## REPORT

### Workshop on Cyber Security

**Organized by:** Department Of ISE

**Conducted by:** MR Ajinkya (CTO & CO-Founder of DITTO SECURITY)

**Duration of the course:** 2 days from **03/07/2024 to 04/07/2024** (9.00AM-4:15pm)

**Venue for Theory and Practical Sessions:** The Oxford college of Engineering ISE Department (RoomNo:N408)

### Poster for Workshop

### Objectives for Cybersecurity

#### Understand **Cybersecurity Fundamentals**

- Gain knowledge of basic cybersecurity concepts, principles, and practices.
- Learn about the different types of cyber threats and attacks.

#### Learn **About Cybersecurity Tools and Techniques**

- Explore various cybersecurity tools used for threat detection and prevention.
- Understand how to use firewalls, antivirus software, and intrusion detection systems.

#### Analyse **and Assess Security Risks**

- Learn how to identify and assess potential security risks within an organization.
- Understand risk management strategies and how to implement them effectively.

#### Implement **Security Measures**

- Gain skills in implementing security measures to protect data and systems.
- Learn about encryption, authentication, and access control mechanisms.

#### Monitor **and Respond to Security Incidents**

- Understand the processes for monitoring and detecting security incidents.
- Learn how to respond to security breaches and mitigate their impact.

#### Comply **with Cybersecurity Standards and Regulations**

- Familiarize yourself with cybersecurity laws, regulations, and compliance requirements.
- Understand the importance of adhering to industry standards and best practices.

#### Conduct **Security Audits and Assessments**

- Learn how to perform security audits and assessments to evaluate the effectiveness of security measures.
- Understand how to identify vulnerabilities and recommend improvements.

### ☐ Stay Updated on Emerging Threats and Trends

- Keep abreast of the latest cybersecurity threats, trends, and technologies.
- Learn how to adapt and respond to evolving cyber risks.

## WORKSHOP OVERVIEW

The Oxford College of Engineering organized a 2-day workshop on Cybersecurity for second-year students of the ISE department from 03/07/2024 to 04/07/2024. A total of 53 students enrolled for this program.

The sessions were held at the ISE department (Room No: N408), The Oxford College of Engineering, from 9:00 AM to 4:15 PM each of the 2 days.

## Resource Person

The resource person, **Mr Ajinkya**, is a cybersecurity expert; He provided comprehensive instruction to the students on various aspects of cybersecurity.

## Workshop Structure

### Day 1:

#### Morning Session

- **Introduction to Cybersecurity**
  - Overview of cybersecurity fundamentals
  - Discussion on the importance of cybersecurity in today's digital world
- **Understanding Cyber Threats and Attacks**
  - Detailed explanation of different types of cyber threats and attacks
  - Case studies on recent cyber incidents

#### Afternoon Session

- **Cybersecurity Tools and Techniques**
  - Exploration of various tools used for threat detection and prevention
  - Hands-on sessions with firewalls and antivirus software
- **Network Security**
  - Securing network infrastructure

## TASKS DONE

### 1. userrecon.ipynb

- **Description:** This image shows a Jupyter Notebook named userrecon.ipynb where the user has cloned a GitHub repository <https://github.com/wishihab/userrecon.git>. The repository is successfully cloned, and the contents are listed showing a directory named userrecon. The user then navigates into the userrecon directory and executes a bash script userrecon.sh.
- **Purpose:** The userrecon tool is designed for reconnaissance purposes. It helps in gathering information about user accounts across various platforms by inputting a username.

```
userrecon.ipynb
File Edit View Insert Runtime Tools Help
+ Code + Text
Connect + Gemini
[ ] |git clone https://github.com/wishihab/userrecon.git
[x] Cloning into 'userrecon'...
remote: Enumerating objects: 54, done.
remote: Counting objects: 100% (38/38), done.
remote: Compressing objects: 100% (25/25), done.
remote: Total 54 (delta 17), reused 31 (delta 13), pack-reused 16
Receiving objects: 100% (54/54), 127.22 KiB | 930.00 KiB/s, done.
Resolving deltas: 100% (21/21), done.
[ ] |ls
sample_data userrecon
[ ] |cd userrecon
/content/userrecon
[ ] |bash userrecon.sh
[?] Input Username:
```

### 2. ShellPhish.ipynb

- **Description:** This image shows a Jupyter Notebook named ShellPhish.ipynb. Similar to the previous image, a GitHub repository <https://github.com/jaykali/shellphish.git> is cloned. The repository is successfully cloned, and the contents are listed showing a directory named shellphish. The user navigates into the shellphish directory and executes a bash script shellphish.sh.
- **Purpose:** ShellPhish is a phishing tool originally coded by @linux\_choice. This tool is used for phishing attacks, where it can create phishing pages for various social media platforms and other websites to capture user credentials.

