Environmental promotional activities beyond campus

2023-24

The Oxford college of Engineering, Bangalore has organized various outreach and extension Activities in association with NSS Unit, for betterment of the Society during last many years. It includes

- UNNAT BHARATH ABHIYAN
- SWACHH BHARAT ABHIYAN
- AZADI KI AMRIT MAHOTSAV
- EK BHARAT SHRESHTA BHARAT

During the above period Our College have organized Blood Donation Camp.

All these extension activities have given the participants exposure to cases of unjust deprivation and have created strong motivation for alleviation of this injustice.

Apart from this the significance of clean surrounding, hygiene, sanitation in the neighborhood, garbage disposal, and sensitizing the community at large to these vital issues. All these initiatives have gone a long way in holistic development personality of the participants of these Programs Blood donation camp strengthens the sense of empathy and compassion among donors and also instils in them a sense of commitment and ethical responsibility.

The activities listed are indicators of the manner in which multiple issues of social, political and economic significance are discussed and dealt with in order to create sensitivity and understanding among students and contribute to balanced development of their personality, so that committed and ethically informed citizenship is creates.

As we knows the Service to mankind is service to god. Imparting such values and attitude in to students is the motive of the institution. Believing in this, the institute carries out a number of extension activities in the neighbourhood community. Our college has NSS units student volunteers and NSS of The Oxford College of Engineering the institution, concentrates on the welfare of the neighbourhood community and sensitizes their social problems and takes necessary steps for the betterment of the society. These social outreach programmes brought a great impact on the holistic development of the students as they come across different categories of the people and their living standards.

Our College extension activity programmes are helping students to come closer in contact with the society and community. Awareness is created about various social problem facing the society and finding solution for them.

List of Extension and Outreach activities 2023-2024

	Name of the activity	Organizing unit/ agency/ collaborating agency	Name of the scheme	Date of the activity	Number of students participated in such activities
1	Orphanage Visit	NSS Unit TOCE	Unnat Bharath Abhiyan	16.09.2023	56
2	Visit to Gowshala Under the act of rashtriya gokul mission	NSS Unit TOCE	Swachh Bharat Abhiyan	9.06.2024	78
3	Computer literacy for school students	NSS Unit TOCE	Unnat Bharath Abhiyan- EK Bharat Shreshta Bharat	16.09.2023	14
4	Awareness about energy conservation and renewable energy	NSS Unit TOCE	Unnat Bharath Abhiyan	20.01.2024	14

5	Awareness to reduce plastics and save green "WALK AND PLOG"	NSS Unit TOCE	Unnat Bharath Abhiyan	24.02.2024	18

Report on Outreach Programme- Orphanage Visit on 16th of September , 2023.

An outreach program on "**Orphanage Visit**" was organized for the students of the Department of Biotechnology on the 16th of September , 2023 in association with the TOCE NSS unit organization at Pragathi Charitable Trust, Jayanagar.

Life becomes more meaningful when you encounter less privileged people. If life has been fair to you, it makes sense to give back to those who do not have it. No one was created by accident. Everyone deserves to have a life. A visit to an orphanage is a life-changing experience, filled with emotions and sentiments. We, the students of The Oxford College of Engineering, Department of Biotechnology, were lucky to get an opportunity to visit an orphanage named Pragathi Charitable Trust, jointly with NBI.The orphanage is housed in a one-storied building with a terrace. Upon arrival, we were asked to wait on the terrace as another group was engaging with the boys. After about 30 minutes, the boys rushed to the terrace with joy and excitement. There were around 61 children, aged between 6 to 14 years. We brought food, cold drinks, books, chocolates, pens, pencils, etc.We divided ourselves and interacted individually with each child to make them feel comfortable, as they were initially scared to talk. The orphanage housed kids from other states as well, but communication was not an issue as they spoke Kannada. Not all the children were orphans; some had parents who could not raise them due to various circumstances.We sang, danced, played games, and gave the kids an opportunity to showcase their talents. They performed a group dance with excitement, and we joined them in the end, hoping to make them happy.After visiting the orphanage, we started appreciating the little things in life when we saw those who don't have them. The visit was not only about short-term happiness but also about lifelong lessons on not taking things for granted and being grateful for our luxurious lifestyles. Despite many of the children having parents, they were left in that

situation. We have parents, relatives, and a family, but they have no one besides themselves. Happiness for them lies in little things while we often complain about even the good things we get. They have their own happy little world, and we have a lot to learn from them. Such experiences help us appreciate the bigger pict ure and value the significant things in life.

Report on Outreach Programme- "Gowshala Visit " on 9th of June , 2024.

An outreach program on "Gowshala Visit" was organized for the students of the Department of Biotechnology on the 9th of June , 2024 in association with the TOCE NSS unit organization at Malnad Gidda,Kumbalagodu .

