DEPARTMENT OF CIVIL ENGINEERING

Academic Year 2023-24

Report

The Oxford College of Engineering, Bengaluru- Institution Innovation Council in association with Department of Civil Engineering organized a Value added course on “Innovation and Design Thinking Ideas in Structural Detailing” by Mr. Manjunath K K Structural Engineer, Aakriti Consultants, Bangalore , from 15th February to 23rd February 2024 from 2 PM to 5 PM in offline mode in 2nd Floor, Old Block , Room Number 209,TOCE.

Objective

The main objective of the value added course is to create a knowledge about Innovation and Design Thinking Ideas in Structural Detailing.

1. To create awareness about the importance of innovation and idea generation.
2. To improve student's knowledge in structural detailing drawing .
3. To develop problem solving skills of students
4. To develop ideas to overcome obstacles and be proactive.

Exposed structural detailing can contribute significantly to the architecture of a building. Detailing can transform ordinary or purely utilitarian structural members into objects of aesthetic delight, as well as communicating design ideas and concepts.

This begins by illustrating how architects express a wide diversity of design ideas through structural details. It then demonstrates the breadth of architectural qualities that detailing can contribute to designs, that in turn lead to aesthetically satisfying outcomes.

THE OXFORD COLLEGE OF ENGINEERING

(Recognized by the Govt. of Karnataka, Affiliated to Visvesvaraya Technological University, & Approved by A.I.C.T.E. Accredited by NBA, NAAC with 'A' Grade. Recognized by UGC under section 2(f))

Bommanahalli, Hosur Road, Bengaluru - 560068.

☎: 080 - 61754 601/602/604/736E-mail: engprincipal@theoxford.edu/email Web: www.theoxfordengg.org

Structural detailing expresses or responds to a wide variety of influences. In most cases, details are inspired by some aspect within the building being designed. Typical sources of inspiration include architectural form, function, materiality and construction, or structural actions. Examples of each are discussed in the following sections. Several buildings are then examined whose details reflect ideas or issues arising outside the building – perhaps an event, an aspect of technology, vernacular architecture, an aspect of culture or an historical period.

1. Organization and Planning: An entrepreneur knows that part of this organization and planning involves forming a work team and delegating its functions so that the entrepreneur knows what resources he needs and foresees the risks for decision-making. About 48 students were attended the value added course. The queries of the students were very well handled by the speaker. The overall feedback of the value added course was very positive.

Total 48 students participated in the events from civil department.

Outcome:

1. Students were made aware of Innovation and Design Thinking Ideas in Structural Detailing.
2. Students learned the very basic of innovations and discoveries which are needed for every Structural Detailing field.

DEPARTMENT OF MASTER OF COMPUTER APPLICATIONS

Academic Year 2023-2024

Report

Title: Value-added program “Java Full Stack”

Objective: To provide training on Java Full Stack” and prepare them to industry ready requirements.

Date: 19th February 2024 to 24th February 2024

Time: 9:00AM to 4:15PM

Location: The Oxford College of Engineering

Organized by: TNS India Foundation, Bengaluru

Audience: pre final year students

Speaker: Ms. Madhu Maaleni K, Senior Program Specialist, TNS India Foundation, Bangalore

Ms. Gayatri Vastrad, Senior technical trainer, TNS India Foundation , Bangalore

Method Adopted: Theory and practical sessions along with hands on sessions

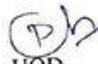

Materials Used: Java framework

Description (only 10-15 lines): The Training was planned for “Java Full Stack” for the students which would help them in their career, placements and their pre final year project work. All the sessions were well organized and it was also fully practical based session. Students were also exposed to interview questionnaires and real-life projects. They have been trained with the advanced tools for solving problems, projects and interview questions.

Outcome:

Students will be able

- Develop error-free, well-documented Java programs
- Appreciate the breadth & depth of Java and use in real-world scenarios.
- Gained knowledge on Java
- Got project ideas

CIRCULAR

SUBJECT: Value added course on 3D printing

Value added course on 3D printing

Value Added course of 30 hours on 3D printing in Department of Electronics and Communication Engineering has been scheduled. All the students of 4th sem Electronics and Communication Engineering are here by informed to attend the above. Class teachers and coordinators are informed to strictly monitor the attendance of the students from 2/5/2024 to 13/6/2024. All the participants will be provided with Certificates.