### 3. TBomb.ipynb

- **Description:** This image shows a Jupyter Notebook named TBomb.ipynb where a tool called TBomb by SpeedX is being used. The tool's requirements are installed, and the main interface of the tool is displayed. The interface provides options to start SMS, CALL, or MAIL bombers, which are used to send bulk messages, calls, or emails.
- **Purpose:** TBomb is a tool used for testing the resilience of SMS, call, and email services by bombarding them with a large volume of requests. It's typically used for stress testing communication services

```

# THE OXFORD COLLEGE OF ENGINEERING

## DEPARTMENT INFORMATION SCIENCE AND ENGINEERING

(Recognized by the Govt. of Karnataka, Affiliated to Visvesvaraya Technological University, & Approved by A.I.C.T.E. Accredited by NBA, NAAC with 'A' Grade. Recognized by UGC under section 2(f))  
Bommanahalli, Hosur Road, Bengaluru -560068.

☎: 080 -61754 601/602/604/736E-mail: [engprincipal@theoxford.edu/email..](mailto:engprincipal@theoxford.edu/email..) Web: [www.theoxfordengg.org](http://www.theoxfordengg.org)

### OUT COMES OF THE WORKSHOP:

CO1: Participants gained a thorough understanding of cybersecurity principles.

CO2: Learned to use various cybersecurity tools.

CO3: Developed skills for assessing and managing security risks.

CO4: Conduct a cyber security risk assessment.

CO5: Measure the performance and troubleshoot cyber security systems.

The workshop provided a mix of theoretical knowledge and practical skills, preparing students to tackle real-world cybersecurity challenges.

### CO-PO MAPPING

	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12
<b>CO1</b>	3	2	2	2	2	-	-	-	-	-	-	2
<b>CO2</b>	3	2	2	2	2	-	-	-	-	-	-	2
<b>CO3</b>	3	2	2	2	2	-	-	-	-	-	-	2
<b>CO4</b>	3	2	2	2	2	-	-	-	-	-	-	2
<b>CO5</b>	3	2	2	2	2	-	-	-	-	-	-	2
<b>TARGET</b>	3	2	2	2	2	-	-	-	-	-	-	2

The following images were captured during a hands-on session where various cybersecurity tools were demonstrated. These tools were used to show their capabilities in reconnaissance, phishing, and stress testing.

## **About the Speakers:**

Dr. V. Krishnamoorthy, an esteemed scholar, educator, and researcher, brings over 26 years of rich experience in teaching management subjects. His academic journey, marked by the attainment of gold medals in both MBA and M.Com., reflects his dedication to academic excellence. Beyond the classroom, he has meticulously crafted and executed numerous management development programs tailored for industry professionals. His scholarly endeavors are evidenced by publications in prestigious Scopus-indexed journals, showcasing his commitment to advancing knowledge in his domain. Dr. Krishnamoorthy's research initiatives have been supported by esteemed institutions such as the All India Council for Technical Education and the National Human Rights Commission. In addition to academia, he actively participates in consultancy projects for prominent corporations, utilizing his expertise to tackle real-world challenges. His role as a reviewer for 10 international journals underscores his stature in the academic community. Having led over 150 workshops focusing on research methodologies, soft skills, and cognitive enhancement, Dr. Krishnamoorthy currently serves in the Department of Management Studies at Kongu Engineering College, Erode, Tamil Nadu.

## **Contact Details:**

**Mobile Number:** 9865136311

**Dr. V. Krishnamoorthy, Associate Professor, Department of Management Studies, Kongu Engineering College, Erode.**

## **About the FDP**

The Faculty Development Program (FDP) focusing on Mastery in Social Sciences Research Methodologies and Effective Research Funding and Proposal Writing empowers educators with extensive training in advanced research methodologies and proficient proposal crafting. This program enables faculty members to conduct robust research in social sciences while navigating the complexities of obtaining funding for their projects. Through immersive workshops, seminars, and personalized guidance, participants acquire practical skills and knowledge vital for achieving excellence in research, promoting academic innovation, and advancing scholarly endeavors.

## **FDP Objectives:**

- 1. Elevate faculty members' grasp and mastery of advanced research methodologies tailored to the social sciences.**
2. Provide participants with the expertise and tools necessary to craft compelling research proposals within the social sciences arena.
3. Offer direction on recognizing and accessing funding avenues for social sciences research endeavors.
4. Enable faculty members to make substantial contributions to advancing knowledge in the social sciences through rigorous research.
5. Enhance institutional research capabilities and foster a culture of research excellence within academic settings.

## **Programme Schedule:**

**9:00 a.m.–9:30 a.m.:** Registration

**9:30 AM–10:30 AM:** Inaugural Session:

- Periyar songs by MBA students
- Honouring the dignitaries with bouquets of flowers
- Welcome Address by Dr. Anitha Ramachander, Director, MBA & MCA, TOCE
- Special Address by Dr. Niktha Alur, Principal, TOCBM
- Special Address by Dr. N.Kannan, Principal, TOCE
- Overview of FDP and Introduction to Resource Person By Dr.M.Kathiravan

**10:00 AM–11:30 AM:** Session 1: Understanding Research Methodologies in Social Sciences

**11:30 AM–11:45 AM:** Coffee Break

**11:45 a.m.–1:15 p.m.:** Session 2 : Crafting Compelling Research Narratives: Strategies for Effective Article writing

**1:15 PM–2:00 PM:** Lunch Break

**2:00 PM–3:30 PM:** Session 3: Navigating Funding Opportunities for Social Science Research

**3:30 PM–3:45 PM:**

- Feedback
- Distribution of Certificates
- Vote of Thanks by Harish N.

**3:45 PM - 4:00 PM:** End with Tea

## **Key takeaways**

The Faculty Development Programme (FDP) on "Unlocking Social Science Research: From Methodologies to Funding" held on May 9th, 2024, provided participants with comprehensive insights and practical strategies for advancing their research endeavors. Here are the key takeaways from the FDP:

### **1. Understanding Research Methodologies:**

- The FDP covered a range of research methodologies relevant to social sciences, including qualitative, quantitative, and mixed-methods approaches.
- Emphasis was placed on selecting appropriate methodologies based on research questions and objectives.
- Participants learned about the latest tools and techniques for data collection and analysis, enhancing the rigor and validity of their research.

### **2. Innovative Data Collection Techniques:**

- New and emerging methods of data collection, such as digital ethnography, social media analysis, and participatory action research, were discussed.
- The importance of ethical considerations in data collection, especially in sensitive research contexts, was highlighted.

### **3. Data Analysis and Interpretation:**

- The programme provided insights into advanced data analysis techniques, including statistical analysis, thematic analysis, and content analysis.
- Workshops on using software tools like NVivo, SPSS, and R for data analysis helped participants gain practical skills.

### **4. Crafting Research Proposals:**

- Participants received guidance on writing compelling research proposals, with a focus on clarity, coherence, and alignment with funding priorities.
- The importance of a well-defined research problem, clear objectives, and a robust methodological framework was emphasized.

### **5. Securing Research Funding:**

- Strategies for identifying and approaching potential funding sources, including governmental agencies, non-profits, and international organizations, were discussed.
- Tips on tailoring proposals to fit the specific requirements and priorities of different funding bodies were provided.

- Successful grant applications were showcased to illustrate best practices and common pitfalls.

#### 6. Publishing Research Findings:

- The FDP covered the process of publishing in academic journals, including selecting the right journal, preparing manuscripts, and navigating the peer review process.

Participants learned about open access publishing and the impact of research dissemination through various channels

#### Conclusion:

On May 9, 2024, The Oxford College of Engineering, Bangalore, hosted a Faculty Development Program (FDP) themed "Unlocking Social Science Research: From Methodologies to Funding." The event, facilitated by Dr. V. Krishnamoorthy, an Associate Professor in the Department of Management Studies at Kongu Engineering College, Erode, ran from 9:30 AM to 3:30 PM. Dr. Krishnamoorthy provided in-depth insights into various research methodologies and strategies for securing funding. The FDP aimed to enhance participants' research capabilities and broaden their understanding of social science research processes, fostering academic growth and collaboration among faculty members. The session was well-received, with active engagement and positive feedback from attendees.

## Workshop on "Revolutionizing Innovation: A Dive into Product Development with Creo Parametric"

The Oxford College of Engineering, Bengaluru – Institutions Innovation Council in association with Department of Mechanical Engineering organized a workshop on “**Revolutionizing Innovation: A Dive into Product Development with Creo Parametric**” Mr. Amaresh Prabhuswamy, Technical Engineer, Sumedhas Tech Solutions Pvt Ltd, Bangalore on 9<sup>th</sup> May 2024.

### Objective:

- To introduce Creo Parametric software and its capabilities.

- To explore the product development lifecycle and its stages.
- To demonstrate the use of Creo Parametric in real-world product development.
- To provide hands-on experience with Creo Parametric.
- To inspire innovative product development among participants.

Mr. Amaresh Prabhuswamy started the workshop with an introduction to Creo Parametric, highlighting its powerful features and benefits for product development. He provided a detailed overview of the software's capabilities, including 3D modeling, simulation, and analysis tools. The participants were introduced to the interface and basic functionalities of Creo Parametric.

Following the introduction, Mr. Prabhuswamy delved into the product development lifecycle, explaining its significance and stages. He discussed the various phases, from initial concept and design to prototyping, testing, and final production. Through real-world examples, he illustrated how Creo Parametric supports each stage of the product development process, enhancing efficiency and innovation. The next segment focused on practical applications of Creo Parametric in different industries. Mr. Prabhuswamy showcased case studies where Creo Parametric was used to develop innovative products in sectors such as automotive, aerospace, consumer goods, and medical devices. These examples demonstrated the versatility and impact of Creo Parametric in solving complex design challenges.

A practical demonstration followed, where Mr. Prabhuswamy guided the participants through a step-by-step process of creating a 3D model in Creo Parametric. He demonstrated various tools and techniques, providing valuable tips and best practices. The hands-on session allowed participants to work on their own designs, applying the concepts learned during the demonstration. Participants were given ample opportunity to practice using Creo Parametric through guided exercises. They worked on designing parts, assembling components, and running simulations, gaining practical experience with the software. Mr. Prabhuswamy and his team provided individual assistance, ensuring that participants were able to effectively utilize Creo Parametric for their projects.

The workshop concluded with an interactive Q&A session. Participants asked questions related to specific design challenges, advanced features of Creo Parametric, and tips for improving their design processes. Mr. Prabhuswamy provided insightful answers, further enhancing the participants' understanding and skills.

## **Output:**

- Participants gained a thorough understanding of Creo Parametric software and its applications in product development.
- The workshop highlighted the stages of product development and how Creo Parametric supports each stage.
- Attendees received hands-on training with Creo Parametric, equipping them with practical skills to use in their projects.

Number of Participants: 15

**Academic year 2023 -24**

**Two weeks International Faculty Development Programme**

**on**

**"Advancement in Quantum Computing & Sensor Technology for Viksit Bharat @2047"**

**(15.04.2024 to 27.04.2024)**

The Faculty Development Program was conducted on **Advancement in Quantum Computing & Sensor Technology for Viksit Bharat @2047** from **15.04.2024 to 27.04.2024** (2 Week) in an effective manner and was very successfully completed with the support and encouragement of our Management, Principal, Deans, Conveners and all the Head Of Departments and Co-ordinators. The FDP was organized by Department of Computer Science and Engineering, Information Science and Engineering, Electronics and Communication Engineering & Electrical & Electronics Engineering Departments in Hybrid mode. The FDP was sponsored by Photonic society.

The main objective of this program is to make the participants aware of the the current trends on Quantum Computing & Sensor Technology and it's applications which includes topics like

- Smart Medical Prescription system using Fuzzy logic for various Diagnosis
- Knowledge Management and Quantum Computing– What and Why?
- Advances and Applications of Nanophotonic sensors
- Smart sensor technology for Mankind and Humanity
- Sensing Technologies for Cold Chain Monitoring
- Photonic Crystal based pressure sensors
- Quantum Communication
- Quantum-dot Cellular Automata: Implementation to Defect Characterization
- Photonic sensing technology/2D photonic crystal biosensor based on health care applications
- Fundamentals of Non linear Optics and Optical switching

- Smart Grid CPS systems
- Fundamentals of Quantum computing
- Optical sensing using DBR
- Introduction to Quantum Dots Biosynthesized gold nanoparticle-enabled fiber optic sensor for selective diethanolamine sensing
- Grating Structures for Biosensing Applications
- Optimized Digital Cross Connect Switch for System-On-Chip (SoC)
- Sensor Technology: a look back and forward
- NxN Clos Digital Cross Connect Switch using Quantum Dot Cellular Automata (QCA)
- Optical Sensors for various Applications

so that they can update their knowledge in this area and explore for further research. The objective also included that the knowledge gained and shared would help the faculties to guide students to pursue their career and research works. The FDP was attended by 115 faculty members from various colleges.

DEPARTMENT OF CSE, ISE, ECE AND EEE  
PRESENT

TWO WEEKS INTERNATIONAL FACULTY DEVELOPMENT PROGRAMME

## TOPIC: "ADVANCEMENT IN QUANTUM COMPUTING & SENSOR TECHNOLOGY FOR VIKSIT BHARAT @2047"

### SPEAKERS

**PROF. DR. CIRO RODRIGUEZ**

Professor at the National University Mayor de San Marcos & National University Federico Villareal

**DR SANDIP KUMAR ROY**

Executive Vice President, IDM Technologies  
Dubai, United Arab Emirates

**DR. MANDEEP SINGH**

Assistant Professor, Department of ECE, NET Suratkal

**DR. MOHAMMAD KAMRUL HASAN**

Universiti Kebangsaan Malaysia

**DR. RAJERMANI**

INTI University Malaysia

**DR. SARITA KUMARI**

Assistant Professor, Department of ECE, Amity University

**DR. P.R. YASHASWINI**

Assistant Professor, Malnad College, Hasan

**DR. IBRAR JAHAN MA**

Assistant Professor, RNSIT Bengaluru

**DR. GAURAV KUMAR BHARTI**

Assistant Professor, IIIT Bhopal

**DR. PREETA SHARAN**

Professor, Dean R&D, Oxford College of Engineering Begaluru

**DR. BHUVNESHWER SUTHAR**

Assistant Professor, Government Dungan College Bikaner

**DR VAISHALI DHARE**

Assistant Professor, ECE, Nirma University Ahmedabad

**DR. T. SRINIVAS**

Professor, ECE IISc Bengaluru

**DR. GUNJAN THAKUR**

Professor, Department of ICT, PDEU, Gandhinagar, Gujarat

**DR. AMITA ASTHANA**

Associate Professor Ajay Kumar Garg Engineering College, Ghaziabad