On 9th June 2024,Sunday morning at around 9:30, we visited the Gaushala to experience its environment and learn about its operations. We were welcomed by MK Ramanuja Sir and Harsha Sir, the caretaker of the Gaushala. Harsha Sir emphasized the importance of understanding cows, bulls, their types, and their benefits to humanity before truly experiencing the Gaushala. Harsha Sir informed us that most of our epics highlight the significant contributions of cows to humanity. Cows are central to our culture, and from ancient times, monks and saints have conducted scientific research proving the efficiency of cows and their products. Various studies have shown that cows are capable of nurturing themselves and their caretakers. We learned that the cows at the Gaushala are divided into different sections based on their age, gender, physical fitness, milking status, and maternity condition. Each cow is tagged to give them a unique identity, ensuring proper management and care. The primary breed at the Gaushala is Malnad Gidda, also known as "Gidda," "Uradana," and "Varshagandhi." "Malnad" refers to a hilly region, and "Gidda" means small or dwarf. The breeding tract includes Chikmagalur, Dakshin Kannada, Hassan, Kodagu, Shimoga, Uttar Kannada, and Udupi districts of Karnataka. These cows play a crucial role in the rural economy by providing milk, manure, and draft power with minimal inputs. Adapted to the local agro-ecological systems of the Western Ghats, they are predominantly black with light fawn shades on the thigh and shoulder regions. They have small, straight, outward, upward, and inward horns, a compact body frame, and are around 90 centimeters tall. Malnad Gidda cattle thrive on low input systems, often sustaining solely on grazing. Elite cows produce 3-5 kg of milk per day, with an average lactation yield of around 220 kg. These animals are highly adapted to harsh climates, including heavy rainfall. We also learned about the benefits and uses of Desi cows, which include their nutritional, agricultural, and medicinal advantages.Our experience at the Gaushala was truly incredible and incomparable to any other form of tourism. Holding and hugging a calf, learning how to milk a cow, feeding cattle, riding a bullock cart, and enjoying pure and fresh dairy products provided us with ultimate satisfaction.Overall, visiting the Gaushala was an enriching experience. We recommend that everyone visit a Gaushala with their family, friends, and loved ones to gain a deeper appreciation for the contributions of cows to our culture and well-being.

The Oxford college of Engineering, Bangalore- Department of Computer Science and Engineering organized Outreach Activity on **"Computer Literacy for School Students"**on 16th September2023.Regarding to this program, Mrs. Chaitrashree S,who is the Assistant

Professor of CSE Department of TOCE visited Government Primary School, Begur Road, Bengaluru.

Mrs. Chaitrashree S addressed the students of Government Primary School regarding Computer Literacy. She clearly explained about the Basics of Computer.It was an Interactive Session with the students.Our Students explained about hardware and sofware of the computer, and also motivated those students to upcome in the society.Many students got benefitted by the Outreach Program.

OBJECTIVE:

The main objective of the Outreach Program is to offer Organizations innovative ways to improve and to influence large audience to meet the needs of the community. During the Outreach Activity the students were taught about Basics of Computer such as Hardware, Software, Input and Output Devices.

Students were very much interested and it was an interactive session, Our students also motivated them to develop their skills such as

- Communication Skills
- Listening Skills

Students demonstrated their Laptops by showing Hardware and Software Devices and also explained in detail about Input and Output Devices, Prof. Chaitrashree S interacted with the students regarding their queries.

She concluded the session emphasizing on the importance of Computer. The session was very motivating and created positive thoughts among the students.

14 students from CSE and 1 faculty were participated in the Outreach program.

OUTCOMES:

- Build a sense of responsibility and sensibility towards the society.
- Inspire Skill development.
- Deepen students' awareness and understanding about Basics of Computer.

The Oxford college of Engineering, Bangalore- Department of Computer Science and Engineering organized Outreach Activity on **"Awareness to Reduce Plastics and Save Green "** on 24th February2024.Regarding to this program, Mrs. Chaitrashree S,who is the Assistant Professor of CSE Department of TOCE visited Doresannipalya Forest,JP Nagar,Bengaluru.

Mrs. Chaitrashree Shas taken part in the Walk and Plog which was held in Doresannipalya Forest in picking up of plastic waste around the forest.Our Students also participated in picking up of plastics and has collected upto 30kg of plastics from the forest area .Many Animals which walk around there got benefitted by the Outreach Program as we made some part of forest area plastic free such that we could avoid animals eating those plastics.

OBJECTIVE:

The Walk and Plog outreach program in Dorresannipalya Forest aims to achieve several key objectives. Firstly, it seeks to promote environmental awareness and stewardship among local communities by engaging them in the dual activities of walking and plogging (picking up litter while jogging). Secondly, the program aims to address the issue of litter and waste management within the forest area, thereby contributing to its conservation and enhancing its aesthetic value. Additionally, by involving residents in the cleanup efforts, the program encourages community participation and fosters a sense of ownership over the forest's well-being.

Lastly, the Walk and Plog outreach program serves as a platform for education and advocacy on sustainable practices, promoting a culture of environmental sustainability that extends beyond the duration of the program itself.

Students participated in picking up of plastic waste from the forest area ,our students have collected 30kg of plastic waste, it cultivates a sense of environmental responsibility and stewardship among the younger generation, instilling values of conservation and sustainability from an early age.

Prof. Chaitrashree Salso taken part in the Walk and Plog along with the students.

She concluded the session emphasizing on the effects of Non Biodegradable waste present in the forest area. The session was very motivating and created positive thoughts among the people.

18 students from CSE and 1 faculty were participated in the Outreach program.

OUTCOMES:

- Increased Public Awareness
- Community Engagement
- Environmental Stewardship
- Lifelong Learning

The Oxford college of Engineering, Bangalore- Department of Computer Science and Engineering organised outreach activity on "Awareness about proper maintain of menstrual hygiene" on 2ndMarch 2024.Regarding to this program, Mrs. Chaitrashree S,who is the Assistant Professor of CSE Department of TOCE visited Vaddarapalya,Begur,Bengaluru.

Mrs. Chaitrashree S has taken part in the activityby giving simple explanation for biological and hormonal processes which most are unaware of due to lack of accurate information. She guided the women's to follow hygiene practices during menstruation to stay safe and healthy.

OBJECTIVE:

The "Awareness about proper maintain of menstrual hygiene" outreach program aims to achieve several key objectives like:

>Prevention of Infections: Proper menstrual hygiene practices aim to prevent infections such as urinary tract infections (UTIs), vaginal infections, and reproductive tract infections. Regular changing of menstrual hygiene products and maintaining cleanliness of genital areas help in reducing the risk of infections.

>Promotion of Reproductive Health: Good menstrual hygiene contributes to overall reproductive health. By using clean and appropriate menstrual products, women can avoid complications that may arise from unhygienic practices, such as pelvic inflammatory disease and cervical infections.