 - IN ASSOCIATION WITH
 - IEEE PHOTONICS SOCIETY
 - ORGANIZES A ADD ON CERTIFICATE PROGRAM ON
 - 3D PRINTING TECHNOLOGY**
- Chief Patron:** Shri. S.N.V.L. Narasimha Raju, Chairman, The Oxford Educational Institutions.
- Patron:** Dr. N. Kannan, Principal, The Oxford College Of Engineering Bangalore.
- Convener:** Dr. Manju Devi, Professor & HOD, Department of ECE.
- Staff Coordinator:** Dr. Chetana Reddy, Assistant Professor, Department of ECE.

The Department of ECE has organized a value added course on 3D printing for Second year students from 02/05/2024 to 13/06/2024. A total of 129 students enrolled for this program. Total duration of the course was 30 hrs.

Children's Education Society ® THEOXFORDCOLLEGE OF ENGINEERING
Hosur Road, Bommanahalli, Bengaluru-560
068080-30219601/02, Fax: 080-
25730551, 30219629,

Website: www.theoxford.edu Email: engprincipal@theoxford.edu

(Approved by AICTE, New Delhi, Accredited by NBA, New Delhi & Affiliated to VTU, Belgaum)

OBJECTIVE:

1. 3D printing helps a business optimize its performance innovatively
2. 3D printing technique will perform more efficiently with innovative tools.
3. Provides opportunity for innovative ideas in managing a good architect before implementing in real time.

This value added course aims to encourage students to build their interest, knowledge and expertise in high demanding 3D printing career field, enhance their job readiness skill and provide them an opportunity to increase their employability in the technology work force.

All the sessions were held at smart room, The Oxford College of Engineering dated from **02/05/2023 to 13/06/2023** (30 hours).

The resource persons **Mr. Ummed, Mr. Deepank Reddy** and **Mr. Hitesh** explained the concepts of 3D printing to all students along with how to use it for practical applications. The resource persons taught basic concepts of 3D printings and its real time applications.

After each training session hospitality was provided to the trainers.

All the trainers have good knowledge in all the programming concepts. All topics were explained well with examples and the classes were interactive. The trainers discussed possible interview questions of every topic and also gave interview tips.

Website: www.theoxford.edu Email: engprincipal@theoxford.edu

(Approved by AICTE, New Delhi, Accredited by NBA, New Delhi & Affiliated to VTU, Belgaum)

Outcomes:

1. Students got an understanding of 3D printing to integrate with different environment innovatively.
2. Students got an innovative idea on how to design the frameworks for given application using 3D printing software.
3. Students can able to design different models innovatively by using 3D printing tools.

Student's feedback: Students were satisfied with course content and the way the training sessions were conducted.

DEPARTMENT OF MASTER OF COMPUTER APPLICATIONS

Academic Year 2023-2024

Report

Title: Value-added program “Advance Application Development using Spring and Spring Boot”

Objective: To provide training on Advance Application Development using Spring and Spring Boot” and prepare them to industry ready requirements.

Date: 20th May 2024 to 25th May 2024

Time: 9:00AM to 4:15PM

Location: The Oxford College of Engineering

Organized by: XOLO MyXP Technologies, Bangalore

Audience: final year students

Speaker: Mr. Nagesh V, Senior Associate Manager, XOLO MyXP Technologies, Bangalore

Method Adopted: Theory and practical sessions along with hands on sessions

Materials Used: Spring Boot framework

Description (only 10-15 lines): The Training was planned for “Advance Application Development using Spring and Spring Boot” for the students which would help them in their career, placements and their final year project work. All the sessions were well organized and it was also fully practical based session. Students were also exposed to interview questionnaires and real-life projects. They have been trained with the advanced tools for solving problems, projects and interview questions.

Outcome:

Students will be able

- Develop error-free, well-documented Spring Boot programs
- Appreciate the breadth & depth of Spring and Spring Boot and use in real-world scenarios.
- Gained knowledge on Spring and Spring Boot
- Got project ideas