15TH TO 27TH APRIL 2024

**About The Institution**

The Oxford College of Engineering is one of the most prestigious institutions in Bangalore that provides quality teaching and training in professional courses in various streams of Engineering, post graduate programs in Technology (M Tech), Computer Application (MCA) and in Business Administration (MBA) and Research (Ph.D). The college campus is set in a sprawling 6.25 acres of land, ideal for education in a serene environment with buildings over 85,000 sq.meters of built-up area spread over floors for academic purposes. The college is situated along Information Technology corridor in National Highway towards Electronics City (N.H. 7), 1.8 km from the silk board. The college has a dedicated and highly qualified team of faculty who offer Quality education to the students as per the academic scheme of VTU. The Oxford College of Engineering offers 10 Under Graduate programs including B Arch, 10 M Tech programs, MBA, MCA & 12 Research Centre leading to Ph D / M Sc. in Engg. The college has excellent placement. The statute is accredited by NAAC with 'A' grade.

**About CSE, ISE, ECE & EEE Department**

The Department of CSE, ECE were established in the year 2000 and ISE, EEE department were established in the year 2001 with an intake of 60 students for the Undergraduate program (BE). At present the intake has been enhanced. Post Graduate program (M.Tech) is offered by the above departments in following streams such as Power Electronics, Cyber Security, AI&ML, VLSI design and embedded system. Doctoral program is offered across all the departments with well established research centers facilitating research scholars and producing excellent research work. The Department of CSE, ISE and ECE are accredited by NBA.

**OBJECTIVES OF THE FDP**

The proposed faculty development programme provides a proper platform for discussion, presentation of the latest technologies and discoveries in the field of Quantum computing and Sensor Technology. This event provides a forum for academicians and industry experts to exchange their knowledge, ideas and Expertise in the aforementioned areas. The course content will be delivered by eminent experts in the field, having adequate teaching and industrial experience. This course will offer a unique opportunity to the researchers, academicians and students working in this area to acquire knowledge in current and relevant topics in the proposed area. This FDP provides deeper insight and knowledge to the participants about the recent Advancement in Quantum Computing & Sensor Technology.

**OUTCOMES OF THE FDP**

- The Participants will be able to start using the techniques for their research & teaching
- They can get in depth knowledge on recent advancement in industry and research

**Vision & Mission**

**Vision:**

To be a Respected and most sought after Engineering Educational Institutions Engaged in Equipping Individuals capable of building learning organizations in the new Millennium.

**Mission:**

To develop competent students with good value systems and face challenges of the continuously changing world

**QUALITY POLICY**

To equip the students with highest standard of education, knowledge and ethics. To prepare them to meet the challenges of life with full confidence. Aim at all round development of the personality to be useful citizens.

**Speakers of Two Week Faculty Development Programme**

- Prof. Dr. Ciro Rodriguez, Full professor, National University Federico Villareal, National University, Mayor de San Marcos.
- Dr. Rajermani, INTI International University, Malaysia
- Dr. Mandip Singh, Department of ECE, NIT Suratkal
- Prof. Dr. Ciro Rodriguez, Full professor, National University Federico Villareal, National University, Mayor de San Marcos.
- Prof. Sandip Kumar Roy, Executive Vice president, IDM technologies, Dubai, Adjunct Faculty, S P Jain School of Global Management, Dubai
- Dr. Amitesh Kumar, NIT, Patna
- Dr. Deepak Punetha, Asst. Professor, MNNIT, Allahabad
- Dr. Lalit Singh, Post Doctoral Fellow, NTU, Singapore
- Dr. Bhuvaneshwar Suthar, Govt. Dungar College, Bikaner
- Prof. Angela Amphawan, Sunway university, Malaysia
- Dr. Mohammed Kamrul Hasan, Asst. Professor & Head of network & communication Technology, Research Laboratory, Cyber security center, Faculty of Information science & Technology, Universiti Kedangsaan, Malaysia (UKM)
- Mr. Kamal Kishore Choure, Research scholar, MNIT, Jaipur
- Dr. Dorish Essanaro, South America, Peru
- Dr. Abhinav Bhatnagar, BIAS, Nainital
- Dr. Ibrar Jahan MA, RNSIT, Bangalore
- Dr. Shayla Islam, UCSI university, Kuala Lumpur, Malaysia
- Prof. Chittaranjan Nayak, VIT, Vellore
- Prof. Monia Najjar, University EI, Manar, Tunisia
- Dr. Jaspinder Kaur, Post doctoral fellow, NIT Delhi

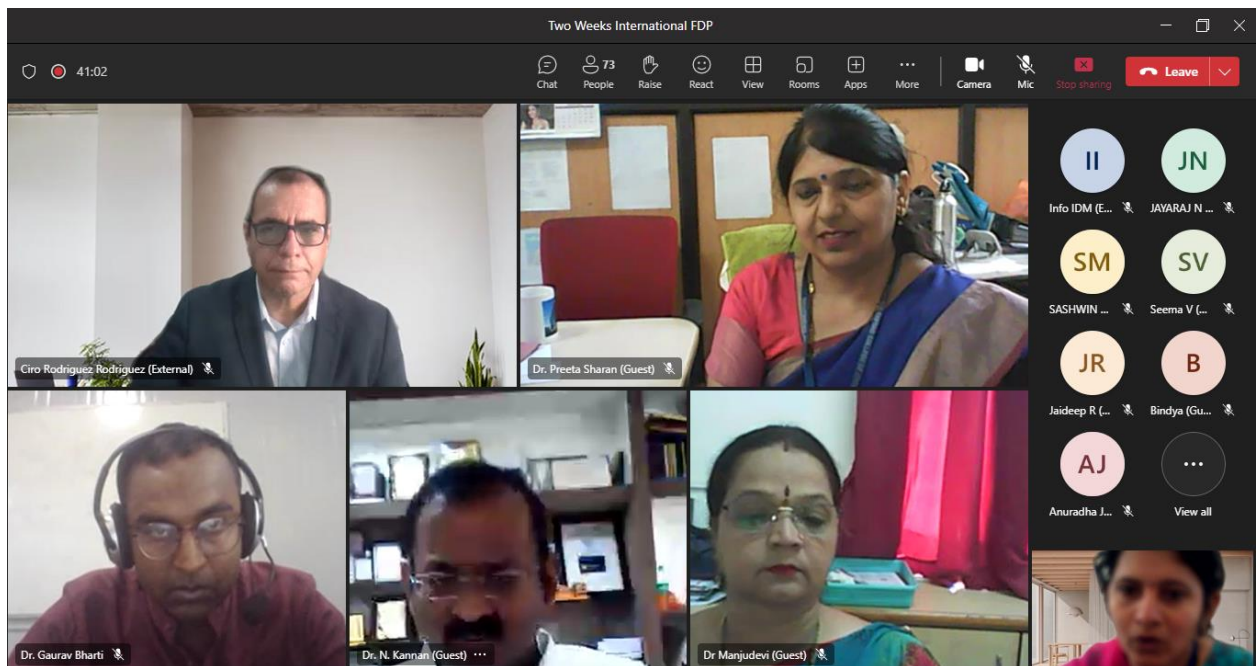

**Brochure of the 2 week FDP on “Advancement in Quantum Computing & Sensor Technology for Viksit Bharat @2047”**

## Inaugural Program of the Faculty Development Program

The 2 Week FDP on started on 15th April 2024 with the Anchoring by Ms.S.Visalini ,Asst professor ,Department of ISE,TOCE.inauguration of FDP done by Prof. Dr. Ciro Rodriguez and Dr.N. Kannan.Welcome address given by Manjula,Asst.Professor,Department of CSE She also shared his views about the Faculty Development Program and importance of attending such program for the enhancement of knowledge of the faculties and students. Dr Preeta Sharan Dean R &D ,The Oxford College of Engineering. She has briefed about the various research opportunities and research areas in photonics. She has highlighted the objectives of the FDP and briefed about the schedule of the program. She also gave a glimpse of the achievements and activities in TOCE.

The keynote address was given by Prof. Dr. Ciro Rodriguez, Full professor, National University Federico Villareal, National University, Mayor de San Marcos.. **Dr.Kannan ,Principal.Highlighed the importance of Advancement in Quantum Computing & Sensor Technology**

### Glimpse of Inaguration session of International FDP Morning session (14/5/24)

#### Objectives

The proposed faculty development programme provides a proper platform for discussion, presentation of the latest technologies and discoveries in the field of Quantum computing and Sensor Technology. This event provides a forum for academicians and industry experts to exchange

their knowledge, Ideas and Expertise in the aforementioned areas. The course content will be delivered by eminent experts in the field, having adequate teaching and industrial experience. This course will offer a unique opportunity to the researchers, academicians and students working in this area to acquire knowledge in current and relevant topics in the proposed area. This FDP provides deeper insight and knowledge to the participants about the recent Advancement in Quantum Computing & Sensor Technology.

### **Participants Attended**

The FDP was attended by 116 participants from various colleges.

### **List of Faculties attended**

### Schedule and the Resource person

The schedule and the Resource people for the 2 week FDP on "**Advancement in Quantum Computing & Sensor Technology for Viksit Bharat @2047**"(15.04.2024 to 27.04.2024) is given below.

#### Event Schedule

Date/Day	Time	Programme	HandledBy
15.04.2024/ Monday	9.30a.m to 10.00 a.m	InaugurationSession	
15.04.2024/ Monday	10.00am to 12.00 p.m	Smart Medical Prescription system using Fuzzy logic for various Diagnosis	<b>Keynote Speaker</b> Prof. Dr. Ciro Rodriguez, Full professor, National University Federico Villareal, National University, Mayor de San Marcos.
15.04.2024/ Monday	2.00 P.M to 4.00 p.m	Knowledge Management and Quantum Computing– What and Why?	Dr. Rajermani , INTI International University, Malaysia
16.04.2024/ Tuesday	10.00a.m to 12.00 p.m	Advances and Applications of Nanophotonic sensors	Dr. Mandip Singh, Department of ECE,NIT Surathkal
16.04.2024/ Tuesday	2.00 pm to 4.00 p.m	Smart sensor technology for Mankind and Humanity	Dr. Preeta Sharan, Dean R&D, The Oxford College of Engineering
17.04.2024/ Wednesday	10.00a.m to 12.00 p.m	Sensing Technologies for Cold Chain Monitoring	Prof. Sandip Kumar Roy , Executive Vice president, IDM technologies ,Dubai, Adjunct Faculty ,S P Jain School of Global Management ,Dubai

17.04.2024/ Wednesday	2.00 pm to 4.00 p.m	Photonic Crystal based pressure sensors	Dr. P.R. Yashaswini is an Assistant Professor in the Department of Electronics and Communication Engineering, Malnad College of Engineering, Hassan
18.04.2024/ Thursday	10.00a.m to 12.00 p.m	Quantum Communication	Dr. T Srinivas, Prof. IISc
18.04.2024/ Thursday	2.00 pm to 4.00 p.m	Quantum-dot Cellular Automata: Implementation to Defect Characterization	Dr Vaishali Dhare, Associate professor, Nirma University, Ahmedabad
19.04.2024/ Friday	10.00a.m to 12.00 p.m	Photonic sensing technology/2D photonic crystal biosensor based on health care applications	Vishalatchi S Research scholar Singapore
19.04.2024/ Friday	2.00 pm to 4.00 p.m	Fundamentals of Non linear Optics and Optical switching	Dr. GAURAV KUMAR BHARTI, Professor, IIIT, Bhopal
22.04.2024/ Monday	10.00a.m to 12.00 p.m	Smart Grid CPS systems	Dr. Mohammed Kamrul Hasan , Asst. Professor & Head of network & communication Technology, Research Laboratory , Cyber security center , Faculty of Information science & Technology , Universiti Kedangsaan, Malaysia (UKM)
22.04.2024/ Monday	2.00 pm to 4.00 p.m	Fundamentals of Quantum computing	Mr. Kamal Kishore Choure, Research scholar, MNIT, Jaipur
23.04.2024/ Tuesday	10.00a.m to 12.00 p.m	Optical sensing using DBR	Dr Ranjith Gowda, Asst. Professor, Department of ECE, Government CPC Polytechnic Mysore .
23.04.2024/ Tuesday	2.00 pm to 4.00 p.m	<b>Introduction to Quantum Dots</b> Biosynthesized gold nanoparticle-enabled fiber optic sensor for selective diethanolamine sensing	<b>Dr. Vivekanand Mishra, Professor, Department of Science, Alliance University, Bangalore, Tmr afternoon speaker should be replaced</b>
24.04.2024/ Wednesday	10.00a.m to 12.00 p.m	Grating Structures for Biosensing Applications	Dr. Ibrar Jahan MA , RNSIT, Bangalore
24.04.2024/ Wednesday	2.00 pm to 4.00 p.m	Optimized Digital Cross Connect Switch for System-On-Chip (SoC)	Dr. Gunjan Thakur, Department of ICT, Pandit Deendayal Energy University, Ahmedabad
25.04.2024/ Thursday	10.00a.m to 12.00 p.m	Sensor Technology: a look back and forward	Dr. Sarita Kumari, Dept of ECE, Amity University, Jharkand

25.04.2024/ Thursday	2.00 pm to 4.00 p.m	NxN Clos Digital Cross Connect Switch using Quantum Dot Cellular Automata (QCA)	Dr. Amita Asthana Associate Professor Ajay Kumar Garg Engineering College, Ghaziabad
27.04.2024/ Saturday	10.00a.m to 12.00 p.m	Optical Sensors for various Applications	Dr. Mayur Kumar Chhipa Counselor, IEEE ISBAT University Student Branch Head of ODeL & Engineering Program ISBAT University, Kampala, Uganda
27.04.2024/ Saturday	2.00 p.m to 2.30 p.m	ValedictorySession	

After successful completion of 2 week days FDP, the participants have got the participant certificate.

**Children's Education Society (R)**  
**THE OXFORD COLLEGE OF ENGINEERING**

Hosur Road , Bommanahalli , Bengaluru - 560068  
(Accredited by NAAC A Grade, Approved by AICTE , New Delhi , Affiliated V T U Belgaum )

**DEPARTMENT OF CSE,ISE,ECE & EEE**

**Convenor Certificate**

This is to certify that **Dr.Gaurav Kumar Bharti**, from **IIIT,Bombay** has Successfully convened the Two Week International Faculty Development Program on "Advancement in Quantum Computing & Sensor Technology for Viksit Bharat@2047" conducted by the Department of CSE,ISE,ECE & EEE, The Oxford College of Engineering, from **15/04/2024 to 27/04/2024**.

DEAN R & D

Appreciation certificate

#### Faculty Coordinator certificate

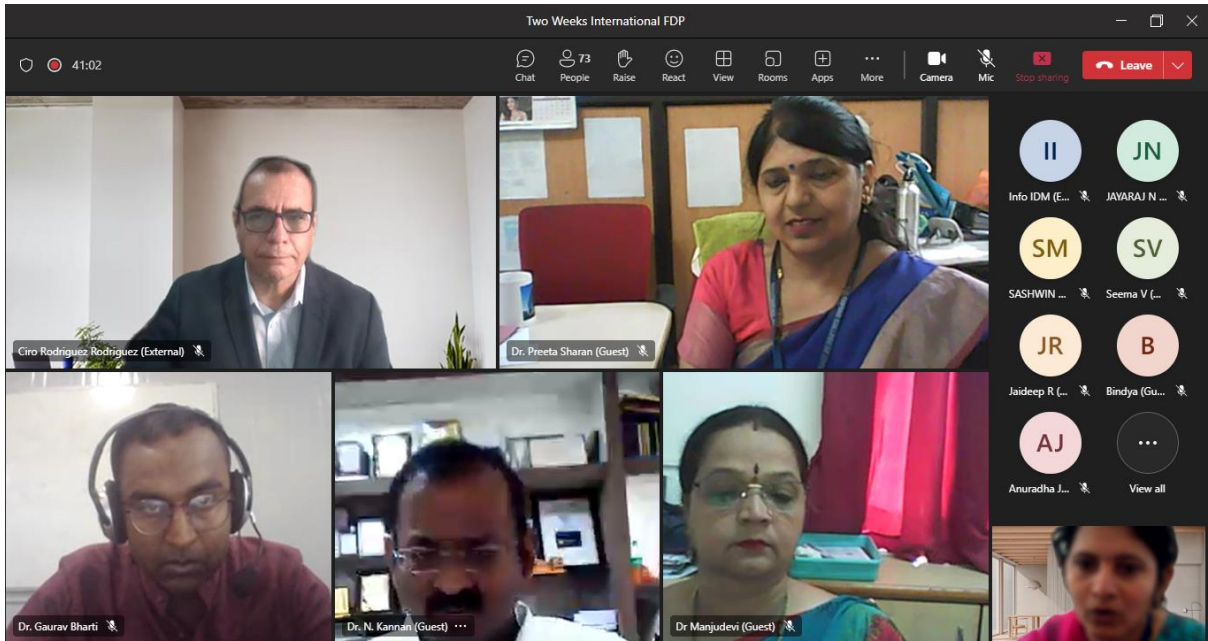

The FDP was conducted in hybrid mode .

The Event was inaugurated by Dr. N. Kannan, Principal the oxford college of Engineering at 9 AM on 15/04/2024. Prof. Manjula Department of CSE, initiated the event by welcoming the guests and participants to the event. Dr. Kannan N, wished the event all success and good learning to the participants. Dr.Preeta Sharan gave detailed introduction about the event.

Prof. Jayaraj introduced the day's speaker Prof. Dr. Ciro Rodriguez, Full professor, National University Federico Villareal, National University, Mayor de San Marcos, and welcomed him to take over the session.

Dr. Ciro gave a detailed session on the topic "Smart Medical Prescription system using Fuzzy logic for various Diagnosis" and thoroughly answered all the queries.

Prof. Visalini thanked Dr. Ciro for his graceful presence and presenting a tremendous session, , and all the participants for active participation.

## Quantum Computing For Business Applications

**Some promising uses:**

- Route and fleet optimization
  - can help determine the most efficient allocation of resources to resolve common supply chain issues such as cost reduction, punctuality and utilization.
  - These kinds of problems might require less fault tolerance than needed for other types of applications and might allow companies to achieve more successful results.

### Plasmon-Polaritons

**What is a plasmon ?**

- Compare electron gas in a metal and real gas of molecules
- Metals are expected to allow for electron density waves: plasmons

**Bulk plasmon**

- Metals allow for EM wave propagation above the plasma frequency  
They become transparent!

**Surface plasmon**

Dielectric  
Metal

Note: This is a TM wave

- Sometimes called a surface plasmon-polariton (strong coupling to EM field)

**Sensor Technologies Driving Quantum Revolution**

- Quantum computing is attracting development money,
- Quantum sensors have application across a myriad of markets and are available now
- Quantum computing model relies heavily on shared access to immensely expensive hardware
- Quantum sensing has the potential to sell in very high volumes
- By 2034 both technologies will be running in parallel

The top screenshot displays a Zoom meeting interface with a slide titled "Photonics and its applications". The slide features a central hub labeled "Photonics and its applications" connected to six main categories:
 

- Materials:** Dielectrics, Metas, Metamaterials
- Micro/nano structures:** Quantum wells, Quantum dots, PhC, Waveguides, cavity, gratings
- Light-matter interactions:** Exciton-polariton, Surface-plasmon-polariton, Reflection, refraction, interference
- Energy Solar Cells**
- Optoelectronics ICs:** Quantum computing, Biotechnology and biology, Medicine (surgery)
- Optical Communication:** Transmission media, Amplifiers, Detectors, Light Sources

The bottom screenshot shows a Zoom meeting interface with a slide titled "PASSIVE DEVICES". The slide includes a bulleted list of device types and several diagrams:
 

- Power Dividers - Splitters, Couplers**
- Polarizers - Waveplates**
- Mux/Demux - Optical Devices (ODs)**
- Gratings**
- Planar Lightwave Circuits/Photonic Integrated circuits - ODs**

 Diagrams include:
 

- A 3D schematic of a planar lightwave circuit with components like Laser, Optical ring resonator, Phase shifter, Input coupler, Optical waveguide, Optical isolator, Optical waveguide, Phase shifter, Coupler, and Optical fiber.
- A diagram of a waveguide with a grating structure, showing incident and transmitted waves.
- A diagram of a tapered waveguide with input and output sections, labeled with input port  $(P_0)$ , straight sections, taper section, and output waveguides.
- A diagram of a linear polarizer showing randomly polarized light becoming linearly polarized light.

Day4/18/4/24(AN): **The Fourth day session was an invited talk on “Quantum-dot Cellular Automata: Implementation to Defect Characterization”** by Dr Vaishali Dhare, Associate professor, Nirma University, Ahmedabad, She explained about the Taxonomy of Nano information processing and Defect Characteristics

AN: Fundamentals of Non linear Optics and Optical switching  