>Reduction of Health Risks: Improper menstrual hygiene can lead to various health risks, including skin irritation, rashes, and foul odors. Maintaining good menstrual hygiene reduces these risks and ensures comfort and confidence during menstruation.

>Enhancement of Confidence and Dignity: Adequate menstrual hygiene practices help in maintaining dignity and confidence among women and girls. Access to clean menstrual products and facilities for proper disposal of used products are essential for ensuring that menstruation does not hinder daily activities or lead to embarrassment.

>Prevention of Social Stigma: In many societies, menstruation is still surrounded by stigma and taboos. Proper menstrual hygiene education and practices can help dispel myths and misconceptions about menstruation, thereby reducing social stigma and discrimination against menstruating individuals.

Students gave simple explanation of how to remain hygiene during periods like using sanitary pads instead of cloth, changing it regularly. Also they explained about the causes of not remaining hygiene to the women's.

Prof. Chaitrashree S also taken part in the activity along with the students.

She concluded the session by providing gift pack containing sanitary pads to all the women's who was involved in the session.

20 students from CSE and 1 faculty were participated in the Outreach program.

OUTCOMES:

- Reduced Risk of Infections
- Empowerment
- Increased Access to Products
- Gender Equality

The Oxford college of Engineering, Bangalore- Department of Computer Science and Engineering organised outreach activity on "Visiting Old Age Home" on 15th March 2024. Regarding to this program, Mrs. Chaitrashree S,who is the Assistant Professor of CSE Department of TOCE visited Prashanth Charitable Trust.

Mrs. Chaitrashree S has taken part in the activity by giving simple explanation about how should we care for the elderly.

OBJECTIVE:

The "Visiting Old Age Home" outreach program aims to achieve several key objectives like:

1. **Provide companionship and social interaction:** Many elderly individuals in old age homes may experience feelings of loneliness or isolation due to being away from their families or having limited social connections. Visiting them offers companionship and an opportunity for social interaction, which can significantly improve their mood and mental well-being.

2. **Offer emotional support:** Elderly residents may appreciate having someone to talk to and share their thoughts, experiences, and concerns with. Visitors can offer emotional support by lending a compassionate ear, showing empathy, and providing reassurance.

3. **Promote intergenerational bonding:** Visits from individuals of different age groups, especially children and young adults, can foster intergenerational relationships and mutual understanding. Such interactions provide valuable learning experiences for both the elderly residents and the visitors.

4. **Share knowledge and skills:** Visitors can engage in activities such as storytelling, playing games, or teaching new skills, which can stimulate cognitive function and keep the residents mentally active. Sharing knowledge and skills also helps bridge the generation gap and fosters a sense of connection and mutual respect.

5. **Celebrate special occasions:** Visiting old age homes on holidays, birthdays, or other special occasions allows residents to feel included in the festivities and adds joy to their lives. Bringing gifts, cards, or organizing small parties can make these occasions memorable and meaningful for the residents.

6. **Raise awareness and advocate for elderly rights:** Visits to old age homes provide an opportunity to observe firsthand the living conditions and challenges faced by elderly individuals. This experience can raise awareness about issues such as elder abuse, neglect, and

the importance of ensuring dignity and quality care for the elderly. Visitors can become advocates for elderly rights and support initiatives aimed at improving the welfare of seniors.

Overall, visiting an old age home can be a fulfilling and rewarding experience, benefiting both the residents and the visitors. It allows for meaningful connections, promotes empathy and understanding, and contributes to the well-being of elderly individuals in our communities.

Prof. Chaitrashree S also taken part in the activity along with the students. She concluded the session by providing Groceries, Fruits, Vegetables and Snacks for old people.

24 students from CSE and 1 faculty were participated in the Outreach program.

OUTCOMES:

- **Enhanced social interaction**
- **Educational opportunities**
- **Increased awareness and advocacy**
- **Boost in morale and mood**

Awareness to the students were given on following topics :

- Social awareness on respect and kindness

- Social awareness on bullying prevention
- Social awareness on environment
- Social awareness on community engagement
- Awareness about digital utilization

Social awareness on respect and kindness

Respect: Respect is a positive attitude and behavior towards others, recognizing their worth, dignity, and individuality. It involves treating others with courtesy, consideration, and esteem. When we show respect to others, we acknowledge their rights, opinions, and feelings, even if they differ from our own. Respecting others fosters harmonious relationships, promotes empathy, and creates a sense of trust and mutual understanding.

Kindness: Kindness is the act of being friendly, compassionate, and considerate towards others. It involves showing care and concern for people's well-being and being helpful without expecting anything in return. Acts of kindness can be as simple as offering a smile, lending a helping hand, or saying kind words to brighten someone's day. Kindness not only benefits the recipient but also enhances the giver's sense of fulfillment and connection with others. It plays a significant role in building a caring and supportive community.

Social awareness on bullying prevention

Bullying prevention involves raising awareness, fostering a positive school culture, implementing clear policies, encouraging bystander intervention, addressing cyber bullying, promoting empathy through SEL(Social-Emotional Learning), providing peer support, using anonymous reporting systems, involving parents, employing restorative practices, collaborating with the community, continuous evaluation, supporting victims, creating safe environments, and emphasizing respect and kindness.

Bullying prevention is a collective effort that requires commitment from schools, parents, communities, and students themselves. By creating a culture of respect, empathy, and kindness, we can build safe and inclusive environments where bullying is less likely to occur. Through

education, clear policies, support systems, and continuous evaluation, we can empower students to be active bystanders, report incidents, and promote positive interactions. Together, we can make a significant impact on reducing bullying and nurturing a generation of compassionate and caring individuals who contribute to a more harmonious society.

