Summary

ICT is a form of advanced science technology must be optimized function, especially in the implementation of learning. ICT provides opportunities for students in the era of global competition needs to obtain adequate supplies. Through innovative ICT-based learning can provide vast opportunities for students to hone and promote competence on an international scale. On the other hand, mental attitude and self-reliance in accessing any information necessary learning independently influence the value teaching student's character it does not always depends with others. Mastering current tick is necessity for every human being inedible age. As well as in education, innovative learning, especially learning can be done by using the Internet to generate device-based learning ICT

ICT Facilities

Information and Communication Technology or ICTs allow users to participate in a rapidly changing world in which works and other activities are increasingly transformed by access to varied and developing technologies. The Indian Information Technology and industry accounts for a 5.9% of the country's GDP and export earnings as of 2009, while providing employment to a significant number of its tertiary sector workforce. More than 2.3 million people are employed in the sector either directly or indirectly, making it one of the biggest job creators in India and a foundation of the national economy.

Use of ICT

ICT tools can be used to find, discover, analyse, exchange and present information responsibly and without bias. ICT can be engaged to give users quick access to ideas and understandings from a wide range of people, communities and cultures.

"SAKSHAT" a One Stop Education Portal

"**SAKSHAT**" a 'One Stop Education Portal'. The high-quality e-content once urbanized will be uploaded on SAKSHAT in all discipline and subjects. Several projects are in the finishing stage and are expected to change the way teaching and learning is done in India.

SWAYAM- Study Webs of Active –Learning for Young Aspiring Minds SWAYAM is a programme launched by the Government of India and designed to attain the three key principles of Education Policy viz., access, equity and quality. The objective of this attempt is to obtain the best teaching learning resources to all. SWAYAM seeks to bridge the digital tool for students who have hitherto remained untouched by the digital revolution and have not been able to join the mainstream of the knowledge economy.

NPTEL-National Programme on Technology Enhanced Learning the National Programme on Technology Enhanced Learning (NPTEL) was launched by seven Indian Institutes of Technology (Bombay, Delhi, Kanpur, Kharagpur, Madras, Guwahati and Roorkee) along with the Indian Institute of Science, Bangalore in 2003. Major online repository in the world of courses in engineering, basic sciences and chosen humanities and social sciences subjects

IET Digital Library

The IET- Institution of Engineering and Technology Digital Library embraces more than 190,000 technical papers for journals, magazines, books, conference publications and seminar digests. Well referred journals are offered along with 24 research journal titles, The Journal of Engineering, Micro & Nano Letters, the IET's online only journal, the IET's member magazine Engineering & Technology, plus seminar digests and conference publications.

National Digital Library of India (NDLI) is a virtual repository of learning resources which is not just a repository with search/browse facilities but provides a host of services for the learner community. It is sponsored and mentored by Ministry of Education, Government of India, through its National Mission on Education through Information and Communication Technology (NMEICT).

Theses and dissertations are known to be the rich and unique source of information, often the only source of research work that does not find its way into various publication channels. Theses and dissertations remain an un-tapped and under-utilized asset, leading to unnecessary duplication and repetition that, in effect, is the anti-theses of research and wastage of huge resources, both human and financial.