**22.04.2024/ Monday-10.00a.m to 12.00 p.m- Smart Grid CPS systems- Dr. Mohammed Kamrul Hasan , Asst. Professor & Head of network& communication Technology, Research Laboratory ,Cyber security center ,Faculty of Information science & Technology ,Universiti Kedangsaan, Malaysia (UKM)**

Dr. Mohammed Kamrul Hasan commenced the session with a comprehensive introduction to Smart Grid CPS systems, highlighting their importance in modern power systems. He elaborated on the following key points:

- **Definition and Components:** Dr. Hasan explained the basic components and architecture of Smart Grid CPS systems, including the integration of cyber-physical elements in the grid.
- **Functionality and Benefits:** He discussed how CPS systems enhance the functionality, efficiency, and reliability of smart grids.
- **Challenges and Solutions:** The session covered the major challenges faced in the implementation of Smart Grid CPS, such as cybersecurity threats, data management issues, and system integration complexities. Dr. Hasan also presented potential solutions and mitigation strategies.
- **Technological Advancements:** An overview of recent technological advancements and research trends in Smart Grid CPS was provided.
- **Case Studies:** Dr. Hasan shared relevant case studies and real-world applications to illustrate the practical implications and benefits of Smart Grid CPS systems.

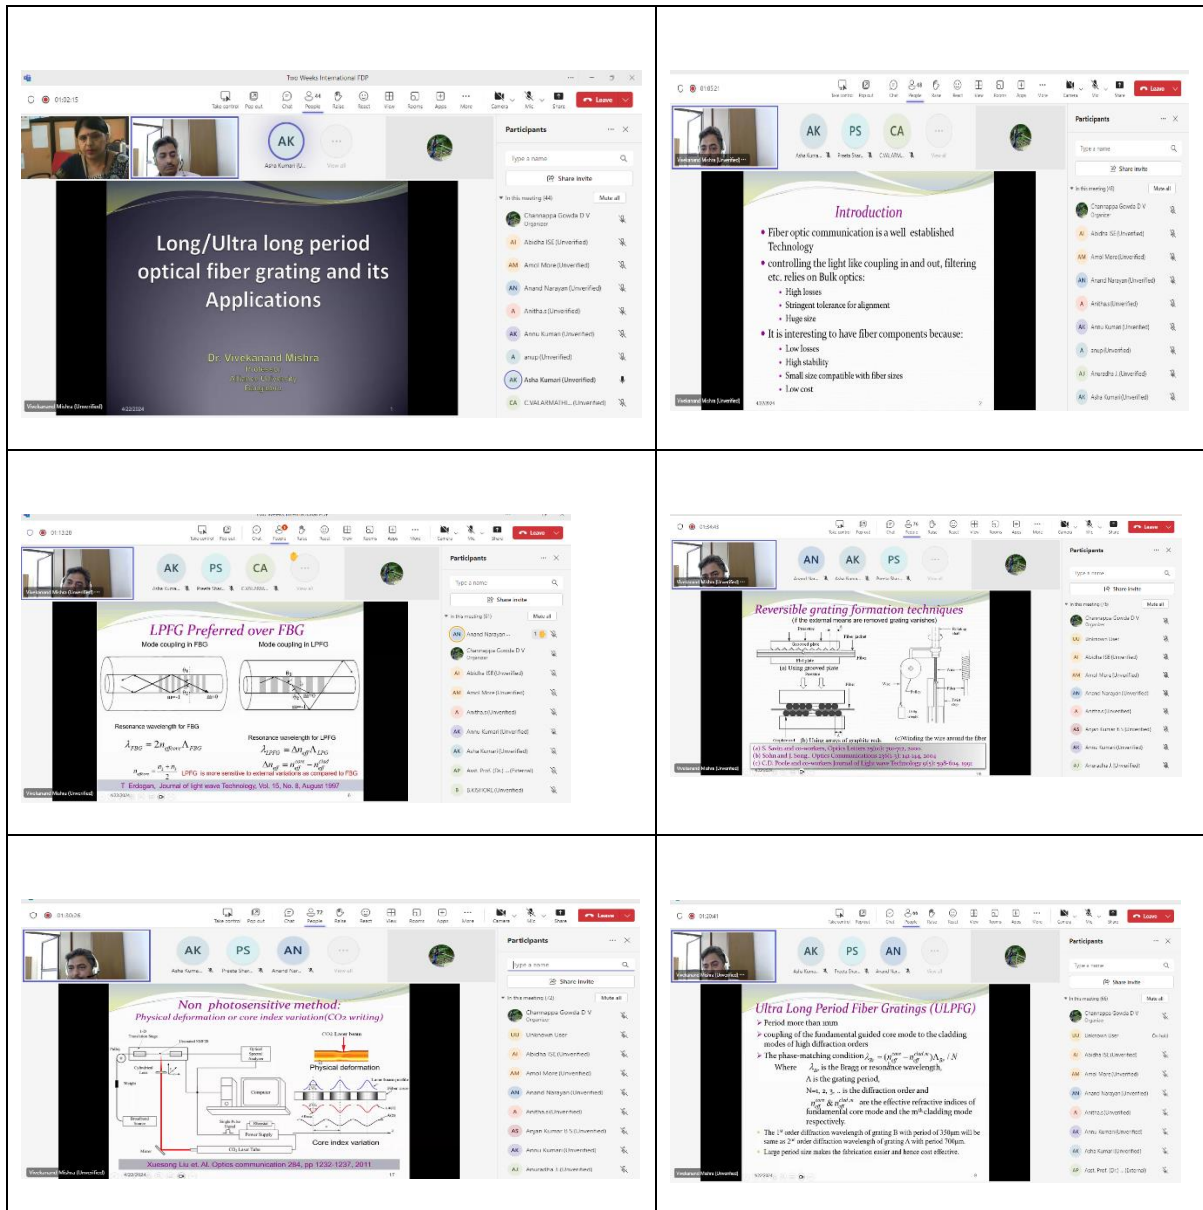

The FDP session on Smart Grid CPS systems, led by Dr. Mohammed Kamrul Hasan, was a resounding success. It provided participants with a thorough understanding of the subject, inspiring them to incorporate these concepts into their academic and research activities.

**22.04.2024/ Monday-2.00p.m to 3.00 p.m- Long or Ultra-Long Period Optical Fiber Grating and Its Applications-Dr. Vivekanand Mishra,Professor, Department of Science, Alliance University, Bangalore,**

The session aimed to provide participants with a comprehensive understanding of the principles, fabrication techniques, and diverse applications of long and ultra-long period optical fiber gratings.

The primary objectives of the session were:

To introduce the concept and working principles of long and ultra-long period optical fiber gratings.

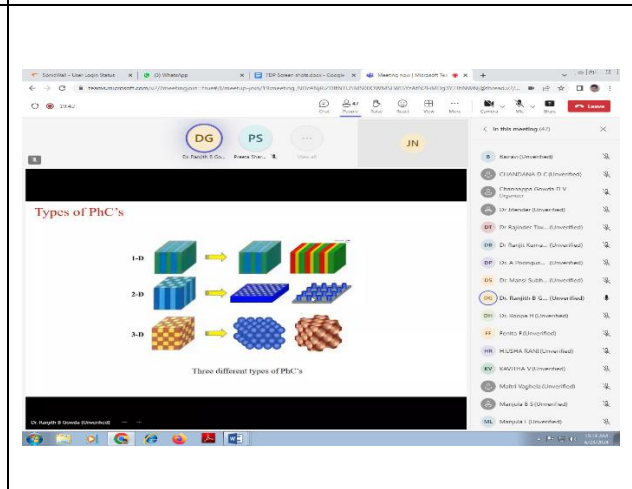

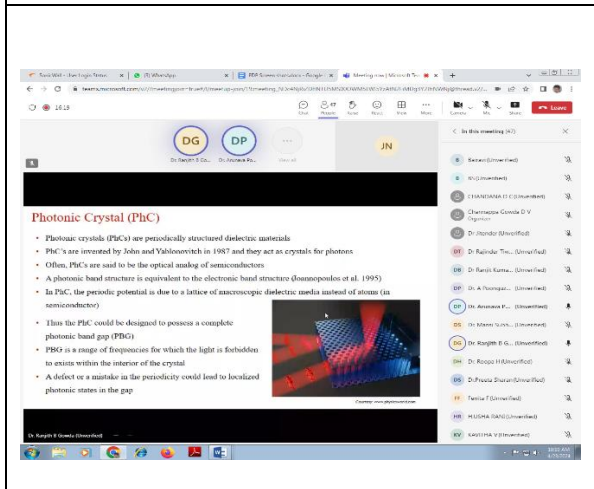

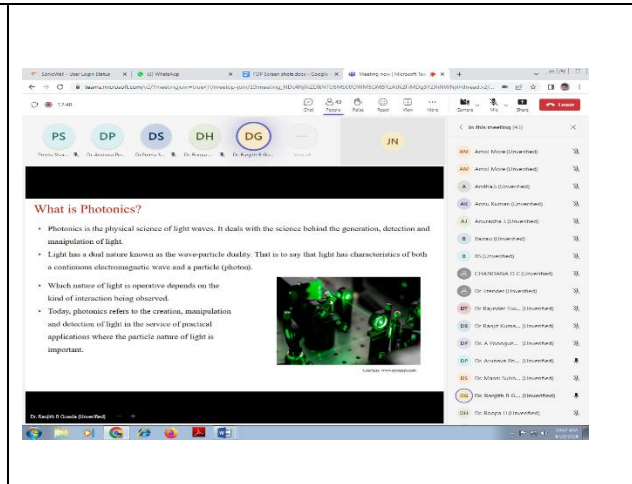

To discuss the methods used for the fabrication of these gratings.

To explore the various applications of these gratings in different fields.

Participants gained valuable knowledge about the advancements and applications of optical fiber gratings, which will contribute to their future research and teaching endeavors.

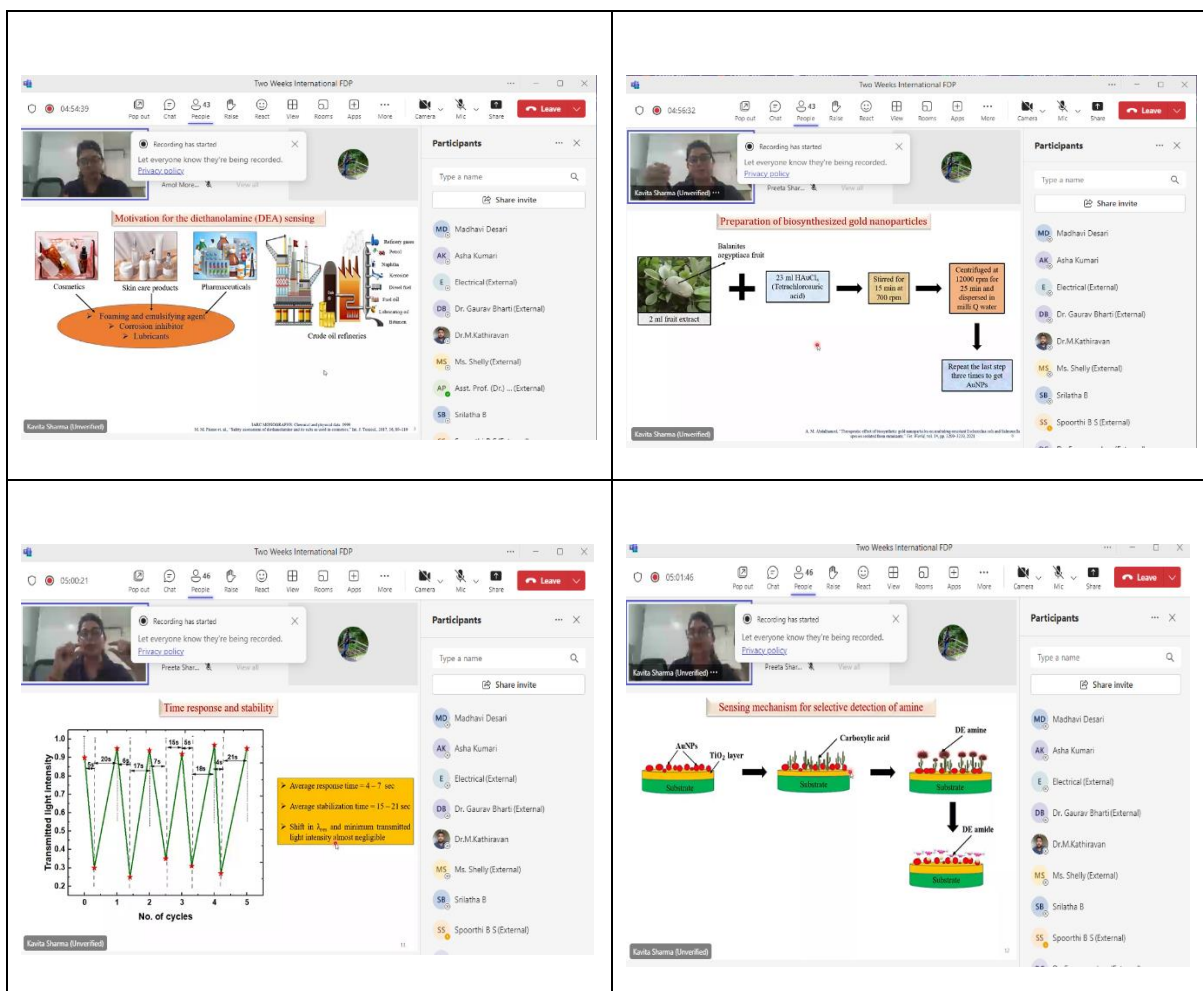

**23.04.2024/ Tuesday 10.00a.m to 12.00 p.m-Optical sensing using DBR Dr. Ranjith B Gowda,Prof. Govt.CPC Polytechnique,Mysuru.**

Dr. Ranjith B. Gowda explained the fundamental principles and the importance of optical sensing technologies in various industries. Advanced topics in optical sensing were discussed, including recent advancements and future trends in the field

**23.04.2024/ Tuesday 2.00 pm to 4.00 p.m Biosynthesized gold nanoparticle-enabled fiber optic sensor for selective diethanolamine sensing Dr. Kavita Sharma, Research Professional SeNSE IIT Delhi**

Dr. Kavitha Sharma began the session by providing a comprehensive introduction to the topic, explaining the importance of diethanolamine sensing in various industrial and environmental contexts. Diethanolamine is a commonly used chemical in manufacturing, pharmaceuticals, and as a gas scrubbing agent, necessitating reliable and selective detection methods. The session aimed to introduce and elaborate on the innovative approach of using biosynthesized gold nanoparticles in fiber optic sensors for detecting diethanolamine (DEA).

**24.04.2024/ Wednesday 10.00a.m to 12.00 p.m Grating Structures for Biosensing Applications Dr.IbrarJahan MA , RNSIT,Bangalore**

Dr.IbrarJahan MA commenced the session with a comprehensive introduction of Grating Structures for Biosensing Applications. She elaborated on the following key points

**Principle:** Grating structures function based on the principle of diffraction, where incident light interacts with periodic nanostructures to generate diffracted orders. Changes in the surrounding medium, such as biomolecular binding events, can alter the grating properties, leading to measurable changes in the diffracted light

**Label-Free Detection:** One of the significant advantages of grating-based biosensors is their capability for label-free detection. This means that biomolecular interactions can be detected directly without the need for fluorescent or other labels, simplifying the assay procedure and reducing costs.

**Real-Time Monitoring:** Grating structures enable real-time monitoring of biomolecular interactions, providing dynamic information on binding kinetics and affinity constants. This capability is particularly valuable for studying biomolecular interactions and characterizing biochemical processes.

**Miniaturization and Integration:** Grating-based biosensors can be miniaturized and integrated into lab-on-a-chip systems, enabling portable and point-of-care diagnostic applications. Integration with microfluidic systems further enhances the capabilities of grating biosensors for high-Applications: Grating structures find applications in various fields, including medical diagnostics, environmental monitoring, food safety, and pharmaceutical development. They are used for detecting biomolecules such as proteins, DNA, viruses, and small molecules with high sensitivity and specificity.

**Challenges:** Despite their advantages, grating-based biosensors face challenges such as optimizing sensitivity while minimizing non-specific binding, improving fabrication techniques for reproducibility, and enhancing signal-to-noise ratios for reliable detection in complex sample matrices.

**24.04.2024/ Wednesday,2.00 pm to 4.00 p.m Optimized Digital Cross Connect Switch for System-On-Chip (SoC) Dr. Gunjan Thakur ,Assistant Professor, Department of ICT, PDEU, Gandhinagar, Gujarat.**

Dr. Gunjan Thakur commenced the session with a comprehensive introduction of Optimized Digital Cross Connect Switch for System-On-Chip (SoC). She elaborated on the following key points

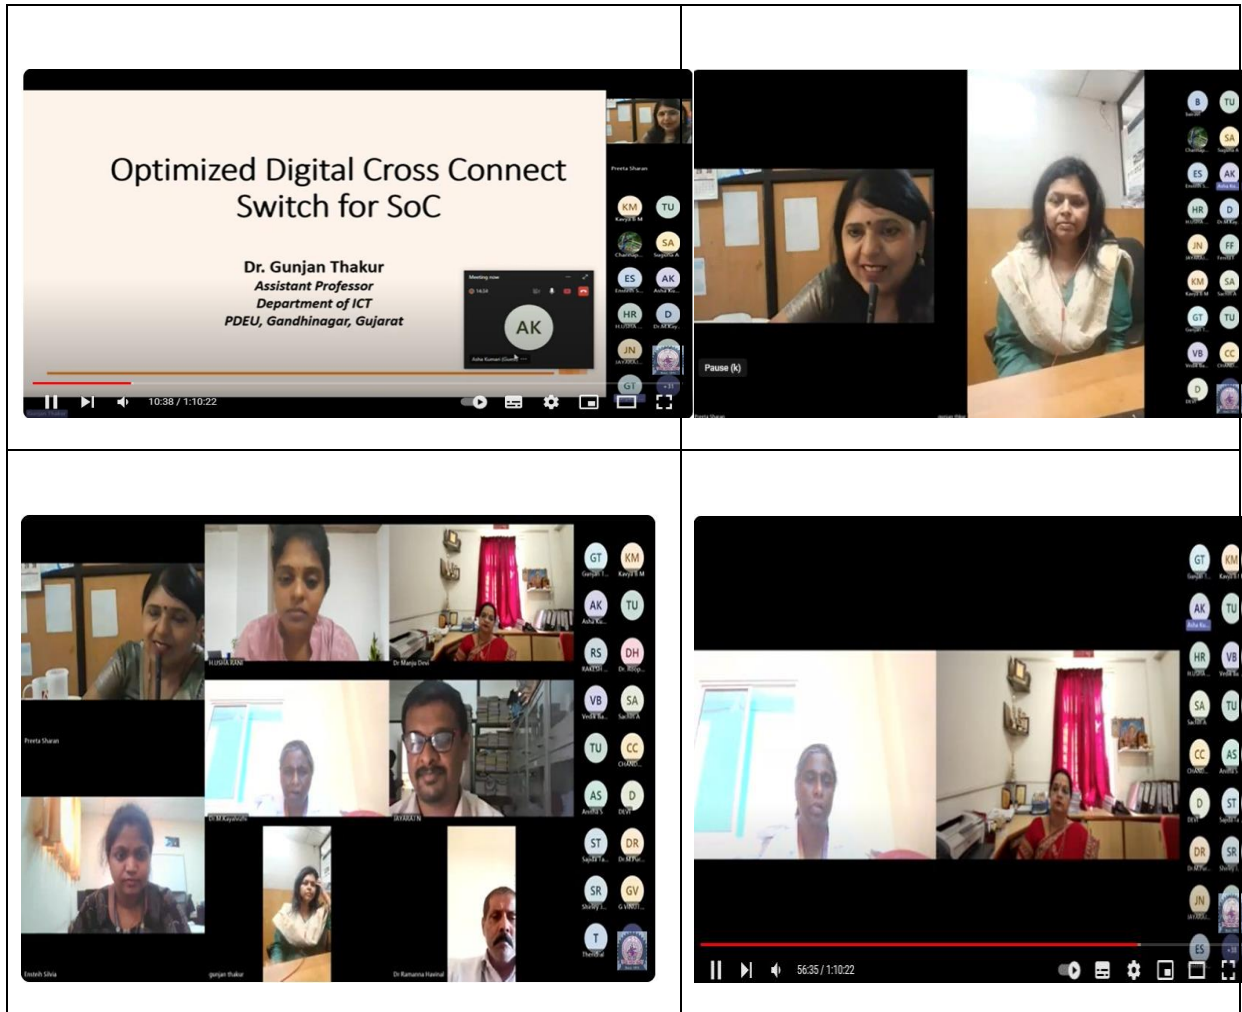

**Functionality:** A digital cross-connect switch (DCS) is a key component in SoCs responsible for routing data between different processing elements, memory blocks, and peripherals within the chip. It facilitates efficient communication and data exchange between various components of the SoC. The DCS offers flexibility and scalability to accommodate different communication protocols, data rates, and interface standards within the SoC. It supports dynamic reconfiguration to adapt to changing system requirements and optimize resource utilization.

**Reliability and Fault Tolerance:** The DCS implements mechanisms for error detection,

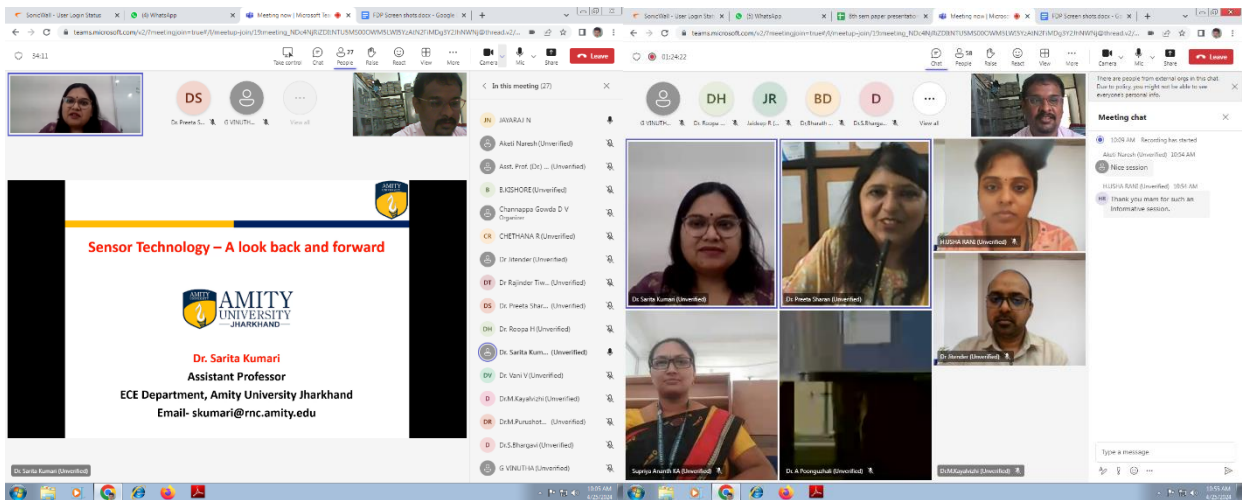

correction, and fault tolerance to ensure reliable operation in the presence of transient faults, aging effects, and manufacturing variations. Redundancy, error checking codes, and built-in self-test (BIST) features may be integrated to enhance the robustness of the DCS.

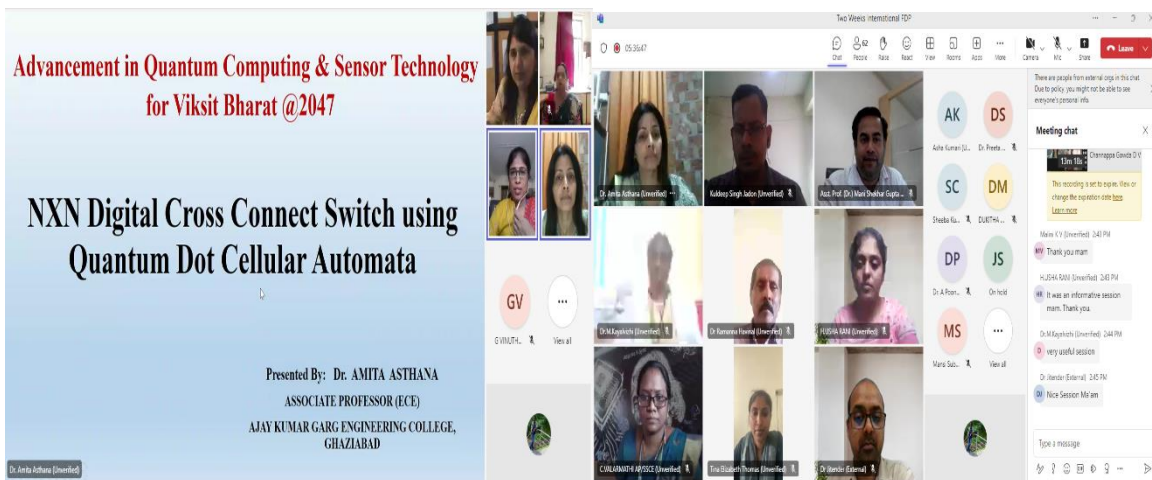

Design Optimization: The design of the DCS is optimized using advanced CAD tools, simulation techniques, and hardware description languages (HDLs) to achieve the desired performance metrics while meeting constraints such as area, power, and timing. Iterative design refinement and verification processes are employed to validate the functionality and performance of the DCS prior to fabrication.

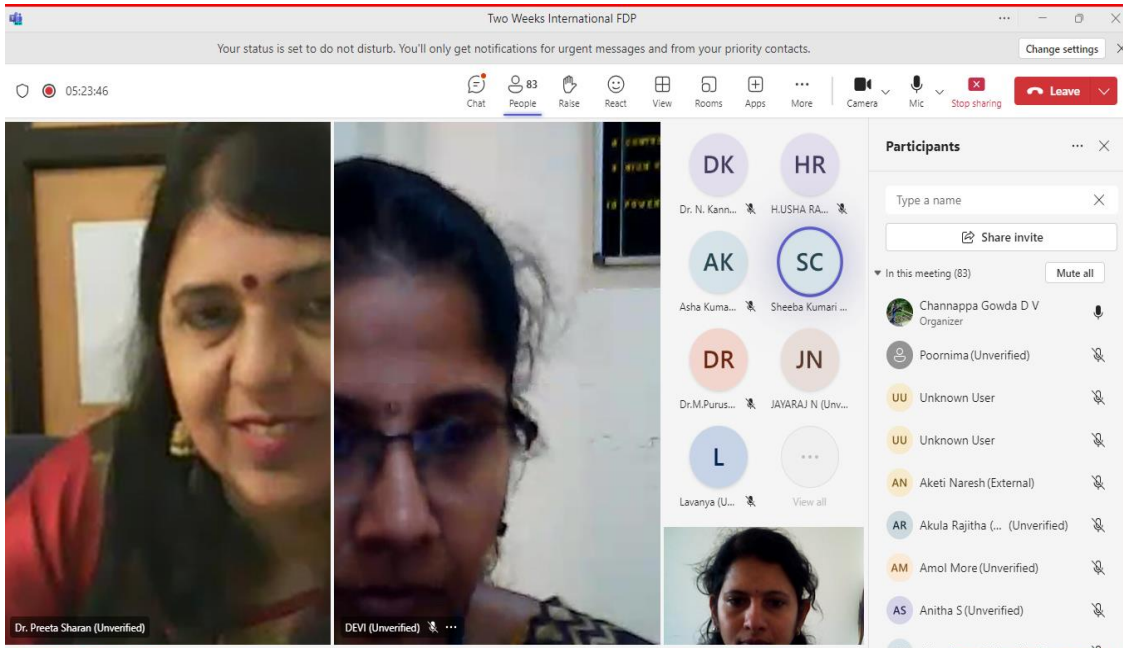

Day 9 morning session talk was by Dr. Sarita Kumari, Assistant Professor, Dept of ECE, Amity University, Jharkand on the topic “Sensor Technology: a look back and forward”.

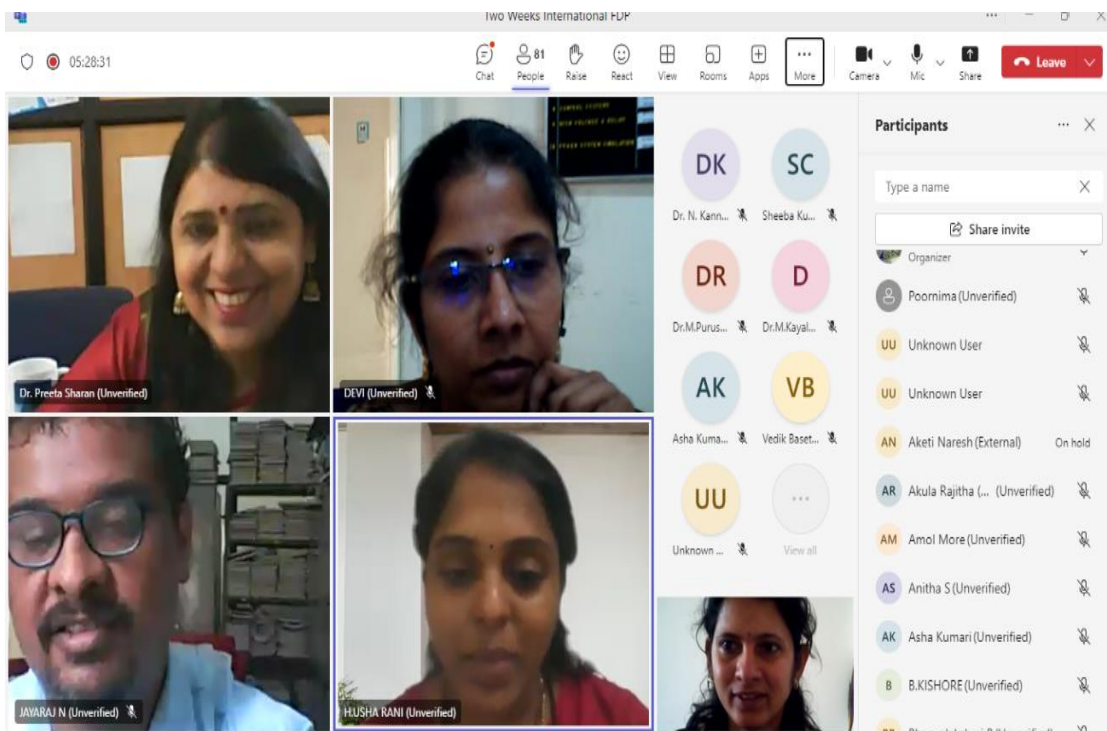

**Day9 Afternoon session started at 2 PM on the topic “NXN Digital Cross Connect switch using Quantum Dot Cellular Automata” by Dr.Amitha Asthana, Associate Professor, Department of ECE, Ajay Kumar Garg Engineering College, Ghaziabad.**

Day 10 and the last day of the FDP - 27/4/24-Morning session started at 10 AM with a talk on “Metamaterials in Photonics” by Dr. Deepak Kumar , Research Fellow, School of Electronic and Electrical Engineering, University of Leeds, Leeds, LS2 9JT, United Kingdom.

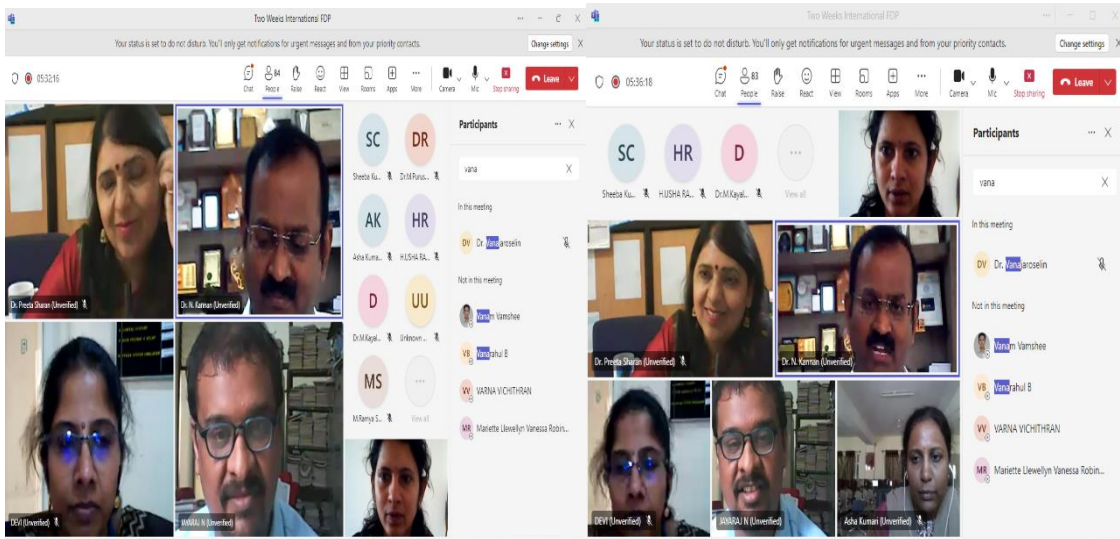

**The afternoon session valedictory function started at 2 PM. The chief guest for the valedictory function was Dr. N.Kannan, Principal, The Oxford College of Engineering, Bangalore. The participants shared their valuable feedback and their experience about the 2 weeks FDP.**

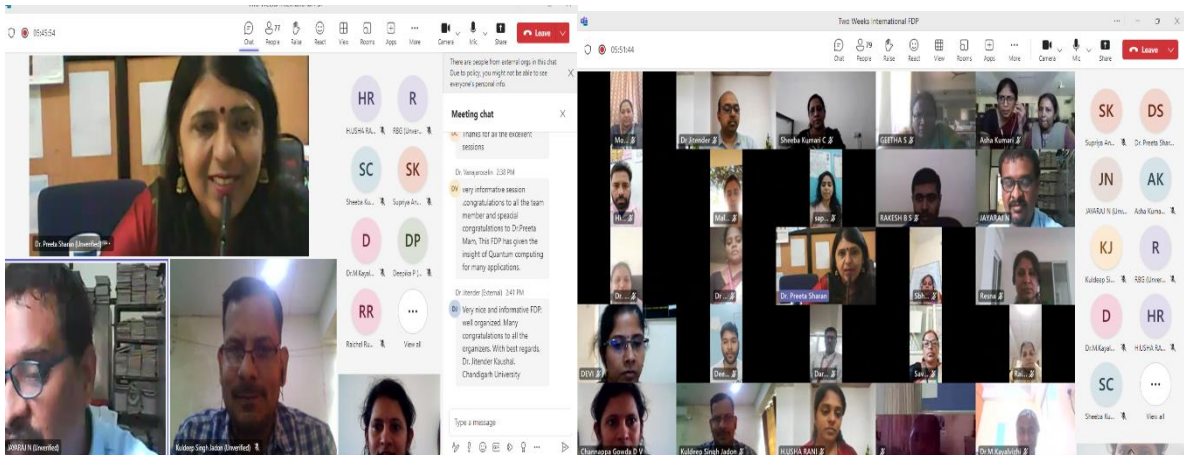

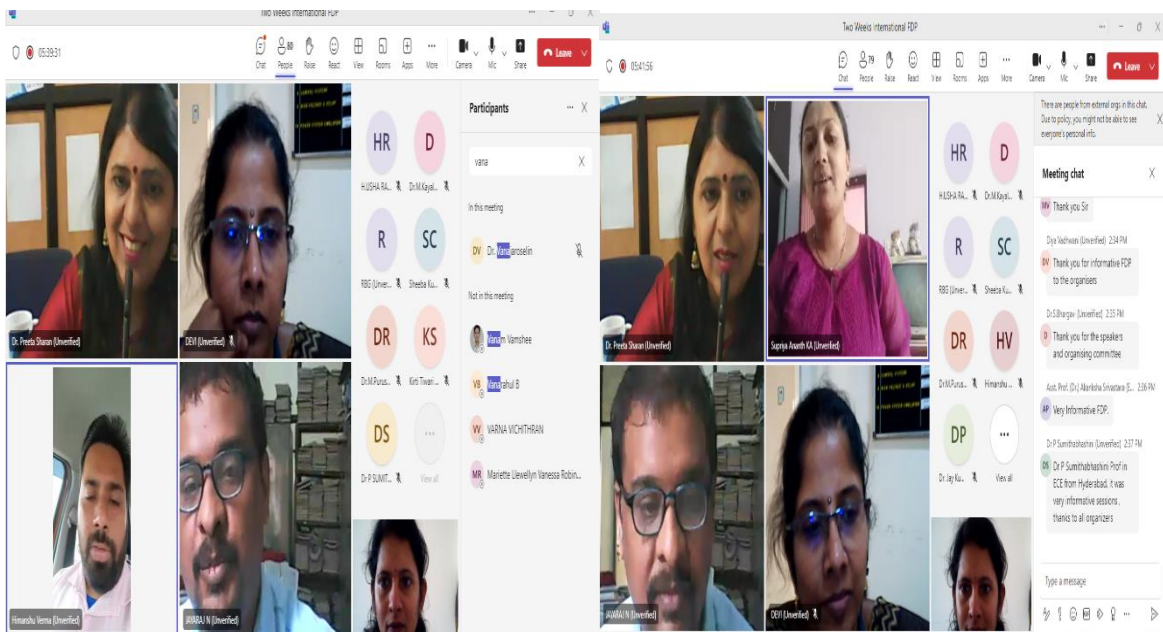

Participants providing their feedback

Dr. N. Kannan, Principal, The Oxford College of Engineering addressing the FDP participants

The 2 weeks FDP ended with a vote of thanks by Prof. Manjula, Asst. Professor, Department of CSE, The Oxford College of Engineering.

## Valedictory Event :

FDP was ended with happy learning and concluded with a Valedictory function on 5.04.2024 at 3.30pm. Faculty Coordinator Mr Jayaraj ,Asst.Professor,Department of ECE,welcomed all the dignitaries and participants to the Valedictory function. And **The chief guest for the valedictory function was Dr. N.Kannan, Principal, The Oxford College of Enginnering, Bangalore.** The participants shared their valuable feedback and their experience about the 2 weeks

## FDP.

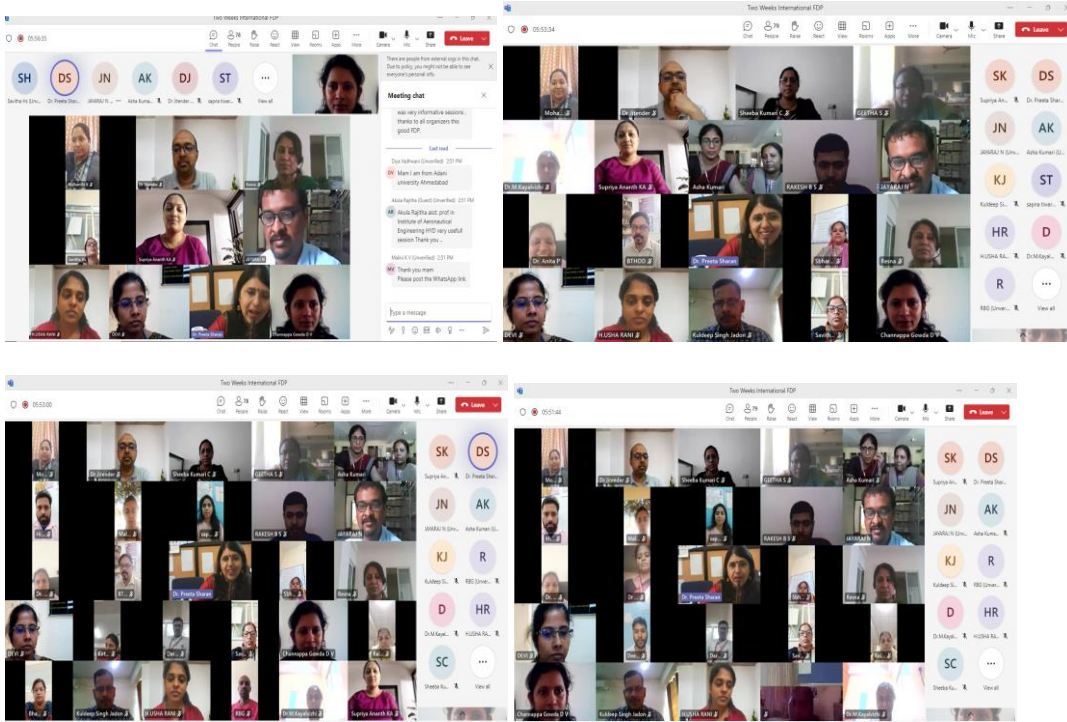

Dr Preeta Sharan ,Dean R & D, Summarised the 2 Week sessions of the FDP shared her views and wished to continue the collaborative learning in the field of Quantum computing and sensor Technology. She has also mentioned about the research opportunities and scopes in the field of Quantum computing and sensor Technology. Ms.Manjula,Asst.Professor,Department of CSE, concluded FDP with a wonderful thank giving note to all the participants , Management , Principal, Deans of TOCE and Organising committee members of this FDP for the smooth conduction of this two week FDP through hybrid mode.

### **Feedback from the Participants :**

Overall feedback from the participants expressed their happiness and great learning

Throughout the sessions, all the participants were well satisfied with the speakers and their delivery of knowledge sharing.

## Outcome

All the sessions were very much informative with engaging lectures, interactive sessions, and hands-on sessions. The participants were benefited by advanced and recent knowledge in the field of photonics which will enhance their professional competence. The areas covered are of great benefit to participants as the topics correspond to the current area of work. Participants learned about the cutting-edge technologies most commonly used in the field

The workshop started with Welcome speech by Dr. Pallavi G, department of science and Humanities. Followed by Invocation song and lighting the lamp. Dr. Gangavathi P introduced the resource person to the participants. Then Principal Dr N Kannan welcomed resource person, all the heads of the departments, faculties, student's volunteers and participants. Sir spoke about the importance of python programming for young engineers and requirements of coding in this competitive world. The program ended with vote of thanks by Gowri II<sup>nd</sup> sem ECE student.

Valedictory function was celebrated on 24/4/24, Kushalya IInd semester ECE students briefed about three days workshop and taken feedback from the few participants and principal sir addressed the participants and resource person shared his opinion. Then resource person distributed the certificates for few participants. The programme ended with National anthem.

### **About python workshop**

The Python programming offers students the ability to perform common and useful mathematical calculations. There are a lot of practical applications for python programming. This workshop provided students coding techniques for problem solving in mathematics

Understanding the problem and desired outcome is a critical first step in solving any problem. Programming languages can help you do this by breaking down the problem in to smaller, more specific sub problems that can be solved with the code. Learn to Code by Solving Problems is a practical introduction to programming using python. It uses coding-competition challenges to teach you the mechanics of coding and how to think like a savvy programmer. Computers are capable of solving almost any problem when given the right instructions.

### **OBJECTIVES:**

#### **The main objectives of through problem solving using python programming is**

- 1 To provide the opportunity for students to enhance their knowledge and skills in problem solving using python programming also benefit the participants to contribute to overall academic and personal development.
2. The ability to innovate and think creatively is crucial for young engineers. Python programming, with its versatility and simplicity, offers a powerful toolset for problem-solving and fostering innovation.
3. Python programming A Catalyst for innovation & can be utilized to cultivate innovation and design thinking among young engineers.
4. Python's flexibility enables young engineers to frame problems in a structured manner, fostering a design thinking approach
5. By integrating design thinking methodologies with Python programming, engineers can ideate, prototype, and iterate solutions while keeping user needs at the forefront
6. Collaborative Innovation Through collaborative coding sessions and code reviews, teams can collectively brainstorm innovative solutions and refine their designs iteratively.

### **OUT COME:**

Students got motivated by **innovation and design thinking opportunities** workshop and were able to build basic programs using fundamental programming constructs like variables, conditional logic, looping and functions.

1. The course outcomes were evident as student's demonstrated proficiency in python by the end of the workshop.
2. They gained practical skills in solving maths problems using python.

The workshop successfully provided a platform for students to broaden their programming knowledge and enhance their skill in maths using python.

3. was able to acquire the knowledge of Mathematics Science and Engineering field through the course
4. Will be able to develop a Competency to Analyse and design solutions for complex problems through the Sessions of the course
5. gained the Skill to use or apply the modern engineering tool /Software /techniques for any Engineering practice through the course.

The Program schedule

**THREE DAYS PYTHON WORKSHOP  
PROGRAM SCHEDULE**

<b>Time Date/ Day</b>	<b>9 to 11am</b>	<b>11 to 11:15am</b>	<b>11:15 to 1:15pm</b>	<b>1:15 to 2pm</b>	<b>2pm to 4pm</b>
<b>Mon</b>	Inaugral Function	<b>Tea Break</b>	Installation and Introductory session	<b>Lunch Break</b>	Hands-on session
<b>Tue</b>	Theory session		Hands-on session		Hands-on session
<b>Wed</b>	Theory session		Hands-on session		Valedictory Function

### **Report on**

## **Five Days FDP on "*Frontiers of Photonic Integrated Circuits and Sensing Technologies*"**

**(1<sup>st</sup> April to 5<sup>th</sup> April 2024)**

The Faculty Development Program was conducted on **Frontiers of Photonic Integrated Circuits and Sensing Technologies** from 01.04.2024 to 05.04.2024 (5 days) in an effective manner and was very successfully completed with the support and encouragement of our Management, Principal, Deans, Conveners and all the Head Of Departments and Co-ordinators. The FDP was organized by Department of Electronics and Communication Engineering & Electrical & Electronics Engineering Departments in Hybrid mode. The FDP was sponsored by Edu Vitae Services Pvt Ltd.

The main objective of this program is to make the participants aware of the the current trends on electronic devices, photonic circuits and it's applications which includes topics like

- Optoelectronics
- Electronic Devices
- Optical Devices
- Photonic Sensors
- Quantum Computing