Social awareness on environment

Environmental awareness is the conscious recognition of the impact human activities have on the natural world and the understanding of our responsibility to preserve and protect it. It involves educating individuals about environmental issues, such as pollution, deforestation, climate change, and the depletion of natural resources. Environmental awareness aims to inspire a sense of urgency and commitment to adopting sustainable practices that promote ecological balance and reduce our ecological footprint. By raising awareness and promoting environmental consciousness, we can encourage individuals to make informed decisions that contribute to the conservation of biodiversity and the well-being of our planet for future generations.

Social awareness on community engagement

Community engagement for primary children means involving kids in activities that benefit their local community. It encourages children to participate in events and projects that make a positive impact on their neighborhood. It can be as simple as cleaning up a park, planting trees, or helping elderly neighbors. By engaging young children in community activities, they learn about teamwork, responsibility, and empathy. It also instills a sense of belonging and pride in their community, fostering a strong connection between children and their surroundings from a young age.

Awareness about digital utilization

Digital utilization for primary children refers to using technology and digital tools in an appropriate and meaningful way. It involves integrating digital devices and resources into their learning experiences to enhance education and promote skill development. Through responsible and supervised digital utilization, children can explore educational apps, access online resources,

engage in interactive learning activities that support their academic growth and creativity. It also helps them develop digital literacy skills, preparing them for a technology-driven world while ensuring a safe and balanced digital experience.

Feedback: Students were satisfied with the activity which was held on 31.07.2023(Monday) at 2:30pm.

From this activity school students were benefited with proper utilization of gadgets in a effective way and to present themselves in society.

Gifts were distributed to motivate school students.

OBJECTIVES:

1. To demonstrate awareness on respect, kindness, bullying prevention ,community engagement and environment safety
2. To make students aware about proper utilization of electronic gadgets

OUTCOMES:

Students could engage themselves in promoting social awareness and could integrate academic learning and community engagement practically.

Students were benefited with proper utilization of electronic gadgets

"Computer Education for Orphan Students"

Outreach activity conducted at Desire Society , JP Nagar,

Bangalore.

Date: 31-03-2023

Time: 1:30pm – 6:00pm

The outreach activity "Computer Education for Orphan Students" was conducted by the students of 6th semester 'B' section, ECE of the Oxford College of Engineering at Desire society, JP Nagar, Bangalore.

The objective of the outreach activity was to teach computer education for orphan students and higher education.

The students and student coordinator reached Desire Society by 1:30 pm. We were welcomed by office members of the Orphanage and gave a brief description of the Orphanage and played some videos of the Orphanage.

Students had a discussion with office members about the objectives of the Organization ,various activities conducted under the organization and the benefits etc.

The students decided to do some activities for the benefits of the Orphans.

The Orphan students were given knowledge about basic computer education and higher education.

We gifted them with books, beverages, biscuits and fruits. Students spent some valuable time till evening in the organization by conducting many activities.

On 5th July 2024, the Department of Electrical & Electronics Engineering (EEE), in collaboration with the National Service Scheme (NSS) unit, organized an outreach activity titled "Digital Literacy Awareness Campaign." The primary goal of the campaign was to educate the local community on the basics of digital literacy, including internet usage, digital devices, and online safety. In today's technology-driven world, digital literacy has become a fundamental skill, and this initiative aimed

to equip participants with the knowledge and tools needed to navigate the digital landscape effectively.. The venue of the event was Hongasandra. At 2.30 p.m Students volunteers and faculty members of EEE gathered in the classroom N513 and then started to Hongasandra locality.. 40 students and 3 faculty members participated in this outreach activity.

Objective:

The core objectives of the outreach activity were:
To raise awareness about digital literacy and its importance in daily life.

To educate participants on how to use digital devices such as smartphones, tablets, and computers.

To introduce the community to online platforms for banking, education, and communication.

To emphasize the importance of online safety and cybersecurity to protect personal data.

To empower participants, especially senior citizens and those from underprivileged backgrounds, to adopt digital technologies for a better quality of life.

The outreach activity provided an overview of common digital devices such as smartphones, tablets, and computers. Participants were introduced to basic operations, including how to turn on and navigate these devices, use mobile apps, and connect to the internet.

This session focused on explaining various online services, including e-banking, government services, social media, and educational platforms. The speakers demonstrated how to perform basic tasks like transferring money online, filling out government forms, and using social media to stay connected. A crucial part of the event, this session highlighted the importance of online safety. Participants were informed about protecting their personal data, avoiding online scams, and creating strong passwords. The discussion also covered cyber threats such as phishing and identity theft, and how to recognize and avoid them.

The local community responded with enthusiasm and gratitude for the campaign. Many participants, particularly senior citizens and those from economically weaker sections, expressed how the sessions helped them overcome their fear of digital devices and the internet. Several attendees shared that this was their first time learning how to use smartphones and online services like digital banking. They appreciated the hands-on approach and the patience shown by the volunteers. Overall, the community expressed their desire for more such initiatives to continue developing their digital skills.

The Digital Literacy Awareness Campaign successfully achieved its goals of raising digital awareness and providing practical skills to the participants. Some of the key outcomes were:

- People gained confidence in using digital devices and accessing online services.
- Got the awareness on learned how to perform basic online transactions.
- There was an increased awareness of cybersecurity threats and how to protect personal information online.

The outreach activity on "Digital Literacy Awareness Campaign" was a commendable initiative by the Department of Electrical & Electronics Engineering and the NSS Unit. The campaign empowered participants with essential digital skills, promoting digital inclusion and helping bridge the digital divide in the community. By equipping individuals with the knowledge to navigate the

digital world safely and efficiently, the event contributed to building a more digitally literate and inclusive society.

This is to inform, the "Department of Information Science & Engineering" is organizing an outreach program on "ORPHANAGE HOME VISIT" on 09/12/2023 at Singasandra, Bangalore.

Report on "An Orphanage Home Visit"

On 09th December 2023, the students of The Oxford College of Engineering, Department of Information Science and Engineering organized an event to visit an orphanage home. To understand the problems of orphan kids and how they are provided with primary requirements.

