by Namma Bengaluru, the Nirbhaya Award regarding women's safety and empowerment. and has been honoured with several local and national awards in the field of women empowerment, achievement and social entrepreneurship. She has won many Government Boards, as well as on the POSH committee regarding sexual harassment at the workplace. Her achievement is summed up as "A mother of two girls"!!

Ms. Geetha Menon's valuable talk on female welfare triggered the entire audience. She brought ideas on, how men become a benchmark to measure the female traits. The comparison should not be made among the genders, as every gender including queer has to be embraced and considered as unique. She also added, rather than inculcating gender specifications such as femininity and masculinity, it is advisable to nurture individuality.

A token of love to Ms. Geetha Menon

Token of Gratitude to the Chairman

We have presented a short video as a tribute to great Indian women in history. Women today, more than ever before, have gone against the grain of male-dominated societies and cultures. Even though there are numerous women deserving honour in their field of excellence, we have named a few famous Indian women here who have made a lasting impression on the world through this short video presentation. The journey of Jhansi Ki Rani, Kalpana Chawla, Sarojini Naidu, Indira Gandhi, Kiran Mazumdar Shaw, P V Sindhu, and so on will make us proud every moment in life.

REPORT ON NATIONAL CAMPAIGN FOR DOMESTIC WORKERS

THE OXFORD COLLEGE OF ENGINEERING

HOSUR ROAD, BOMMANAHALLI, BANGALORE - 68

Department of Electronics and Communication Engineering

"National Campaign for Domestic Workers"

Outreach activity conducted at Tilak Nagar, J P Nagar, Nakalgudde and Bilekahalli,
Bangalore, Karnataka

Date: 11-05-2022 to 13-05-2022

Time: 10:00am - 4:00pm

The main aim of this campaign is to raise fundamental demands for the recognition and welfare of the domestic work, so that they can lead a dignified life.

This campaign is mainly taking place in four states Rajasthan, Maharashtra, Karnataka and Delhi. In Karnataka, in Bangalore we have visited some of the localities like Tilak Nagar, J P Nagar, Nakalgudde, Bilekahalli, etc., speak to the domestic workers in that particular locality and make a note of the demands they are in need of and write those demands in a postal card and take these cards to Chief Minister and Labour Minister and bring into their notice about the condition of these workers.

The most common demands were:

- i. Domestic workers should be registered with the Labour board. Employer's registration to be mandatory.
- ii. The labour board should issue an identity card.
- iii. The comprehensive law for domestic workers should be made a reality.
- iv. As per the act of 2008, all states should form a welfare board to provide for social protection and social security.
- v. Easy access for entitlements from the Central and State governments, for domestic workers, including migrant domestic workers.
- vi. ILO convention C-189 should be ratified.

These demands are signed by the domestic workers on the post cards.

On June 16th, it is recognized as 'National Domestic workers day'. This is the day on which these post cards will be being given to the Ministers and demand them for the welfare of these workers.

Oral cancer is the sixth most common cancer in the world and has one of the highest mortality rates compared with other malignancies. Defined as an abnormal growth of tissue, oral cancer may be associated with the external lips, oral cavity and oropharynx. The mortality rate has remained relatively unchanged over the last 30 years, both within India and internationally.

The Oxford College of engineering has organized Oral cancer Awareness workshop in association with Indian Orthodontic Society, at The Oxford college of engineering by students of The Oxford Dental college to bring awareness among the students on oral cancer. Students from different branches has shown a great interest in participating in this workshop. The Department of Electronics and communication engineering along with The department of Mechatronics and the department of Mechanical engineering has participated in this rally. It was very informative and brought a light of awareness among the students.