so that they can update their knowledge in this area and explore for further research. The objective also included that the knowledge gained and shared would help the faculties to guide students to pursue their career and research works. The FDP was attended by 45 faculty members from various colleges.

<b>About The Institution</b>  <p>The Oxford College of Engineering is one of the most prestigious institutions in Bengaluru that provides quality teaching and training in professional courses in 1 streams of Engineering, 5 post graduate programs in Technology (M Tech) Computer Application (MCA) and in Business Administration (MBA) and Research (Ph.D).</p> <p>The Oxford College of Engineering is accredited with NAAC A grade and 5 departments (CSE,ISE,ECE,BT &amp;MT) are NBA accredited. The college is recognized with QS I-GAUGE Diamond Rating. TOCE is positioned in the band of 101-156 in the Innovation category in National Institutional Ranking Framework and achieved 4-Star rating in IIC activities. College has a dedicated and highly qualified team of faculty who offer quality education to the students as per the academic scheme of VTU. TOCE has adequate infrastructure inclusive of smart classroom, Labs as per the students need. The college has progressive placement track record every year.</p> <p>The department of Electronics and Communication Engineering started in the year 2003, and has been in the forefront of imparting quality education to the students. The department has a strong undergraduate program with an intake of 120 students. At the postgraduate level, offers M. Tech in VLSI and Embedded Systems. There are 16 research scholars have already completed their PhD degree in ECE R&amp;D. UG and PG students are encouraged to undertake various research projects in the R&amp;D lab.</p> <p>The Electrical and Electronics Engineering Department was established in the year 2001 with an intake of 60 students for the Under Graduate program (BE), a Post Graduate program (M.Tech) in Power Electronics course was started in 2008 with an intake of 18 students. The VTU Research Centre of the department was started during 2014 and has seen good progress as many scholars have registered for Ph.D.</p>	<b>OBJECTIVES OF THE FDP</b>  This FDP will highlight the current trends on electronic devices, photonic circuits and its applications which includes topics like <ul style="list-style-type: none"> <li>&gt; Optoelectronics</li> <li>&gt; Electronic Devices</li> <li>&gt; Optical Devices</li> <li>&gt; Photonic Sensors</li> <li>&gt; Quantum Computing</li> </ul>	<b>Schedule of the Five Days Faculty Development Programme</b>  <b>Day 1 [01-04-2024 - Monday]:</b> Registration - 10:00 AM - 11:00 AM <b>Day 1 [01-04-2024 - Monday]:</b> Session 1 - 11: 00 AM - 12: 00 PM <b>Inaugural Address</b> Dr N Kannan , Principal, TOCE Bangalore. <b>Keynote Address</b> Dr Preeti Sharan ,Dean R & D , TOCE Bangalore.  <b>Day 1 [01-04-2024 - Monday]:</b> Session 2 - 2:00 PM - 3:00 PM <b>Invited Talk-1:</b> Optical Sensor Dr. Bhuvneshwar Suthar, Government Dungan College, Bikaner  <b>Day 2 [02-04-2024 - Tuesday]:</b> Session 3 - 11: 00 AM - 12: 00 PM <b>Invited Talk 2 :</b> Optoelectronic Devices Prof. Saurabh Kumar Pandey, IIT Patna  <b>Day 2 [02-04-2024 - Tuesday]:</b> Session 4 - 3: 00 PM - 4: 00 PM <b>Hands-on/Lab-1</b> Dr. Ibrar Jahan MA, Assistant Professor, RNSIT Bangalore.  <b>Day 3 [03-04-2024 - Wednesday]:</b> Session 5 - 11: 00 AM - 12: 00 PM <b>Invited Talk-3:</b> Optical Switches By Dr. Gaurav Kumar Bharti, IIT Bhopal  <b>Day 3 [03-04-2024 - Wednesday]:</b> Session 6 - 3: 00 PM - 4: 00PM <b>Hands-on/Lab-2 :</b> Photonic Optical Simulator <b>By Dr Anup M Upadhyaya, The Oxford College of Engineering</b>  <b>Day 4 [04-04-2024 - Thursday]:</b> Session 7 - 11: 00 AM - 12: 30 PM <b>Invited Talk-4</b> By Dr. P R Yashawini, Malnad College of Engineering  <b>Day 4 [04-04-2024 - Thursday]:</b> Session 8 - 2: 00 PM - 3: 00 PM <b>Hands-on/Lab-3 :</b> Photonic Optical Simulator <b>By Dr Anup M Upadhyaya, The Oxford College of Engineering</b>  <b>Day 4 [04-04-2024 - Thursday]:</b> Session 9 - 3: 00 PM - 4: 00 PM <b>Hands-on/Lab-4</b> By Dr. Gaurav Kumar Bharti, IIT Bhopal  <b>Day 5 [05-04-2024 - Friday]:</b> Session 10 - 11: 00 AM - 12: 00 PM <b>Hands-on/Lab-5 :</b> Quantum Computing <b>By Mr. Kamal Kishore Choune, MNT Jaipur</b>  <b>Day 5 [05-04-2024 - Friday]:</b> 3: 00 PM - 4: 30 PM <b>Q &amp; A and Valedictory session</b>
<b>OUTCOMES OF THE FDP</b>  <ul style="list-style-type: none"> <li>• The Participants will be able to start using the techniques in Opto Electronics and Photonic sensors for their research &amp; teaching</li> <li>• They can get in depth knowledge on recent advancement in Quantum Computing</li> </ul>	<b>Vision &amp; Mission of Institution</b>  <b>Vision:</b> To be a Respected and most sought after Engineering Educational Institutions Engaged in Equipping Individuals capable of building learning organizations in the new Millennium.  <b>Mission:</b> To develop competent students with good value systems and face challenges of the continuously changing world.  <b>QUALITY POLICY</b> To equip the students with highest standard of education, knowledge and ethics. To prepare them to meet the challenges of life with full confidence. Aim at all round development of the personality to be useful citizens.	

## Brochure of the 5days FDP on “Frontiers of Photonic Integrated Circuits and Sensing Technologies”

### Inaugural Program of the Faculty Development Program

The five day FDP on started on 1st April 2024 with the welcome address by Dr Manju Devi ,HOD ECE dept. She also shared his views about the Faculty Development Program and importance of attending such program for the enhancement of knowledge of the faculties and students. She also gave a glimpse of the achievements and activities in TOCE.

The keynote address was given by Dr Preeta Sharan Dean R &D ,The Oxford College of Engineering. She has briefed about the various research opportunities and research areas in photonics. She has highlighted the objectives of the FDP and briefed about the schedule of the program.

### **Objectives**

The faculty development programme provides a proper platform to participate for discussion and presentation of the latest technologies and discoveries in the field of Photonics. This is a quality course providing forum for academicians and industrial professionals to exchange their knowledge and state of art of aforesaid areas. The course content was taught by eminent experts in the field, having adequate teaching and industrial experience. This course will offer a unique opportunity to the researchers, academicians and students working in this area to acquire knowledge in current and relevant topics in Photonics. This FDP provides deeper insight and knowledge to the participants about the recent advances in Photonics field. The main topics explored in the faculty development program are Optoelectronics, Electronic Devices ,Optical Devices Photonic Sensors and Quantum Computing . The FDP was aimed the overall knowledge sharing with informative lectures, interactive sessions and hands on training.

### **Participants Attended**

The FDP was attended by 116 participants from various colleges.

### **List of Faculties attended**

### **Schedule and the Resource person**

The schedule and the Resource people for the Five Days FDP on **Frontiers of Photonic Integrated Circuits and Sensing Technologies** (1<sup>st</sup> April to 5<sup>th</sup> April 2024) is given below.

**Schedule**

**5days FDP on "Frontiers of Photonic Integrated Circuits and Sensing Technologies"**  
 (Organized by The Oxford College of Engineering, Bangalore)  
 1<sup>st</sup>-5<sup>th</sup> April 2024 (In Hybrid Mode)

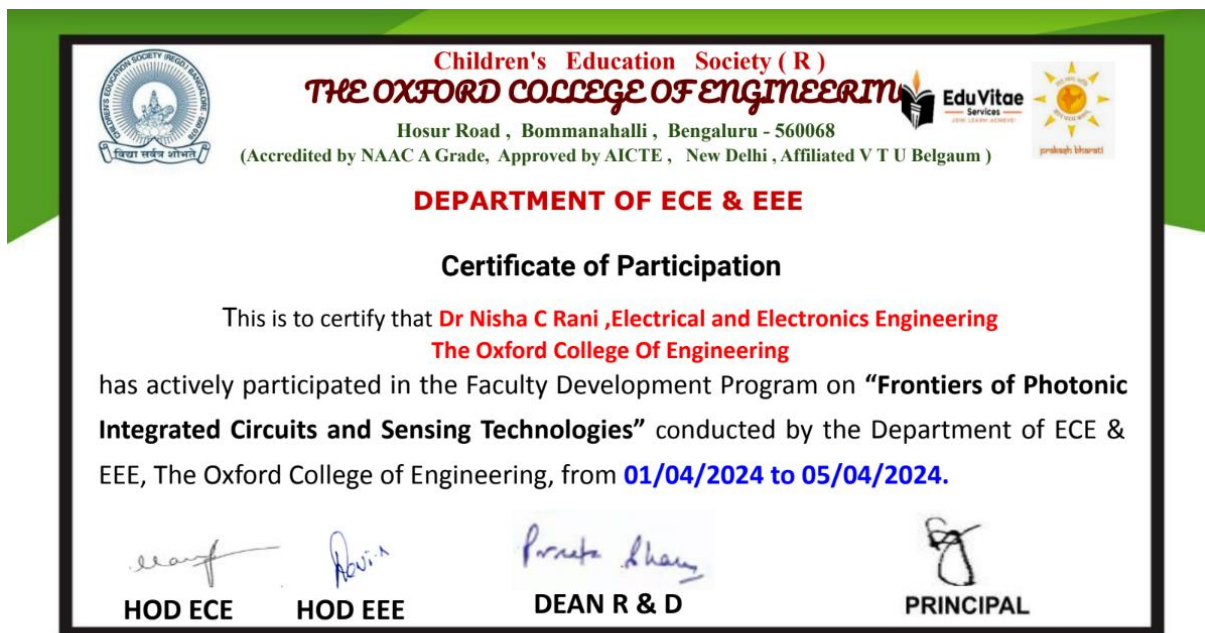

**Day-1**

Date	10.00am to 11.00 am	11.00am - 12.00 am	12.30 - 2.00pm	2.00am - 3.00pm
01/04/2024 (Monday)	Registration	Inaugural Address/ Dr. N. Kannan, Principal, TOCE, Bangalore Keynote Address/ Dr. Preeta Sharan	Lunch	Invited Talk Dr. Bhuvneshwar Suthar, Government Durgar College, Bikaner (Online)

**Day-2 to 5**

Date	11.00am - 12.00pm	1.00 - 2.30pm	AN Session
02/04/2024 (Tuesday)	Invited Talk-1 (Outside-Expert/Online) Prof. Saurabh Kumar Pandey, IIT Patna	Lunch	3.00pm - 4.00pm Hands-on/Lab-1 (Outside-Expert/Online) Dr. Ibrar Jahan MA, Assistant Professor, RNSIT, Bangalore.
03/04/2024 (Wednesday)	Invited Talk-2 (Outside-Expert/Online) Dr. Gaurav Kumar Bharti, IIT Bhopal		3.00pm - 4.00pm Hands-on/Lab-2 Dr. Anup M Upadhyaya, TOCE
04/04/2024 (Thursday)	Invited Talk-3 (Outside-Expert/Online) Dr. P R Yashaswini, Malnad College of Engineering		2.00pm - 3.00pm Hands-on/Lab-3 Dr. Anup M Upadhyaya, TOCE
05/04/2024 (Friday)	Hands-on/Lab-5 (Outside-Offline) Mr. Kamal Kishore Choure, MNIT Jaipur (Online)		3.00pm - 4.00pm Hands-on/Lab-4 (Outside-Expert/Online) Dr. Gaurav Kumar Bharti, IIT Bhopal
			Q&A and Valedictory session

After successful completion of 5 days FDP, the participants have got the participant certificate.

The FDP was conducted in hybrid mode .There were five Invited talks and five hands on sessions in the event. The first day session was an invited talk on Optical Sensor Dr.Bhuvneshwar Suthar, Government Dungar College, Bikaner . He has explained about various optical sensors. The second day of the FDP started with Invited Talk on Optoelectronic Devices by Dr. Saurabh Kumar Pandey, IIT Patna. He has explained about the role of sensors in Biomedical Engineering. He has given overview of biosensors, Li-fi Technology, SoC ,SiP and design process.

Afternoon Hands-on session on "Design of a waveguide using MODE solver Ansys Lumerical tool" was handled by Dr.IbrarJahanmam , Assistant Professor, RNSIT, Bangalore. She has detailed the complete procedure for designing of waveguide using MODE solver Ansys Lumerical tool step by step.

An invited talk on Emerging Trends on Photonics and Quantum Circuits was handled by Dr. Gaurav Kumar Bharti, IIIT Bhopal on the third day(3.04.2024). Photonics and quantum circuits are rapidly evolving fields with numerous emerging trends that have the potential to revolutionize various applications, including communication, computing, sensing, and metrology.He has given a detailed talk on Silicon Photonics.

The afternoon session was conducted in offline mode. DrAnupUpadhyaya ,The Oxford College of Engineering has given the hands on session on Photonics Optical Simulator. Photonics optical simulators are computational tools used to model and analyze the behavior of light in photonic devices and systems. These simulators employ numerical algorithms and computational methods to solve Maxwell's equations, which govern the propagation of electromagnetic waves in optical media.

On the fourth day of the FDP , 3 sessions were conducted. An Invited Talk on Design and Analysis of PhC based Biosensor is given by Dr. P R Yashaswini, Malnad College of Engineering. She has explained about the working of PhC based Biosensor. Also she has detailed about the design of PhC based Biosensor using Ansys Lumerical Software. Afternoon there were two hands on training sessions . The first session was handled by Dr AnupUpadhyaya on Photonics Optical Simulator. The next session was handled by Dr Gaurav Kumar Bharti.

On the fifth day of the FDP, a hands on training session on quantum computing was handled by professor Kamal Kishore Choure sir MNIT, Jaipur. He has explained the key concepts of Quantum Computing.

All the sessions were very much informative with engaging lectures, interactive sessions, and hands-on sessions. 116 participants from all over India attended and benefitted the FDP.

### From Sand to IC

**Purified Silicon Rock**  
**Sand**

**2-inch to 12-inch wafers**  
When Intel first began making chips, the company printed circuits on 2-inch wafers. Now the company uses both 300-millimeter (12-inch) and 200-millimeter (8-inch) wafers, resulting in larger chip yields and decreased costs.

The larger wafers can yield more than twice as many chips, achieving an economy of scale that Intel says will save 30% in manufacturing costs for each wafer.

### Valedictory Event :

FDP was ended with happy learning and concluded with a Valedictory function on 5.04.2024 at 3.30pm. Faculty Coordinator Dr Nisha C Rani welcomed all the dignitaries and participants to the Valedictory function.

HoD of ECE Dr. Manju Devi Summarised the 5 days sessions of the FDP. Dr Preeta Sharan, Dean R & D shared her views and wished to continue the collaborative learning in the field of Photonics. She has also mentioned about the research opportunities and scopes in the field of photonics. Dr. B Srilatha concluded FDP with a wonderful thank giving note to all the participants, Management, Principal, Deans of TOCE and Organising committee members of this FDP for the smooth conduction of this two week FDP through hybrid mode.

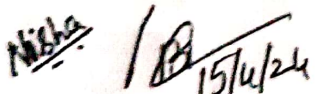

### Feedback from the Participants :

Overall feedback from the participants expressed their happiness and great learning

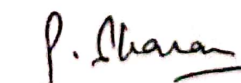

Throughout the sessions, all the participants were well satisfied with the speakers and their delivery of knowledge sharing.

### Outcome

All the sessions were very much informative with engaging lectures, interactive sessions, and hands-on sessions. The participants were benefited by advanced and recent knowledge in the field of photonics which will enhance their professional competence. The areas covered are of great benefit to participants as the topics correspond to the current area of work. Participants learned about the cutting-edge technologies most commonly used in the field

## Workshop on "From Pixels to Plastic: Unleashing Innovation with 3D Printing"

The Oxford College of Engineering, Bengaluru – Institutions Innovation Council in association with Department of Mechanical Engineering organized a workshop on " **From Pixels to Plastic: Unleashing Innovation with 3D Printing**" by Ms. Nitya, Assistant Manager, RP3D Product LLP on 07.03.2024

### Objective:

- ❖ To understand the basics of 3D printing technology.
- ❖ To explore the applications of 3D printing in different industries.

- ❖ Highlight the diverse applications of 3D printing in fields such as healthcare, aerospace, automotive, and consumer goods.
- ❖ To demonstrate the process from digital design to physical object creation.
- ❖ To encourage innovation and creativity among participants.
- ❖ To provide hands-on experience with 3D printing equipment and software.

Ms. Nitya began with an overview of 3D printing, elaborating on its evolution and current trends. She provided a detailed explanation of the different 3D printing technologies, such as Fused Deposition Modeling (FDM), Stereo lithography (SLA), and Selective Laser Sintering (SLS). The discussion included insights into the various materials used in 3D printing, ranging from plastics to metals and even biocompatible substances. The next segment of the workshop focused on the myriad applications of 3D printing across various industries. Ms. Nitya showcased case studies and examples, illustrating how 3D printing has revolutionized sectors like healthcare (prosthetics and implants), aerospace (lightweight components), automotive (rapid prototyping), and consumer goods (customized products).

A practical demonstration followed, where Ms. Nitya took the participants through the complete process of creating a 3D printed object. Starting from a digital design created in CAD software, she demonstrated how to prepare the file for printing, set up the 3D printer, and finally produce the physical model. This live demonstration was a highlight of the workshop, providing valuable insights into the intricacies of 3D printing. The participants were then given the opportunity to engage in a hands-on session. They worked in groups, experimenting with 3D design software and printing their own models. This interactive segment allowed attendees to apply the concepts learned and gain practical experience with the technology.

The workshop concluded with a Q&A session, where participants posed questions about specific applications, troubleshooting tips, and advanced 3D printing techniques. Ms. Nitya provided detailed answers, further enhancing the learning experience.