This was an eye opener visit where 06 volunteers from ISE 2nd Year visited an Orphanage Home in Singasandra, Bangalore. **Pragathi Charitable Trust** is located at two different places across Bengaluru one at Singasandra and other at JP Nagar.

Orphanage is home for 25 Children, between 8 to 13 years of age. We reached the Orphanage at around 01:45 PM. The children of Pragathi Charitable Trust were very pleasantly excited to receive the members. The students greeted us with great enthusiasm. We also met the caretaker. While interacting with the caretaker, we came across the way they care about the children. After that we the student volunteers distributed the snacks to the children. We interacted with the children. We also engaged them with various games and fun activities. All the children looked so excited and joyful.

Our team spent an about one and half hour with the children before saying good bye to them. It was indeed very satisfying experience for students, as they could bring smiles on children faces. They realized that one contribute and understand his/her social responsibilities towards society.

Report on "KNOW YOUR POLICE STATION".

On 12th July 2024, the students of The Oxford College of Engineering, Department of Information Science and Engineering organized an event to Know the police station and its formalities. To understand the problems of the society(community) and how police deal with those problems. And learn about its operations and contribute their insights on enhancing technological applications within the station. The visit aimed to bridge the gap between the youth and law enforcement, and to leverage the students' knowledge in technology for the benefit of the police force.

This was an eye-opener visit, where 13 volunteers from ISE 2nd Year visited a police station in Bommanahalli, Bangalore. The "Know Your Police Station" outreach activity was organized to foster a stronger relationship between the community and the local police department. The event aimed to educate residents about the services offered by the police station, promote safety awareness, and encourage community engagement.

We were given a guided tour of the police station. We had the opportunity to meet and interact with police officers. A question-and-answer session was held, where attendees could voice their concerns and ask questions directly to the police officers.

Attendees appreciated the transparency and openness of the police station.
We felt more informed about the roles and responsibilities of our local police force.

Our team spent about one and a half hours in the station before saying goodbye to them. It was indeed a very satisfying experience for students, as they could experience that feeling. They realized that one contribute and understand his/her social responsibilities toward society.

The "Know Your Police Station" outreach activity successfully achieved its objectives by enhancing community-police relations and providing valuable safety information. The positive response from attendees highlighted the importance of such initiatives in building a safer and more informed community. Future events will aim to address the feedback received and continue to strengthen the partnership between the police and the community. The visit of students to the station was a fruitful exercise in knowledge exchange and community engagement. The insights provided by the students demonstrated the potential for technological advancements to significantly enhance police operations. The positive interaction and valuable suggestions have laid the groundwork for potential collaborations in the future.

DEPARTMENT OF INFORMATION SCIENCE AND ENGINEERING

REPORT ON OUTREACH ACTIVITY AT PRASHANTHAOLD AGE HOME

POSTER

Department of Information Science & Engineering in association with IIC, The Oxford College of Engineering, Bengaluru organized an Outreach activity to Prashantha Old Age Home 25.07.2024 (Thursday), 2:00 PM Onwards by Ms. S M Bairavi, Assistant Professor, Dept Of ISE, TOCE, Bangalore.

OBJECTIVES:

The primary objective of the outreach activity is to inculcate the values of life, tradition, reality, humanity and culture in the minds of the budding engineers.

OUTCOMES:

The Expert lecture successfully achieved its objectives, as evidenced by the following outcomes:

1. The students interacted with the senior citizens and ensured that they are good.

2. The students conducted various activities like Laugh therapy, skit etc... and engaged with the old people.

3. They created awareness about cleanliness and personal hygiene to the old people.

4. The students distributed biscuits and savories to the old people.

5. The students helped the old age home officials with requirements gathering etc...

6. The students came to know the struggles the old aged people are facing in the day-to-day life.

PARTICIPATION:

A group of 12 students and one Faculty went to the ola age home for outreach activity.

Vidya Rranya Trust is an NGO, a non-profit organisation with a mission to provide children, holistic engagement, livelihood and empowerment to enable equitable growth in the society and ensure dignified a well as healthier lives for them.

We all had an objective of educating the children and bring a smile on their face. There was interactive session in which the children introduced themselves. We had a great time with all of them. We donated necessary groceries.
OBJECTIVE:

This outreach program of " Water Conservation" aims to achieve several key objectives like:

1.   Provide companionship and social interaction:
Children growing in NGO may experience the feelings of loneliness or isolation duo to limited interaction with society. Interacting with them through such activities will build harmony between them.

2.   Educating about water importance:
Now-a-days we know that there is water crisis everywhere. Its necessary to bring awareness about importance of water among children as well as elders.

3.   Interactive activities:
As children love watching cartoons and playing games. They are one of the ways to convey our message on water. Depicting through animated videos and songs, involving them in quiz give them more information about importance of water.

4.   Celebrate special occasions:
Visiting such NGO's during holidays or special occasions bring joy to them. Offering small gifts, cards and organizing eco-friendly parties would make the day memorable.

Prof. Moumita Chatterjee and Prof. Selastina Mary took part in the activity with students to interact with children. We conluded the program by providing Groceries and Fruits.

8 students and 2 faculties have participated in the outreach program.

OUTCOMES:

- Advanced harmony among students
- Increased awareness on importance of water
- Enhanced moral values

An Outreach activity on Hygiene and Health was organized by Dept.of Science and humanities, TOCE in Prashanth charitable Trust, Maruthi layout, Hongasandra on 15th April 2024. This was coordinated by Prof. Lavanya.B.S, Assistant Professor and 2nd sem students.

Objectives

The objective was to bring awareness among people about how to take care of their health and hygiene. April7thmarks the annual celebration of World Health Day – a Day dedicated to spreading awareness of the Health and Hygiene.

