Details of the Software procured for providing the assistance

JAWS is a screen reader software to assist the users who are blind or low-vision to use a window computer.

It allows the blind and visually impaired users to read the screen either with a text to speech output or by a refreshable Braille display. It also supports multi-lingual speech synthesis and multiscreen support.

It is a freely downloadable software which is simple and user friendly. It is installed and used at the College Reception and also in the Library. It helps the differently abled people to get the guidance.