### **Output:**

#### **Enhanced Understanding of 3D Printing Technology:**

Participants gained a comprehensive understanding of the fundamentals of 3D printing and its various techniques.

### **Awareness of Industry Applications:**

The workshop highlighted the versatility of 3D printing and its impact on multiple industries, encouraging participants to explore innovative uses.

### **Practical Skills Development:**

Attendees received hands-on training with 3D printing equipment and software, equipping them with practical skills for future projects.

### **Fostering Innovation:**

The event inspired participants to think creatively and consider how they could leverage 3D printing technology in their own work.

**Number of Participants:** 61

Engineering

The Oxford College of Engineering, Bengaluru – Institutions Innovation Council in association with Department of Electrical and Electronics Engineering organized a workshop titled “*Design Thinking and Critical Thinking Concepts in VLSI Technology*” by Mr. Prasad Rallabandi on 15-02-2024 from 11:00 AM - 01:00 PM in offline mode.

Venue: 5<sup>th</sup> floor Room No N 513, New Building TOCE.

### OBJECTIVES:

This workshop aims at fostering creativity, programming and skill development in the field of VLSI technology.

- To provide students with a solid introductory knowledge of VLSI design principles and their practical application.
- To learn about CMOS inverter characteristics, logic design, transistor-level schematics, and layouts.
- To encourage the students to learn about integrated circuit (IC) design, chip manufacturing, and the intricacies of Very-Large-Scale-Integration.

- To stimulate interest and develop aptitude in VLSI design.
- To make the students explore about gate delays, logical effort, and trade-offs between delay and power consumption for logic gates.
- To make the students aware about the use of open-source simulation platforms like PSPICE or LT-SPICE to carry out practical simulations.
- To make the students understand the advances in artificial intelligence (AI), electric vehicles (EVs), and smartphone technologies and the role of VLSI technology in these cutting-edge fields.

The workshop on "Design Thinking and Critical Thinking Concepts in VLSI Technology" was organized to equip the participants with a profound understanding of how design and critical thinking principles can be applied in the field of VLSI technology. It is aimed to provide a platform to the students to learn about the latest advancements in VLSI technology and implementation of digital circuits and to enhance their knowledge of VLSI circuits and learn from industry experts. Very-large-scale integration (VLSI) is the process of creating an integrated circuit (IC) by combining hundreds of thousands of transistors or devices into a single chip. VLSI began in the 1970s when complex semiconductor and communication technologies were being developed. The microprocessor is a VLSI device. Before the introduction of VLSI technology most ICs had a limited set of functions they could perform. An electronic circuit might consist of a CPU, ROM, RAM and other glue logic. VLSI lets IC designers add all of these into one chip. The future scope of VLSI engineers is very high as the world is full of electronics devices that consist of microcontrollers, microprocessors, etc. To design these chips or integrated circuits the VLSI engineers are required. Over the years there has been an increased demand for skilled VLSI engineers at IC design companies. This is due to the tremendous advances in AI, EV, and smartphone technologies, all of which rely on smart ICs. Chip design and manufacturing are collectively called VLSI design where VLSI stands for Very-Large-Scale-Integration. The workshop is a great opportunity for the students to gain hands-on experience with VLSI circuits and learn from industry experts. The resource person has highlighted on the basics of VLSI technology and its application in various fields like artificial intelligence, smartphone technologies, electric vehicles.

It was an interactive session. The workshop was attended by 58 participants including 12 faculties.

**Resource Person Details:**

Mr. Prasad Rallabandi

CEO & Co- Founder

Thinsil Technologies

Bangalore.

Mr. Prasad Rallabandi has completed B.Tech in Electronics and Communication from Jawaharlal Nehru Technological University. He worked as Senior Engineer in Tata Elxsi for 3 years 2 months. He worked as the Lead Engineer in Sasken. His work experience includes Senior Design Methodology Engineer in PMC-Sierra. He also worked as a Project Manager in UST Global.

He is the Co-Founder and CEO of Thinsil Technologies with 20+ years of industry experience in ASIC development. He has worked on all aspects of the ASIC backend flow from Synthesis to GDSII. He worked with international customers such as Intel, AMD, Samsung, Microchip, Emm and Siliconch systems. He is currently building THINSIL in a fast pace to provide strategic solutions to the esteemed clients ranging from product engineering services, IoT and AI. He is also the chief trainer in IC Labs.

## Outcomes of the Workshop:

The workshop “Design Thinking and Critical Thinking Concepts in VLSI Technology” aim to empower participants with a holistic skill set, combining technical knowledge with a creative and innovative mind-set, positioning them well for success in the field of VLSI. Students got an exposure to innovation and Design ideas through the programming session.

- Students are able to understand the fundamental principles of VLSI circuit design in digital and analog domain.
- Students are made aware about the use of open-source simulation platforms like PSpice or LT-Spice to carry out practical simulations.
- Students are made aware about the opportunities of VLSI domain in the field of artificial intelligence, smartphone technologies, electric vehicles.
- The workshop not only provided a platform for learning but also fostered a sense of community among participants, paving the way for future collaborations and advancements in VLSI design.

The Oxford college of Engineering, Bangalore- Institution Innovation Council in association with Department of Computer Science and Engineering and IEEE organized **Workshop on “Entrepreneurship opportunities through Wire Shark and Network Simulator -2”**

on 20th December 2023 from 9:30 AM onwards in TOCE,Bengaluru.

Mr.Naville nageshwara ,working as a Senior manager, Tackle D Private Ltd, Kushal Nagar,Bangalore gave the expert talk. His major roles are

- Identify, assess, and appropriately mitigate risk to project delivery.
- Delivery of all projects within the prescribed governance structure.
- Building, tracking, maintaining, and reporting of project budgets and forecasts.

## **OBJECTIVE:**

- The objectives of workshop on **“Entrepreneurship opportunities through Wire Shark and Network Simulator -2”** are Equip participants with practical skills in using Wireshark and Network Simulator -2, enhancing their ability to analyze and troubleshoot network issues. The other objectives include:
- **Understanding Entrepreneurial Opportunities:** Explore and highlight the various entrepreneurial opportunities that arise from expertise in network analysis tools like Wire shark and Network Simulator -2.
- **Networking Knowledge:** Enhance participants' understanding of networking concepts, protocols, and technologies, providing a solid foundation for entrepreneurial ventures in the networking field.
- **Problem Solving:** Foster problem-solving skills by teaching participants how to identify and resolve network-related challenges using Wire shark and Network Simulator -2.
- **Application in Business:** Demonstrate practical applications of Wire shark and Network Simulator -2 in real-world business scenarios, showcasing how these tools can be leveraged for entrepreneurial ventures.
- **Entrepreneurial Mind set:** Cultivate an entrepreneurial mind set among participants by encouraging creativity, innovation, and the identification of business opportunities within the networking domain.
- **Business Development:** Provide insights into how the skills acquired in network analysis can be translated into entrepreneurial ventures, such as starting a network consulting business, offering cyber security services, or developing network monitoring solutions.
- **Market Trends:** Update participants on current market trends and demand for network-related services, helping them make informed decisions about potential entrepreneurial endeavours.
- **Industry Experts and Networking:** Facilitate interactions with industry experts who can share their experiences in entrepreneurship within the networking field, creating networking opportunities for participants.

- **Hands-on Experience:** Offer hands-on sessions where participants can apply their knowledge through practical exercises using Wireshark and Network Simulator -2, reinforcing their learning and boosting their confidence.

Around 100 students from various departments and 15 faculty members attended the program.

### **OUTCOMES:**

The outcomes of workshop “**Entrepreneurship opportunities through Wireshark and Network Simulator -2**” can be diverse, impacting participants in various ways.

Here are some potential outcomes:

#### **Enhanced Technical Proficiency:**

Participants gain advanced proficiency in using Wireshark and Network Simulator -2, acquiring hands-on experience in network analysis and simulation.

#### **Entrepreneurial Knowledge:**

Increased understanding of entrepreneurial opportunities within the networking domain, with a focus on how Wireshark and Network Simulator -2 skills can be applied in real-world business scenarios.

#### **Practical Application Skills:**

Participants develop practical skills in applying network analysis tools to solve complex problems, troubleshoot issues, and optimize network performance.

#### **Business Idea Generation:**

Empowered with knowledge and skills, participants generate innovative business ideas related to network consulting, cybersecurity services, network monitoring solutions, or other entrepreneurial ventures.

#### **Networking and Collaboration:**

Opportunities for networking and collaboration are fostered among participants, potentially leading to partnerships or collaborative projects in the future.

**Entrepreneurial Mindset Cultivation:**

Cultivation of an entrepreneurial mindset, encouraging participants to think creatively, identify business opportunities, and approach challenges with a problem-solving mindset.

**Market Awareness:**

Participants gain insights into current market trends, demands, and opportunities within the networking industry, enabling them to make informed decisions about potential business ventures.

**Confidence Building:**

Hands-on exercises and practical sessions contribute to participants' confidence in applying their skills, both technically and in entrepreneurial contexts.

**Business Planning and Strategy:**

Participants develop business plans that incorporate their skills in Wireshark and Network Simulator -2, addressing key elements such as market analysis, target audience identification, and revenue generation strategies.

**Legal and Ethical Understanding:**

Increased awareness of legal and ethical considerations related to providing network-related services, ensuring that participants understand and adhere to industry standards.

**Coordinator**  
Dr. Manjula C  
Associate Professor & HOD  
Mechatronics Engineering

DEPARTMENT OF SKILL DEVELOPMENT ENTREPRENEURSHIP AND LIVELIHOOD KARNATAKA SKILL DEVELOPMENT CORPORATION (KSDC) in association with FORK TECHNOLOGIES Organized 14 Days FACULTY DEVELOPMENT PROGRAMME from 6<sup>th</sup> September to 23<sup>rd</sup> September 2023.

The Programme was for 100 hours offline and 50 hours online, the intention of this program is to craft the ways and means to improve the Teaching Learning Pedagogy, Design Thinking of trainers for 21<sup>st</sup> century soft skills. Department of Mechatronics Engineering co-ordinated for the conduction of FDP for 14 Days. Number of faculties attended was 59.

**Objective:**

The objective of the training is to bring the awareness about advanced pedagogical skills,

- Best Practices in Online Teaching,
- Increasing Student Engagement,
- Digital Tools & Techniques,
- Stress Management,
- Design Thinking in Online Teaching,
- Instructional Design Workshop,
- Prototype Model Designs, and
- Processes & Guidelines.

The sessions of the FDP were planned to meet the desired objectives. Schedule of the FDP has been enclosed

**Day-wise Report of the Sessions Conducted****Schedule of the Faculty development programme**

<b>Sl.no</b>	<b>Date</b>	<b>Topics</b>	<b>Trainer Name</b>
1	6/9/2023	<ul style="list-style-type: none"><li>• Self-learning, life vision and mission</li><li>• Understanding the learning cycle</li><li>• Our life's wheel</li></ul>	Mr. Neville
2	7/9/2023	Learning skills	Mr. Neville
3	8/9/2023	Literacy skills	Mr. Neville
4	11/9/2023	Life skills	Mr.CK Dwarakanath
5	12/9/2023	Advanced pedagogy	Mr.CK Dwarakanath
6	13/9/2023	Micro learning	Mr.Abhishek
7	14/9/2023		
8	15/9/2023	Understanding and using ADDIE (Analyze, Design, Develop, Implement, and Evaluate)	Mr.Abhishek
9	18/9/2023		
10	19/9/2023	Design thinking	Mr.Avinash

11	20/9/2023	Design thinking	Mr.Avinash
12	21/9/2023	Enhancing teaching efficiency, putting all of it together	Mr.Avinash
13	22/9/2023		
14	23/9/2023	Wellbeing and self-care and Valedictory function	Mr.Avinash

### **Day 1 (6/9/2023)**

#### **The morning session was started with**

- Welcome speech about the Faculty development programme.
- Introduction about individual.
- Self-learning, life vision and mission

#### **The afternoon session was started with**

- Understanding the learning cycle
- Our life's wheel

The session was very informative and fulfilled its objective of training educators to enhance the online teaching experience of students as well as the faculties. All the participants have actively participated and has enjoyed the session thoroughly.

#### **Photos**

**Day 2 (7/9/2023)**

**The morning session was started with**

- Critical thinking
- Creativity

**The afternoon session was started with**

- **Collaboration communication**
  - ✓ Find out what collaborative communication is.
  - ✓ Look at some examples of collaborative communication.
  - ✓ Understand why it's important.
  - ✓ Read some handy tips on enhancing collaborative communication.

**Photos**

**Day 3 (8/9/2023)**

**The morning session was started with**

- information literacy
- media literacy

**The afternoon session was started with**

- Technology literacy

## Photos

### **Day 4 (11/9/2023)**

#### **The morning session was started with**

- flexibility
- leadership
- initiative

#### **The afternoon session was started with**

- productivity
- social skills

## Photos

### **Day 5 (12/9/2023)**

#### **The morning session was started with**

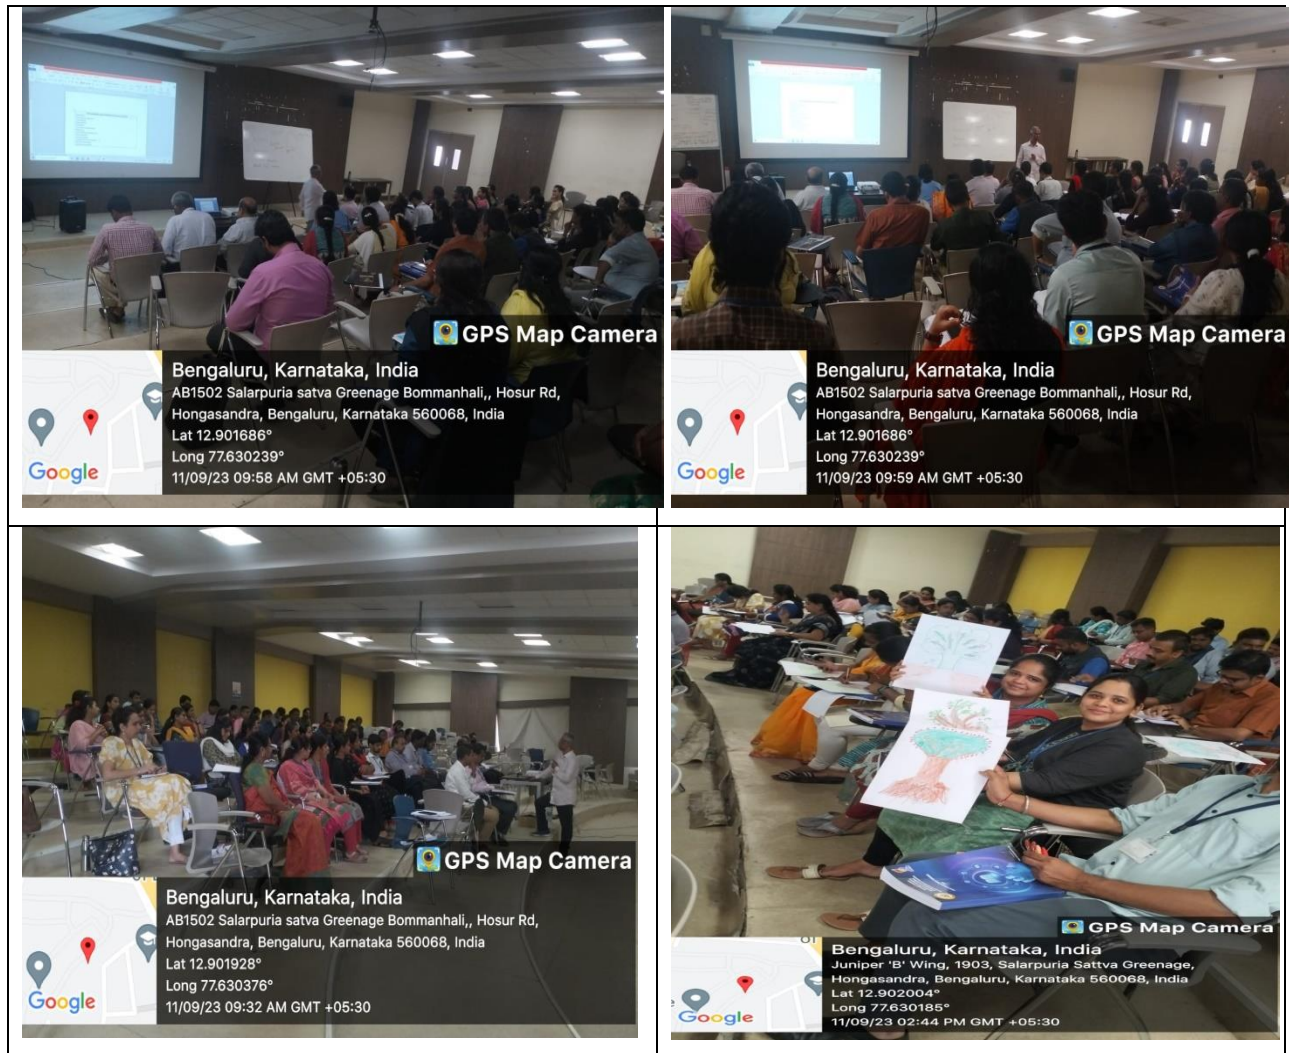

- Active learning strategies
- Visual aids and multimedia integration.

#### **The afternoon session was started with**

- Assessment and evaluation techniques.
- Classroom management strategies.
- Assessment and feedback strategies

## Photos

### **Day 6 (13/9/2023)**

#### **The morning session was started with**

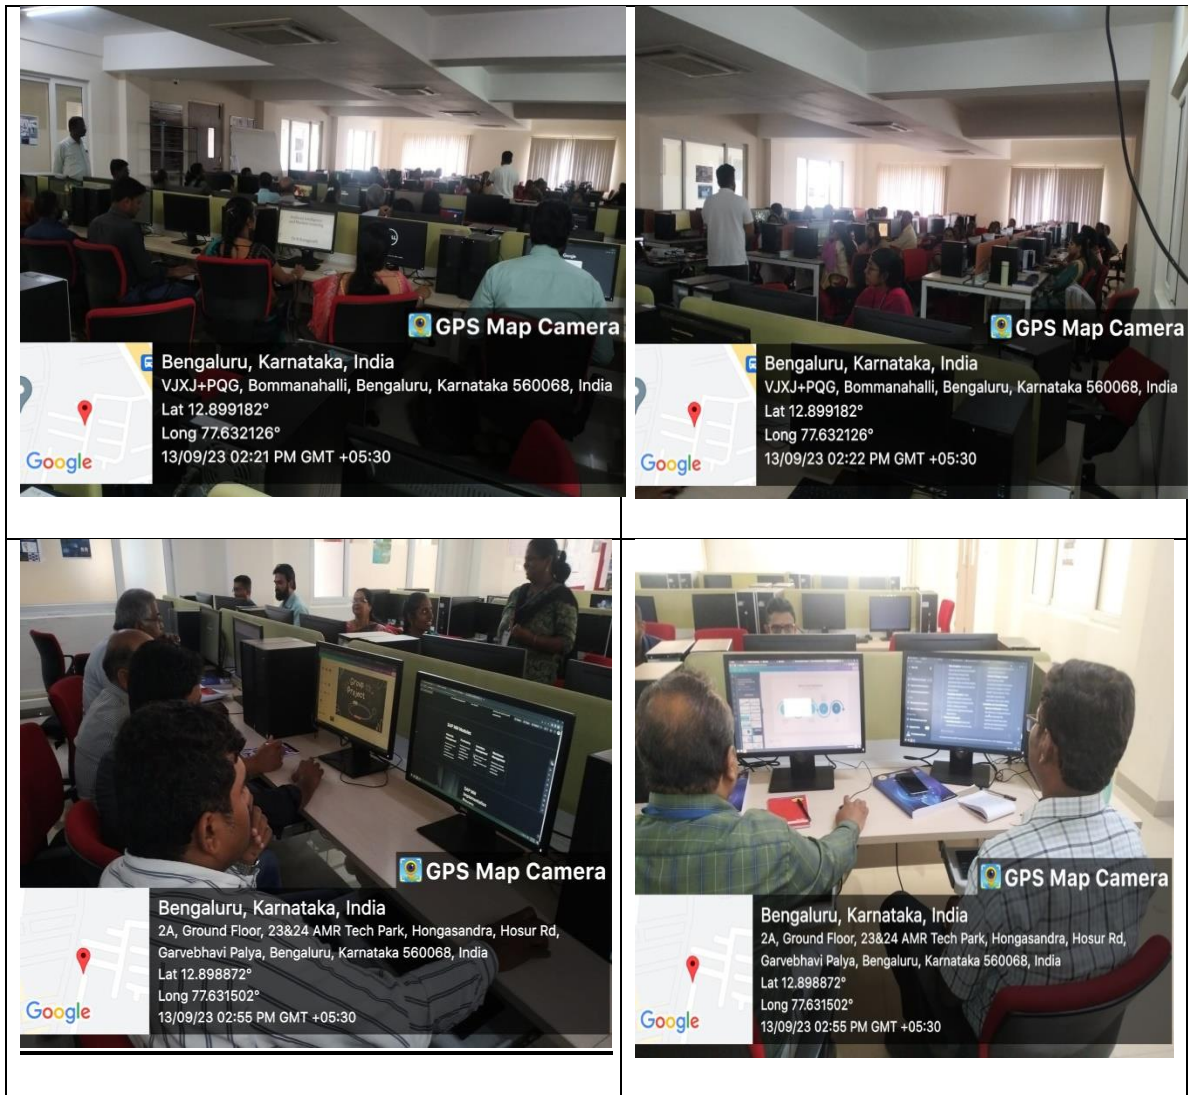

##### Micro learning

- Theories and principles
- Formats & delivery content.

#### **The afternoon session was started with**

- Designing effective modules

## Photos

**Day 7 (14/9/2023)**

**The morning session was started with**

- Tools and technologies

**The afternoon session was started with**

- Collaborative designs.

## Photos

### **Day 8 (15/9/2023)**

#### **The morning session was started with**

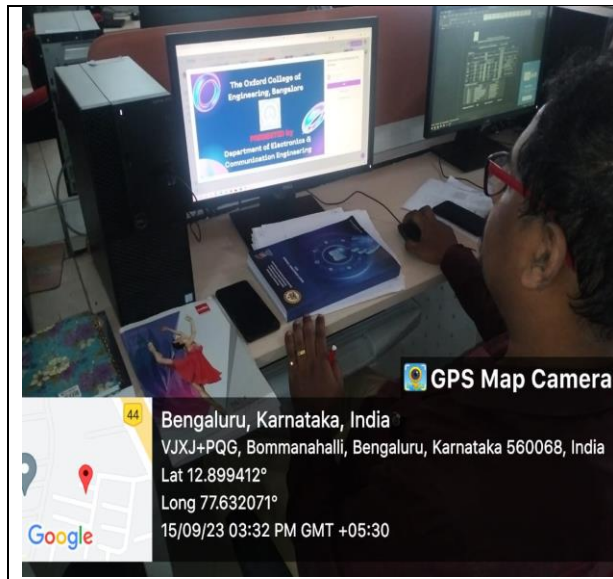

- Understanding and using ADDIE (Analyze, Design, Develop, Implement, and Evaluate)

#### **The afternoon session was started with**

- Analyse phase
- Design phase

## Photos

**Day 9 (15/9/2023)**

**The morning session was started with**

- Develop phase
- Implement phase

**The afternoon session was started with**

- Evaluate phase