Personal hygiene is an integral aspect of our daily lives that encompasses a range of practices aimed at maintaining cleanliness and promoting overall well-being. It involves taking care of our bodies, surroundings and daily habits to prevent the spread of harmful germs, bacteria and viruses. Understanding the meaning of personal hygiene and recognizing its significance can lead to a healthier and more fulfilling life.
Prashanth charitable trust is a non-profit organisation with a mission to provide children, as well as the elderly with holistic engagement and empowerment programs to enable equitable growth in the society and ensure dignified as well as healthier lives for them.

We all had an objective of educating elderly people and bring a smile on their face. There was interactive session in which elderly people introduced themselves. We had a great time with all of them. We donated necessary groceries.

Outcomes:

- Student got the exposure to societal needs by building their relation with the people and helping them to fulfil their needs.
- Also they got the opportunity to enhance their communication skills.
- At the end we got a positive response of the activity were encouraged to bring up such useful activities in the society.

Report on ROAD SAFETY WALKATHON to Bommanahalli (Begur) Signal, on 17 May 2024.

The Department of Science and Humanities had organized an Outreach programme on Road Safety at Bommanahalli Signal (Begur), Bangalore, on 17th May 2024. To create Road Safety Awareness among the students and improve their knowledge and skills to reduce the accidents and develop young ambassadors to take up this to each individual. Educating motorist and members of the public on the importance of discipline on the highways. To provide an opportunity to students to be familiar with road safety educations. To facilitate student's participation in decision making in an area related to road safety while traveling by bus, car, and motorcycle. To involve students in action-based program related to safe road, safe speed, safe drive and safe vehicle.

Promotion of knowledge and understanding of traffic rules and situations. Improvement of skills through training and experience. Strengthening and changing attitudes towards risk awareness, personal safety and the safety of other road users.

- Cooperation with bodies or agencies or groups in road safety activities or in the prevention of accidents on the highways

- Prevention or minimization of accidents on the highway

- Enforcement of speed limits for all categories of roads and vehicles

- Regulation of the use of mobile phones by motorists, seat belts and other safety devices motorcycles on the highways.

Outcomes

The Outreach programme on Road Safety served as a social awareness initiative for all participants involved. It aimed to inspire students to embrace teamwork and develop self-confidence. Around 16 students from the first year of the Science & Humanities department organized a public awareness program. Road safety encompasses various methods and measures implemented to prevent fatalities and severe injuries among road users. These road users include pedestrians, cyclists, motorists, vehicle passengers, and passengers of on-road public transport. Unfortunately, road accidents have become increasingly common due to

vehicle collisions and a lack of adherence to proper road safety measures. The number of fatalities continues to rise as a result of ignorance towards road safety regulations. Given these circumstances, it is crucial for everyone to prioritize safety on the roads and comply with all traffic rules and regulations. In conclusion, this social awareness experience will greatly benefit the participants in their academic and professional pursuits.

Subject: Permission to Conduct an Outreach Activity Program about Road Safety near Bommanahalli (Begur) Signal

Respected Sir,

I am writing to you as a concerned citizen who is deeply committed to enhancing public safety and well-being through increased awareness of traffic issues in our community.

I assure you that this will be beneficial for students in our college in character building and personal growth. Therefore, kindly grant permission to the below listed students to conduct this outreach program.

To represent the college, we are preparing the banner and would like to request that you please fund Rs. 500 for the banner and posters printing.

Department of MBA

Name of The Event	CSR Activity- Promoting Education
Date of event	27.7.2023
Venue	Mathrubhoomi, Singasandra
Organized by	MBA Department in Association with NSS UNIT-The Oxford College of Engineering
Purpose	To promote education among the needy children.
No. of Participants	83 Students and 4 Faculty Members from MBA
Convenor	Dr Tharaka Rami Reddy K, HOD, MBA, TOCE
Faculty Coordinators	Dr.M. Kathiravan , Associate Professor Dr. A Sahana, Associate Professor, Dr. V Lakshmi Suneetha, Assistant Professor

The MBA department of The Oxford College of Engineering conducted an outreach program on27th July 2023, with a visit to the Mathrubhoomi, a non-profit organization registered under Karnataka Societies Act 1960. It is a residential Hostel for Boys promoting better education, Better Care and better future for boys. Children in this residential hostel have been handpicked from slum areas, children who have lost a parent and who are from slums, wandering around and not going to school.

There are 15 children at the residential hostel aged from 4 to 11 years. They reside at the hostel and attend the school at the government school at the main road. Stationary items comprising of ruled books, lead pencils, colour pencils, blue and red pens were purchased and distributed it to 17 children of Mathrubhoomi.

Report on "Road Safety &Traffic Awareness Campaign " on

21th July 2023 at Bommanahalli Junction , Bangalore -560068

Traffic Awareness campaign conducted by Dept of MCA, The Oxford College of Engineering in the association of Seva Brigade Foundation , Bangalore .

" It is necessary that everyone should follow traffic rules. All those rebels who don't care to follow the rules are in constant danger. It is our moral duty to follow road safety rules", following words were said by Principal Dr N Kannak on the occasion of Traffic awareness campaign done in The Oxford College of Engineering , Bangalore .

"Traffic Awareness Campaign was organized by Dept. of MCA and Seva Brigade Foundation Bangalore . The Chief Guest of the event Mr. Praveen Pandey , Founder & President - Seva Brigade Foundation Bangalore, Mr. Datttraiya M R and Mr. Venugopal S from Madiwala Traffic Police came on behalf of Madiwala Traffic police Station . Principal Dr N Kannan and Dr. Puja Shashi HOD-MCA welcomed the delegation .

Our students have made aware to people about the fact that every year in our country near about 3 lakh and 50 thousand people lose their life in road accident. Lakhs and lakhs of people become disabled due to recklessness shown while not properly following traffic rules. The main cause for all the pain and loss of life is the fast and furious driving done by the people. We can stop these accidents if we follow the traffic rules properly. The main reason behind spreading traffic rule awareness is to make people realise the loss they have cause of accident they cause, with their ignorance to traffic rule.

The students also gave information about "motor vehicle act and traffic rules" and also said that the best way to keep others and yourself safe is to follow proper traffic rules. Whenever you drive a car follow the traffic rules, it is important to wear helmet while driving a two wheeler , obey the traffic lights to avoid accidents. One should always wear seat belt while driving a car. Avoid rash driving as fast speed is the core reason of accidents. Always carry all the paper of the vehicle.

To improve the traffic of the city, the team of traffic police gave their whatsapp number and helpline number and also said if any one breaks the traffic rules just make a video and send it to them.

Principal Dr. N Kannan said that this interactive session for creating traffic awareness among people was very important as it makes them aware about the importance of their and others life. Students should come forward and follow these traffic rules obediently . Everyone should wear helmets and seatbelts while driving the vehicle . Be aware and also aware others. Foreign country implies traffic rules properly which cause more safety on roads than ours , where having accident on road is story of everyday. Follow the traffic rules it is very important.

The Chief Guest of the event Mr. Praveen Pandey , Founder & President - Seva Brigade Foundation Bangalore, said Be aware and also aware others. Foreign country implies traffic rules properly which cause more safety on roads than ours , where having accident on road is story of everyday. Follow the traffic rules it is very important.

Report on "Innovation & Entrepreneurship Outreach Program in Schools and Community, on 1-08-2024 at BGS National Public School, Bangalore

On the 1st of August 2024, BGS National Public School in Bangalore hosted the "Innovation & Entrepreneurship Outreach Program in Schools and Community" conducted by Dept of Mechanical Engineering, The Oxford College of Engineering, Bangalore. The event aimed to inspire and educate students and community members about the importance of innovation and entrepreneurship in today's world.
The program began with a welcome from the school's principal, followed by a keynote address from a renowned entrepreneur who shared his journey and emphasized creativity, perseverance, and continuous learning. Interactive sessions by industry experts covered idea generation, business planning, marketing strategies, and resilience. Participants actively engaged, seeking guidance on their entrepreneurial ideas. Workshops provided hands-on experience in developing business ideas, with mentors offering personalized advice to help participants refine their concepts. An innovation exhibition showcased student projects, offering a platform for feedback and networking with industry professionals. The creativity displayed by the students was commendable. The program concluded with a panel discussion on the future of innovation and entrepreneurship in education. Panelists emphasized the need for schools to incorporate entrepreneurial thinking into their curricula and for communities to support young entrepreneurs.

The "Innovation & Entrepreneurship Outreach Program in Schools and Community" was a resounding success, inspiring and educating participants while fostering an entrepreneurial mindset in the younger generation.

Report on "Awareness for Empowering Vulnerable Children" on 2ⁿᵈ February 2024 at Raksha educational and charitable trust, Bangalore

On 2nd February 2024, the Department of Mechanical Engineering at The Oxford College of Engineering, Bangalore, organized an event titled "Awareness for Empowering Vulnerable Children." Held at the Raksha Educational and Charitable Trust in Bangalore, the event aimed to raise awareness and support for underprivileged children.

Representatives from the Department of Mechanical Engineering delivered a welcome address, emphasizing the importance of supporting vulnerable children and the role of educational institutions in such initiatives. Prominent guest speakers from social work, education, and healthcare shared insights on improving the lives of poor, orphaned, and child laborers, stressing the need for comprehensive support. Interactive sessions allowed attendees to engage directly with the children supported by the trust, fostering a deeper connection and understanding of their challenges and aspirations. Workshops and activities, including educational demonstrations, art and craft sessions, and games, provided a joyful and enriching experience for the children. The event successfully raised funds through donations from attendees and sponsors, which will be used to improve the living conditions, education, and healthcare services provided to the children at the trust. Many attendees also signed up to volunteer their time and skills, demonstrating the community's readiness to take action. The "Awareness for Empowering Vulnerable Children" event was a resounding success, thanks to the efforts of the students and faculty of The Oxford College of Engineering's Department of Mechanical Engineering, the staff and volunteers of Raksha Educational and Charitable Trust, and the generous support of the community. The event not only raised awareness but also inspired actionable commitments to improve the lives of vulnerable children..

Report on "Awareness of Old Age Care" on 25th September 2023 at Bommanahalli, Bangalore

On 25/09/2023, a group of 35 students from The Oxford College of Engineering had the opportunity to visit Prashantha Charitable Trust as part of the community service program organized by the Department of Mechanical engineering. The visit aimed to provide students with a deeper understanding of the challenges faced by the elderly and to foster a sense of empathy and social responsibility within the student community. Students engaged in heartfelt conversations with the elderly residents, actively listening to their life stories, experiences, and insights, thereby fostering mutual understanding and respect. Students and residents exchanged knowledge and experiences on diverse topics, facilitating an intergenerational exchange of ideas, perspectives, and wisdom. Interacting with the elderly residents instilled in the students a deeper sense of empathy and compassion, fostering a greater understanding of the importance of respecting and cherishing the elderly within society. The visit reinforced the students' commitment to social responsibility and community engagement, emphasizing the significance of active participation in initiatives that promote the well-being of marginalized communities.

Report on "Awareness on Tree Plantation" on 31th July 2023 at Bommanahalli, Bangalore

On 31/07/2023, a group of enthusiastic students from The Oxford College of Engineering participated in a tree plantation initiative organized by the Department of Mechanical engineering. The objective of the activity was to promote environmental awareness, encourage sustainable practices, and contribute to the conservation of the local ecosystem. The tree plantation activity took place in Shantipriya Layout and involved the planting of a variety of native trees and shrubs.The tree plantation activity had a positive impact on both the participants and the local environment. The activity fostered a deeper understanding of the importance of environmental conservation and sustainable practices among the participating students.The tree plantation initiative encouraged community engagement and collaboration, promoting a sense of shared responsibility for the preservation of the local ecosystem. By planting native tree species, the activity contributed to the preservation of local biodiversity and the restoration of natural habitats for various flora and fauna.