## Photos

The session brought out the best from each department and the engagement was appreciable. Most of the faculty explored ample new features of LMS which were unexplored till date from last so many years. It was wonderful to see that almost all departments have used the tools and techniques showcased in this FDP program in the initial days.

Day 10 (19/9/2023)

**The morning session was started with**

Design thinking

- Process and method
- Applying in curriculum development
- The type of lab and how it would be conducted
- Format eg. number of quizzes/assignments/presentations by students required or not

**The afternoon session was started with**

- Creating opportunities for students learning

**Photos**

Day 11 (20/9/2023)

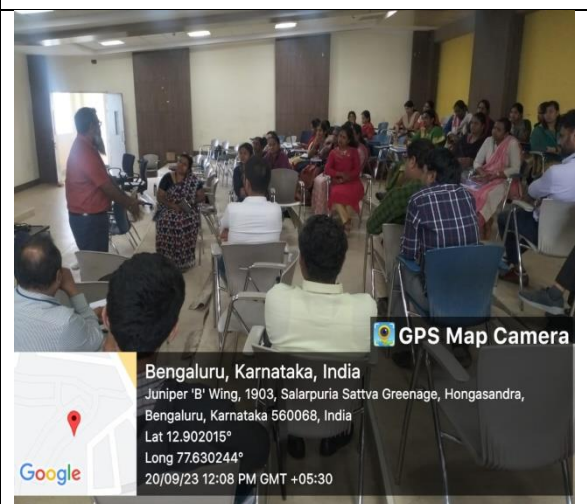

**The morning session was started with**

- Research and problem solving techniques
- Prototyping and testing solutions

**The afternoon session was started with**

- Collaborative & inter disciplinary thinking
- Tools and techniques
- Case/studies/tutorial/language/labs and how they will be conducted
- Evaluation rubrics

**Photos**

Day 12 (21/9/2023)

**The morning session was started with**

Enhancing teaching efficiency, putting all of it together

- Effective lesson planning

**The afternoon session was started with**

- Tips and designing engaging

**Photos**

Day 13 (22/9/2023)

**The morning session was started with**

Enhancing teaching efficiency, putting all of it together

- Differentiated instructions

**The afternoon session was started with**

- Formative assessment and feedback

**Photos**

Day 14 (23/9/2023)

**The morning session was started with**

- Wellbeing and self-care
- Apart from this, during the interaction on MS Teams, one representative from each dept was invited to share their experience and learnings.

**The afternoon session was started with**

- Valedictory function

**Feedback by Dept Representatives:**

The aim was to know what went great and what could be fine-tuned in future. The following representatives spoke on behalf of their respective departments:

Prof.Navjeet,MBA, Prof.Bharath,EEE,

**Photos**

## ABOUT THE FDP

It is aimed to offer in-depth knowledge on technologies behind the Artificial intelligence and IoT. The scope of Artificial Intelligence is to find smart solutions to modern problems in almost all the major sectors such as Agriculture, Healthcare, Education and Infrastructure, Transport, Cyber Security, Banking, Manufacturing, business, Hospitality, Entertainment.

## NI LabView

- 1) Introduction About LabVIEW
- 2) Software Introduction
- 3) LabVIEW with hardware & DAQ-USB-6009
- 4) Embedded device with lab VIEW
- 5) PLC interface with LabVIEW
- 6) Programming application
- 7) Web server
- 8) Hardware interfacing with LabVIEW

## EMBEDDED IOT

- Introduction to IOT
- Introduction to Embedded
- Introduction to arm based controller & esp32
- Esp32 programming
- Esp32 led blinking , switch
- Esp32 ADC & PWM Esp32 hall effect
- Esp33 touch sensor & Esp32 led
- Esp32 wifi
- Esp32 Bluetooth Mqtt Mit with esp32

## INFORMATION TO APPLICANTS

### Eligibility

Faculty from Technical institutions, PG students and Research scholars can apply.

**No Registration Fee.**

### Registration Link:

<https://forms.gle/iMCvEqoVFtBRAGDJ6>

### Important Dates:

Last Date for Registration : 19.08.2023

### How to Apply:

The applicants should use the below link for the registration

<https://forms.gle/iMCvEqoVFtBRAGDJ6>

### Resource Persons:

**Ms. VINUTHA S**

Embedded R&D Application Engineer and Corporate Trainer,

**Technologies Global R&D Lab**

**Mr.FUZAIL IYAD**

Project Engineer,

**Technologies Global Pvt Ltd**

## **THE OXFORD COLLEGE OF ENGINEERING**

**SIX DAYS FDP  
ON**

**INDUSTRIAL APPLICATION WITH  
INTEGRATED IOT AND LAB VIEW**

[ 21<sup>st</sup> August 2023 to 26<sup>th</sup> August 2023 ]

In Association with

**Technologies Global Pvt.Ltd**

**Convener**

**Dr. P. Bindhu Madhavi , HOD-AIML**

**Organized by**

**Department of Artificial Intelligence &  
Machine Learning**

**THE OXFORD COLLEGE OF  
ENGINEERING**

(Approved by AICTE , Affiliated to VITU , Accredited by  
NAAC & Recognized by UGC)

Hosur Road, Bommanahalli, Bangalore  
560068

### ABOUT THE INSTITUTION:

The Oxford College of Engineering is one of the most prestigious institutions in Bengaluru that provides quality teaching and training in professional courses in 9 streams of Engineering, post graduate programs in Technology (M.Tech), Computer Application (MCA) and in Business Administration (MBA) and Research (Ph.D).

The world in which we live today is comfortable because of engineering feats and inventions. The field is vast and the application are enormous from the transport system to internet, from daily tools to sophisticated heavy industries, from medical instruments to basic research across the world.

The Oxford College of Engineering is accredited with NAAC A grade and 5 departments are NBA accredited. College has a dedicated and highly qualified team of faculty who offer Quality education to the students as per the academic scheme of VTU. TOCE has adequate infrastructure inclusive of Smart Classrooms, Labs as per the students need. The college has progressive placement track record every year.

### ABOUT THE DEPARTMENT

Artificial Intelligence & Machine Learning is a branch of study which includes theories, standards, methods and innovations of various different domains like mathematics, cognitive science, electronics and embedded systems to make intelligent systems that mimic human behavior. Artificial Intelligence and Machine Learning focuses on collecting, categorizing, strategizing, analyzing and interpretation of data.

In this course, you will learn how to design, create and implement AI and ML based software solution to solve real-world problems. This course helps to explore concepts such as AI, Machine Learning, Deep Learning, Image Processing, Virtual Reality and IoT and its applications.

#### Vision of the Department:

"To Create Technocrats with Cognitive Skills and Technical Proficiency to Succeed in the Challenging World of New Era".

#### Mission of the Department:

- To Produce outstanding Artificial Engineering Professionals with cognitive skills.
- To Enrich the students' skill set by continuous learning and research capabilities with vibrant ambience.
- To empower students with Technical Proficiency, Competency and Ethicalness for the new Era.

#### Courses Offered

- ❖ B.E.- Artificial Intelligence and Machine Learning

**Report on Impact of the event by Organizing Department**

<p><b>Objectives Aimed:</b></p>	<p>The programme aimed to provide participants of The Oxford College of Engineering and other Engineering College Faculties with comprehensive knowledge of the technologies behind Internet of Things (IoT) and their integration with LabVIEW software. This comprehensive six-day program aimed to explore the seamless integration of Internet of Things (IoT) and LabVIEW software in industrial applications. Participants were immersed in a dynamic learning environment, gaining insights into the amalgamation of cutting-edge technologies. Throughout the session the following topics have been covered:</p> <p>i) NI LabVIEW ii) Embedded IoT. The participants were exposed to hands-on sessions and theoretical lectures by industry experts to enhance their understanding of these technologies.</p>
<p><b>Outcome of the event:</b></p>	<p>The FDP provided participants with a comprehensive understanding of LabVIEW, IoT, and their integration, equipping them with valuable skills applicable to modern industrial scenarios. The hands-on sessions facilitated practical learning experience in Internet of Things, enabling participants to develop solutions and projects using the learned concepts. The interaction with industry experts enriched their insights into real-world applications of the technologies covered.</p> <p>The Faculty Development Program on "Industrial Application with Integrated IoT and LabVIEW" was a resounding success, contributing significantly to the professional development of the participants. The knowledge gained will undoubtedly empower them to explore innovative solutions in their academic and professional endeavors. Around 30 Participants attended the workshop.</p>

Beneficiary details	Faculties of The Oxford College of Engineering and other Colleges and Universities.
Resource person detail with contact number and affiliation	Ms. VINUTHA S, Embedded R&D Application Engineer, and Corporate Trainer at Technologies Global R&D Lab. Mr. FUZAIL IYAD, Project Engineer at Technologies Global Pvt Ltd.
Impact/outcomeof the event	<ol style="list-style-type: none"> <li>1. Participants gained an overview of the LabVIEW software environment and its user interface, laying the foundation for subsequent learning. The concept of virtual instruments (VIs) and block diagram programming was introduced, followed by practical sessions on creating and customizing front panels and block diagrams.</li> <li>2. Participants were introduced to Data Acquisition (DAQ) devices, with a focus on the USB-6009 model. They learned to configure and read both analog and digital signals using LabVIEW. Real-time data processing and visualization were explored, alongside an introduction to Programmable Logic Controllers (PLCs) and their integral role in automation.</li> <li>3. An overview of IoT's architecture and components followed, setting the stage for understanding ARM-based controllers and their advantages. The ESP32 microcontroller was introduced as a versatile platform, and participants were guided through setting up the development environment for ESP32 in a hands-on exercise.</li> <li>4. Participants delved into ESP32 programming using the Arduino IDE. Basic input-output operations were covered, alongside practical exercises involving the control of LEDs and switches using ESP32. The utilization of ESP32's Analog-to-Digital Converter (ADC) and Pulse Width Modulation (PWM) capabilities were explained, and participants engaged in a hands-on exercise that involved programming ESP32 to control LEDs and read analog data.</li> <li>5. Participants learned to enable Wi-Fi connectivity on the ESP32, creating a basic web server. The day concluded with an introduction to Bluetooth communication and the</li> </ol>

	MQTT protocol. A hands-on exercise required participants to develop an ESP32-based Wi-Fi-enabled application.
	6. Participants learned to seamlessly merge LabVIEW with IoT devices for efficient data acquisition. MQTT integration with both ESP32 and LabVIEW was demonstrated for effective data exchange. A case study highlighted a complete IoT-enabled application developed using the integration of LabVIEW and ESP32.

## Report on Workshop on “ Know your intellectual property – Series 2” 24<sup>th</sup> to 28<sup>th</sup> July 2023

The Department's of Biotechnology, organized five days' workshop program on “*Know your intellectual property – Series 2*” in association with CSIR-IMMT, KSCST and VTPC from 24<sup>th</sup> to 28<sup>th</sup> July 2023. The main aim of the workshop was to impart greater awareness about the issue of IPR to the teaching and research fraternity and enable them to utilize it.

The main objectives of the program were:

- To understand patentability criteria in detail and viable aspect of the patent.
- To understand and asses the importance and scope of IPR in academic researches.
- To understand types of innovations patentable & how to test patentability of innovations.
- To understand procedure of patent writing, patent filing and the process of granting patent.

- Indian IPR policy and facility extended for filing.

**WORKSHOP ON**  
**“KNOW YOUR INTELLECTUAL PROPERTY SERIES -2”**  
 From 24<sup>th</sup> to 28<sup>th</sup> July 2023  
 On 24<sup>th</sup> July at 10:00 am

<b>PRESIDED BY</b>	<b>CHIEF GUEST</b>
<b>Dr. S. N. V. L. NARASIMHA RAJU</b> Chairman The Oxford Educational Institutions	<b>Dr. U. T. VIJAY</b> Executive Secretary KSCST, Bangalore
<b>GUEST OF HONOUR</b>	<b>ADDRESS BY</b>
<b>Dr. T. PAVAN KUMAR</b> Senior Scientist – Chemistry & IPR CSIR-IMMT Bhubaneswar	<b>Dr. N. KANNAN</b> Principal The Oxford College of Engineering
	<b>CONVENOR</b>
	<b>Dr. MANJUNATHA B K</b> Professor & Head Department of Biotechnology The Oxford College of Engineering

The Program was inaugurated on an online mode using Google meet platform by the chief guest, Dr. U. T. Vijay, Executive Secretary, KSCST, Bangalore, who delivered key note address on the program. Dr. N. Kannan, Principal of The Oxford College of Engineering presented an overview of the workshop and emphasized on the need for greater level of understanding of IPR in the academics and its utilization for minimizing the gap between industry and academia. Professor

and Head of Department of Biotechnology, Dr. Manjunatha B K addressed the gathering stressing on the importance of protecting and patenting the innovations in the present-day scenario in the field of Engineering. The inaugural session concluded with vote of thanks.

Dr. Kapil Arya gave a presentation on "Patentability Criteria" to kick off the first technical session. He focused on the three key requirements of originality or newness, utility or usefulness (capable of industrial application), and non-obviousness. Ms. Priyanka presented the second technical session. She gave a professional presentation on "Patentable and Non-Patent Subject Matters," shedding light on activities including writing, painting, sculpting, choreographing, and cinematography that are covered by "The Indian Patent Act."

The second day was started with offline lecture presented by Mr. Nagarjun M G, project associate at Karnataka State Council for Science and Technology, IISc campus Bengaluru, explaining Intellectual property rights are the rights given to persons over the creations of their minds. His topic was "Industrial Design Protocol" that gave insights on his role at the Patent Information Centre (PIC) and Technology and Innovation Support Centre – TISC, WIPO of KSCST Communication activities and detailed on the IP filings i.e. patents, copyrights, trademarks, designs, Establishment of IP Cells, Institutional Policymaking, visitor consultations and other projects and programmes of the Patent Information center. Furthermore, for women candidates, he highlighted the KIRAN IPR programme of DST and TIFAC where the programme provides on job training on IPR for selected women candidates under this scheme at KSCST.

On the third day the session had an invited talk on "Genome Editing" by Dr. Basavaprabhu Patil L, Principal scientist, Division of Basic science (Biotech Unit) at ICAR-IIHR, Bangalore. He explained the development of virus resistant Transgenic Cassava and also about present plant virology, molecular biology, genome editing, RNA interference, double stranded RNA based disease control, host-pathogen interaction, virus induced gene silencing and editing researches.

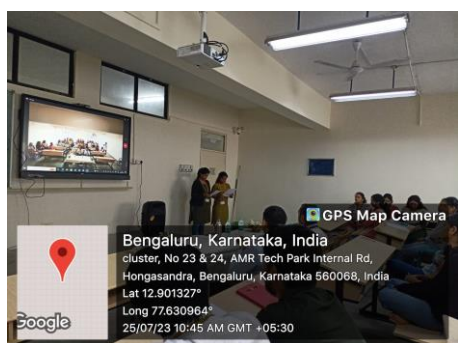

The fourth day Session resource person was Dr. Lipika who touched on the topic of "Patent drafting", where the participants gained an in-depth knowledge of how to draft a patent , her talk included the topic as how every patent claim needs a preamble, which is the introductory phrase in a claim the resource person include examples from various domains not restricting to

biotechnology but also covered chemical technology, pharmaceuticals, software programs and also integrated circuits. The participants could gather knowledge about claims in patents and highlighting the novelty of innovation,. The session was most fruitful as the session was very interactive in context of clearing doubts and queries.

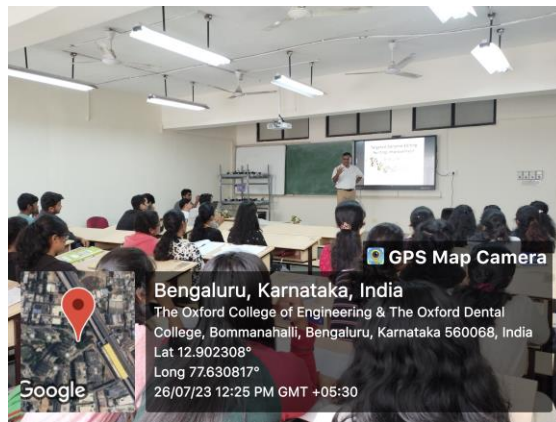

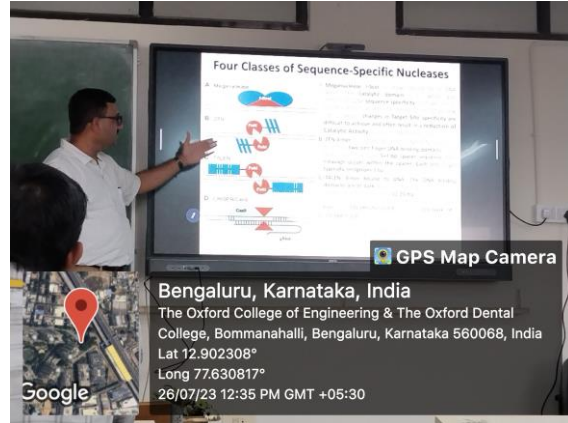

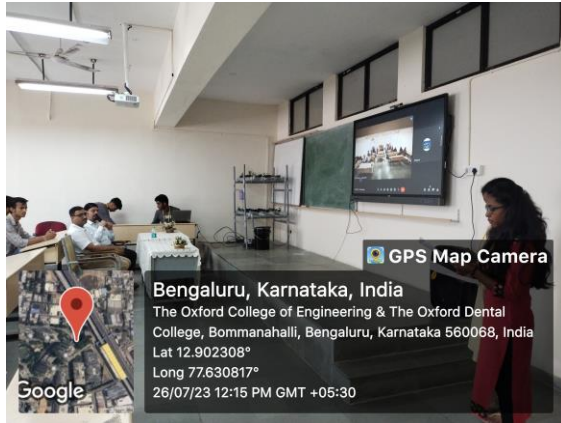

The fifth day session was taken over by Dr. Pavan Kumar T, his talk was on “Essentials of patent-structure and significance” where explanations of underlying patent law concepts that the specification is designed to address were detailed. At the end of his note were a section which guides applicants in checking a specification that we prepare on their behalf.

A panel of experts was invited on the dias to address the doubts and queries raised by the participants.

The workshop ended with valedictory function and the organizers, collected opinions and feedback from the participants. The workshop was successful in bringing awareness on patenting and the various opportunities available in Government policies to promote the innovation and patenting. It helped the participants in understanding the role of organizations like IMMT,KsSCST and VTPC in promoting the patent awareness. The participating faculty and students of The Oxford College of Engineering greatly benefited by the workshop and appreciated the effort for organizing such a informative, brain storming, educative sessions. On behalf of all participants, we express our deep gratitude to the collaborators for their kind support and we expect more such associated activities to spread awareness on Innovation and patenting in Academic Institutions.

Lecture Session in blended mode by Mr. Nagarjuna, Project associate, KSCST

Guest Talk on Genome Editing By Dr. Basavaprabhu Patil, Scientist IIHR

Session in progress in a Blended Mode

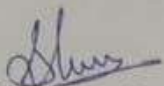

### Impact analysis and Outcome

The workshop organized with an intention to reach out to the academic community in bringing awareness and in depth understanding of IPR witnessed an overwhelming response from the participants. Over 130 registrations were obtained from various organizations both academic and non academics, and the participants were students from various streams of engineering sciences,

pharmaceutics, biotechnology etc, and faculties from professor cadre to readers and research scholars.

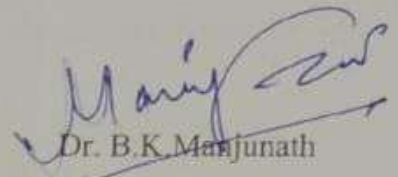

Active participation of around 106 participants was witnessed where the online session was attended and 84 participants attended both online & offline sessions.

The feedback collected saw a response where the skills & knowledge of the resource persons were well appreciated and organizing team received requests to organize more such programs. Many participants even preferred workshops on further advanced sessions. Owing to the highly positive response organizing committee is motivated and also plans to conduct hands on session in detail in the future.

## **Report on MS Office Skills Development Program**

**Date:** 19th June 2024

**Organized By:** Department of Electrical and Electronics Engineering (EEE)

**Speaker:** Ms. Mary Anitha, Faculty, Department of Master of Computer Applications (MCA)

**Participants:** Non-Teaching and Technical Staff of The Oxford College of Engineering (TOCE)

---

## **Introduction**

The Department of Electrical and Electronics Engineering at The Oxford College of Engineering organized an MS Office Skills Development Program on the 19th of June, 2024. The program aimed to enhance the proficiency of non-teaching and technical staff in using MS Office tools, thereby improving their efficiency and productivity in day-to-day tasks. The training was given by Prof Mary Anitha, MCA dept.

## **Objective**

The primary objective of this program was to equip participants with practical knowledge and hands-on skills in using MS Office tools such as MS Word, MS Excel, and MS PowerPoint. These tools are critical for documentation, data management, and presentation tasks in their professional roles.

## **Program Details**

The program was structured into interactive and practical sessions, ensuring active participation from the attendees. The key topics covered included:

- 1. MS Word:**
  - Creating and formatting documents.
  - Working with templates and styles.
  - Using advanced features such as mail merge and track changes.
- 2. MS Excel:**
  - Managing spreadsheets and data organization.
  - Using formulas, functions, and charts for data analysis.
  - Introduction to pivot tables and macros.
- 3. MS PowerPoint:**
  - Designing impactful presentations.

- Using transitions, animations, and multimedia integration.
- Best practices for delivering presentations.

## **Outcomes**

The participants gained significant insights into the effective use of MS Office tools. They actively engaged in hands-on exercises and addressed queries related to their daily operational challenges. The feedback received from attendees was overwhelmingly positive, highlighting the relevance and practicality of the topics covered. The MS Office Skills Development Program successfully achieved its goal of enhancing the technical capabilities of non-teaching and technical staff at TOCE. The Department of EEE extends its gratitude to Ms. Mary Anitha for her expertise and efforts in making the program impactful. 21 participants attended the program.

## **Report on Digital Literacy Training Program**

**Organized by the Department of Electrical & Electronics Engineering**

**Date:** 7th May 2024

Dr. Raju B R, Professor, Department of Mechanical Engineering, TOCE

---

### **Objective of the Program:**

The Digital Literacy Training Program was designed to equip non-teaching and technical staff with essential skills and knowledge to navigate the digital landscape effectively. The focus was on fostering a deeper understanding of digital tools, enhancing productivity, and promoting a culture of technological proficiency within the academic community.

### **Program Highlights:**

- 1. Introduction to Digital Literacy:**
  - Importance of digital literacy in modern academia and industry.
  - Overview of digital tools and platforms relevant to administrative and technical roles.
- 2. Hands-On Sessions:**
  - Practical demonstrations on using digital tools for data management, communication, and collaboration.
  - Exercises on leveraging online resources and software for institutional and operational purposes.
- 3. Cybersecurity Awareness:**
  - Guidelines on protecting personal and institutional data.
  - Best practices for secure online communication and transactions.
- 4. Digital Inclusion:**
  - Emphasis on bridging the digital divide among non-teaching and technical staff.
  - Discussions on accessibility and inclusivity in digital environments.

### **Key Takeaways:**

- Enhanced understanding of digital tools and their application in administrative and technical tasks.
- Awareness of digital safety and ethical practices.

The program witnessed enthusiastic participation from non-teaching and technical staff of The Oxford College of Engineering (TOCE). Participants expressed high levels of satisfaction, highlighting the program's relevance and the engaging delivery by Dr. Raju B R. Many attendees emphasized the usefulness of the hands-on sessions and requested similar programs in the future.

## Report on Strengthening Communication Skills

### Report on the Training Program: ""

**Date:** 13th December 2023

Dr. M. Kathiravan, Professor, MBA Department

### Objective

The training program aimed to enhance the communication skills of non-teaching and technical staff at TOCE, focusing on improving workplace communication, teamwork, and professional interactions.

1. **Introduction and Objectives:**

Dr. M. Kathiravan explained the importance of effective communication in professional environments.

2. **Interactive Session:**

Participants engaged in role-playing and discussions to identify common communication barriers and strategies to overcome them.

3. **Skill-Building Activities:**

Activities such as public speaking exercises, group discussions, and written communication tasks were conducted.

4. **Q&A and Feedback:**

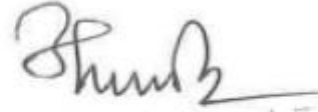

Participants shared their experiences and sought guidance on specific challenges they face in their roles.

The "**Strengthening Communication Skills**" training program was meticulously designed to address the unique communication challenges faced by non-teaching and technical staff in their daily professional roles. Dr. M. Kathiravan utilized a blend of theory and practical exercises to emphasize the role of communication in fostering collaboration, ensuring clarity in instructions, and resolving conflicts. The program was interactive and participant-driven, ensuring everyone had the opportunity to learn through experience and peer feedback. The session highlighted essential skills such as active listening, non-verbal communication, and crafting precise written messages, all tailored to the participants' work environment. 20 participants attended.

### Outcomes

1. Improved understanding of the importance of clear communication in day-to-day activities.

2. Enhanced confidence among participants to express their ideas effectively.
3. Strategies to handle workplace communication challenges were identified and practiced.

## **Report on Achieving Harmony: Balancing Professional and Personal Life**

Date : **28-11-2023**

The Oxford College of Engineering (TOCE) organized a special session titled "**Achieving Harmony: Balancing Professional and Personal Life**" on the 28th of November, 2023. The program was tailored for non-teaching and administrative staff to help them cultivate a healthy work-life balance and enhance their overall productivity and well-being.

### **Objective of the Session**

The primary aim of the session was to shed light on practical strategies and techniques for maintaining equilibrium between professional responsibilities and personal commitments. By addressing common challenges faced by administrative and support staff, the session sought to empower attendees with tools to reduce stress and increase efficiency.

The session was led by **Dr. Tharaka Rami Reddy**, a renowned academic and professional mentor. As a Professor in the Department of MBA at TOCE, Dr. Reddy brought valuable insights and real-world examples to the discussion, making the session relatable and impactful.

### **Highlights of the Session**

- 1. Understanding Harmony:**
  - Dr. Reddy emphasized the importance of aligning personal goals with professional aspirations.
  - He discussed how maintaining a positive mindset can lead to better work-life integration.
- 2. Time Management Techniques:**
  - Tips on prioritizing tasks and avoiding procrastination.
  - Strategies for effectively delegating work to reduce overload.
- 3. Stress Management:**
  - Simple relaxation exercises for reducing workplace stress.
  - The role of hobbies and family time in rejuvenating the mind and body.
- 4. Healthy Communication:**
  - How to foster open communication within teams to minimize misunderstandings.
  - Encouraging teamwork and collaboration for smoother workflows.
- 5. Work-Life Boundaries:**

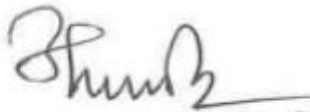

- Setting clear boundaries to separate work from personal life.
- The significance of disconnecting from work during personal hours.

## **Key Takeaways**

- Balancing professional and personal life requires conscious effort and self-discipline.
- Adopting time management techniques and stress-relief practices can improve overall well-being.
- Open communication and teamwork play a crucial role in reducing workplace challenges.
- Investing time in personal growth and relationships is equally essential for a fulfilling life.

The participants appreciated the practical insights and engaging delivery by Dr. Reddy. Many expressed that the session provided them with actionable strategies to improve their work-life balance. The interactive nature of the program made it highly relatable and impactful.

The session on "Achieving Harmony: Balancing Professional and Personal Life" was a resounding success, leaving a lasting impression on the attendees. It reinforced TOCE's commitment to the holistic well-being of its staff, fostering a more supportive and productive work environment. He resolved the queries asked by the employees. Discussion Session was quite interesting & helpful to resolve many doubts of the participants. 22 participants attended the program.

## **Report on Effective Leadership Skills Program**

**Date:** 30th August 2023

The Department of Electrical and Electronics Engineering at TOCE organized a one-day training program on "Effective Leadership Skills" on 30th August 2023. The program was designed to empower non-teaching and technical staff with leadership skills to improve workplace efficiency and collaboration.

---

**Objective of the Program:** The primary objective of the training was to provide participants with insights into leadership principles and practical techniques to enhance their professional roles. Key focus areas included communication, decision-making, teamwork, and conflict resolution.

---

**About the Speaker:** The session was conducted by Mrs. Liya Wilson, an Assistant Professor from the Department of MCA. Known for her dynamic and engaging teaching approach, She brought valuable insights into leadership development, making the session highly interactive and practical.

---

### **Program Highlights:**

**1. Opening Remarks:**

- The program began with a welcome address by the Head of the EEE Department, emphasizing the significance of leadership skills in personal and professional growth.

**2. Session Content:**

- Understanding the fundamentals of leadership.
- Building effective communication and active listening skills.
- Strategies for decision-making and problem-solving.
- Importance of teamwork and fostering collaboration.
- Techniques for resolving workplace conflicts.

---

**Key Takeaways:**

- Improved understanding of core leadership principles.
  - Enhanced ability to communicate effectively and build trust.
  - Practical strategies for conflict resolution and team management.
  - Increased confidence in taking on leadership roles within their respective domains.
- 

**Outcomes:**

- **Increased Leadership Awareness:** Participants reported a greater awareness of their leadership potential and responsibilities.
- **Practical Application:** Many attendees expressed their intention to apply the skills learned in their daily tasks and team interactions.
- **Empowerment:** The program instilled a sense of confidence and motivation among non-teaching staff to take proactive roles in their workplace.

## **Report on Financial Literacy Program**

**Date:** 28th August 2023

The Department of Electrical and Electronics Engineering at TOCE organized a one-day training program on "Financial Literacy" on 28th August 2023. The program aimed to enhance the financial awareness of non-teaching and technical staff, empowering them to make informed decisions regarding their personal finances.

---

### **Objective of the Program:**

The primary objective of the training was to provide the participants with essential knowledge and skills to manage their finances effectively. Topics covered included budgeting, saving, investing, understanding credit, and planning for retirement.

---

**About the Speaker:** The session was conducted by Mrs. Mridula Shukla, an experienced Assistant Professor from the Department of MCA. With her deep understanding of financial management concepts and her approachable teaching style, Mrs. Mridula Shukla successfully engaged the participants throughout the program.

---

### **1. Session Content:**

- Basics of personal finance and its significance.
- Creating and maintaining a monthly budget.
- Strategies for effective saving and investment.
- Awareness about different types of loans and managing credit effectively.
- Importance of financial planning for short-term and long-term goals.

### **2. Interactive Activities:**

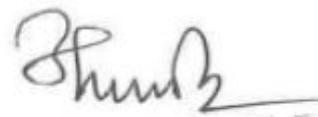

- Participants were involved in hands-on activities like creating sample budgets and analyzing case studies.
- Open Q&A session where Mrs. Mridula Shukla addressed individual queries and provided tailored advice.

### **3. Feedback and Discussions:**

- Participants shared their learning experiences and appreciated the session for its practical insights.
-

### Key Takeaways:

- Participants gained clarity on managing their finances efficiently.
  - Enhanced understanding of investment opportunities and their associated risks.
  - Awareness of the importance of planning for unforeseen expenses and retirement.
-