Name of The Event	**Beti Bachao Beti Padhao**
Month of event	**23.09.2023**
Venue	Hongasandra
Discussed Topic	Creating awareness among the people about Beti Bachao Beti Padhao
Organized by	MCA- The Oxford College of Engineering
No. of Participants	52
Output	Our Faculties and NSS Student Volunteer have given the awareness process on drug consumption. We have successfully provided the information to have awareness and help people and professionals about the system .How Drugs are not the way to deal with stress. They change the way our brain works. This can lead to depression, anxiety, and other mental illnesses. If people are already having a mental health issue, **drugs** can worsen the condition. The main objective of this program is to make people Understand that it would affect them and even the people around them .Drug awareness enables children, youth and adults to develop the knowledge, skills, and attitudes to appreciate the benefits of living healthily (which may or may not include the use of psychoactive substances), promote responsibility towards the use of drugs and relate these to their own actions and those of others, .

Our Faculties giving awareness to Participants during the Session

Organized by	NSS UNIT, TOCE in association with Indian Youth Red Cross and IIC, TOCE
No. of Participants	200 students and 25 Faculty Members

Banner

"Meri Maati Mera Desh" envisions a unified celebration of India's soil and valour, commemorating the nation's journey of freedom and progress. By connecting with the land and honouring our culture, this program has instilled a sense of national pride and has inspired future generations to protect India's cherished heritage. The said event conducted by the NSS unit of The Oxford College of Engineering in association with Indian Youth Red Cross and IIC, TOCE on 17th August 2023, was attended by 200 students of TOCE and

25faculty members including Dr. N Kannan,Principal.

The event was conducted to emphasize upon the importance of 'Maati' or soil on which we all depend upon for our survival and sustenance. The occasion was celebrated by Pledge-taking ceremony with MUD/MITTI DIYAS

Encourage students to take pledges to serve the nation and contribute positively to society. Singing the Mitti Anthem during assemblies: Reinforce the sense of unity and pride in our nation's identity by singing the Mitti Anthem together.

BLOOD DONATIONS CAMP

The NSS unit of The Oxford College of Engineering has undertaken program under regular and special camping activities as per guidelines issued by Visvesvaraya Technological University from time to time. In this regard our NSS Unit, Department of Physical Education has organised Voluntary Blood Donations camp in collaboration with Narayana Hrudayala Blood Centre, The Oxford Medical College & Research Centre, Bangalore.

The National Service Scheme (NSS) was organized a blood donation camp in the college premises on 1st February, 2024. Dr. Kannan, principal, TOCE, inaugurated the camp, on this occasion our Director and Principal congratulated the NSS coordinators and students volunteers for coming forward to organize this event. Our NSS Unit, Department of Physical Education has organised Voluntary Blood Donations camp in collaboration with Narayana Hrudayala Blood Centre, The Oxford Medical College & Research Centre, Bangalore. It began at around 10 am and continued up to 4.30 pm, with a steady stream of donors throughout.

In the college premises (7th Floor New Building , MBA Block)the arrangements were made for the donors like registration counter, beds, sanitations, counseling and medical check-up of potential donors. A team of doctors and nurses had reached in time. The donors were provided with glucose water and food including biscuits, a banana and a juice. It was great to see more people than pre-registration numbers turning up in the venue.

Blood donation is a divine act of giving life. NSS motivational act has encouraged many to join hands with us as donors. **300 persons includes students, Teaching & Non-Teaching staff have participated** and **250 Units of Blood has donated** in this camp. Doctors , NSS Co-ordinator expressed their thanks to Volunteers and Donors for their contribution in the Blood donation Drive.

TECHMINDS - TECHNICAL QUIZ
21-12-2023

The Oxford College of Engineering, Bangalore in association with NSS UNIT-TOCE has organised a TECHNICAL QUIZ under **"Viksit Bharat@2047: Voice of Youth"** campaign in the premises on 21-12-2023.

The Oxford College of Engineering, Bangalore has invited students from various colleges in and around Bangalore to participate in this event.

The technical quiz comprised multiple rounds, starting with a written Preliminary Round 1 that saw 99 teams with 4 students per team competing, with 31 advancing. The subsequent Preliminary Round 2 narrowed it down to 10 teams. The General Quiz (Oral) followed with 10 initial participants, shortlisting 8 teams initially, and finalizing 5 teams through a Rapid-fire round. The ensuing Buzzer Round and Audio/Visual Round were conducted for the

selected 5 teams, ultimately determining the finalists based on cumulative round scores. The progression showcased a competitive and challenging selection process, resulting in a final pool of 5 teams for the concluding stages of the quiz.

Results

Sl NO	Team No	Participants Name	College Name	Score
1	81	Mayank Tripathi J Chetan Vinayaka Manoj Sudhir Kulkarni	Sir M Visvesvaraya Institute of Technology Bengaluru	145
2	38	N Sudharsana Laxmi Rahul Kumar Koushik M Kirthi Reddy	The Oxford college of Engineering Bengaluru	50
3	68	Ponmudi Pragadesh G Srinivas N Bhoomika A	Sri Sairam college of Engineering Bengaluru	30

The contested technical quiz culminated with Sir M Visvesvaraya Institute of Technology, Bangalore, emerging as the triumphant first-place winners. The second-place honors went to

The Oxford College of Engineering, Bangalore and Sri Sairam College of Engineering, Bangalore, secured a commendable third place. The winners of the TECHNICAL QUIZ were awarded and rewarded by Dr. SNVL NARASIMHA RAJU, Chairman, The Oxford group of Institutions and Dr. N KANNAN, Principal, TOCE.
