Guest Lecture on "CYBER SECURITY"

This is to inform all faculty and students of B.E 6th & 8th SEM, there will be a Guest Lecture on "Cyber Security" which is scheduled on April 10th, 2017 (Monday) from 2.15 pm to 4:15 pm in IV Floor Seminar Hall. The resource persons are Mr. Laxmikant Pratap Gudupaty & Mr. Prateek Vutkur,

All are required to attend the Expert lecture.

Report on Cyber Security

With the respect of MoU between the Department of Information Science & Engineering, The Oxford College of Engineering and Cloud Enabled Pvt Ltd, Bengaluru, Guest lecture on “Cyber Security” was organized in the college on 10th April 2017.

Mr. Laxmikant Pratap Gudupaty and Mr. Prateek Vutkur from Cloud Enabled Pvt Ltd, Bengaluru were the resource persons. Various challenges on security were covered and Students of eighth and sixth semester actively attended and had interactive session with the resource persons.

REPORT ON EXPERT LECTURE

Scientist :Dr.Nagesh

Scientist, Skanda life science Pvt, Ltd. Bangalore

Date: 28-09-2016

Topic:Role of cell based assays in drug development and its application

An Expert lecture was organized on "Role of cell based assays in drug development and its application" by Dr. Nagesh, Scientist, Skanda life science Pvt, Ltd. Bangalore on 28th September 2016 for VII and V semester students of Biotechnology Department. This lecture mainly highlighted that cell based assays in drug development and its application. Billions of dollars are invested globally into the clinical approval of new drug compounds, but only a small handful of new chemical entities are approved by the Food and Drug Administration (FDA) each year. Cell-based assays have been a key component in streamlining the drug development process, helping drugs brought to the market in a quick and efficient manner. While cytotoxicity remains a primary effect that drug developers use cell based assays to quantify, biological activity, biochemical mechanisms and off-target interactions are also being investigated using this technique. Due to their amenability to miniaturization and multiplexing, cell cultures are being used for high-throughput screening (HTS) to test many compounds under different conditions in parallel.

He motivated the students by giving tips to the technological developments in physiology and molecular biology are allowing cell culture scientists to investigate the effects of drug compounds on multiple cell phenotypes. For example, protein complementation assays reveal the effects of such compounds on protein-protein interactions, which often stimulate signaling cascades in cellular pathways. Calcium signaling is another highly informative readout of the effects of a given drug compound on cellular functions, since calcium signaling is involved in many important physiological processes. New molecular biology tools are allowing researchers to monitor calcium signaling using cell-based assays, which could have significant implications to drug discovery market.

Modern cell-based assays are combining the advantages of animal models and cell cultures to allow drug developers to identify problems with drug candidate leads at early stages.

The Lecture was well appreciated by the faculty and student.

Expert lecture report on
“Isolation, characterization and biological screening of natural compounds
using biochemical assays”
2nd November 2018

Objectives of the lecture:

- Lecture aimed at providing practical insight into natural product research methodologies followed in biotechnology industries.

An Expert lecture was organized on **“Isolation, characterization and biological screening of natural compounds using biochemical assays”** by Mr. Sidarth Dubey, Managing Director, **SARAJU**, Bengaluru, on 2nd November for VII, V and III semester students of Biotechnology Department. This lecture mainly concentrated on the practical aspects of natural product research in the biotechnology industry.

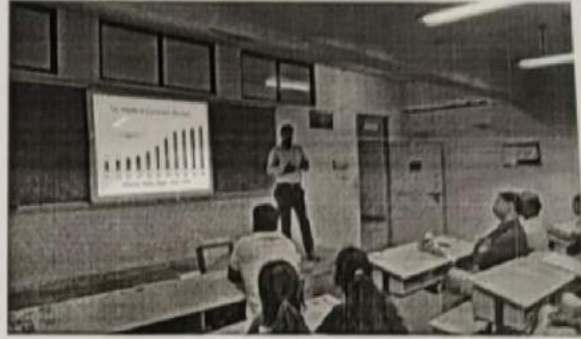

The speaker illustrated the processes involved in natural products research as isolation techniques, characterization of chemical compounds and the biological screening using biochemical assays. He talked about the extraction procedures as well as assays commonly followed for studying the biological applications of natural compounds.

The speaker also judged the event of model-making “Bio-Resonance” conducted by the students of Biotechnology Department on the same day.

Students were enthusiastic to learn about industry mode of working and interacted with the speaker about their projects in natural products and the trend in biomedical applications. It was well informative, interactive and opened up new research options.

Outcome:

Students are made aware of industry needs, exposed to chemical procedures of extraction and characterization of chemical compounds, and problem solving approach of industry.

A REPORT ON

GUEST LECTURE

on

RESEARCH SKILLS

Organized by
THE RESEARCH POST, BANALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

19th January, 2017

A Guest Lecture was organized by **RESEARCH POST, BANALORE** on **19th January, 2017**, at The Oxford College of Engineering on the topic “Research Skills” .

Total number of Students Present: 115 MBA students

The main goal of the Guest Lecture on Research Skills is to help students develop research skills and competencies, acquaint them with contemporary real life aspects of Marketing, HR and Finance domains, and improve the effectiveness of their independent research work, which is required for the successful preparation of the term paper and Master’s thesis.

In the present day, the world is facing a number of challenges in the engineering, Management, environmental and other sectors. This has led to the need of instilling research at academic level. The Oxford College of Engineering being active in research recognizes the prominence of research to be inculcated among the Management students right from their first semester. To channelize the vigor and passion of Management students, to cultivate their understanding and skills to carry out research, MBA Department in association with Research Post, Bangalore organized a Guest Lecture on “Research Skills” in the Department on 19th January, 2017.

There were Presentations on “Becoming a Researcher in the field of Business Management” and “Art of Writing Research Papers and Research Report” by Dr. Saibaba during the Guest Lecture

Introducing the Speaker by Prof. Kalavathy

The Guest Lecture was attended by 115 students from MBA programme.

At MBA programme The research seminar allows students to work with prominent researchers and professionals and adjust their individual prospectuses, helps students refine their skills of research, text dispensation, searching scholarly info and presenting their work.

Students also improve their understanding of study proposal, which includes defining the hypothesis, providing a basis for it and selecting a line of argument. Students then write term papers to cabinet and review the results obtained during research seminars. is one of the options.

Points highlighted by the Speaker:

1. Professional orientation of students to help them choose the field and topic of their dissertation
2. Inculcating academic skills, including preparing and conducting research
3. Involving students in project activities and R&D for government
4. Writing and publishing student papers and articles

Guest Lecture by Dr. Saibaba on Research Skills

The students were made aware of the personalities of a virtuous researcher, skills that they need to develop to become a noble researcher and how they can develop a positive perception/attitude towards research during lecture.

The students were also given recommendations to publish their research afterwards and the students were made conscious of usage of Scopus, Research Gate, and other ICT tools for Research. The Guest Lecture was a memorable learning for the Management students.

CIRCULAR

Dear final year MBA students, there will be a guest lecture on “WORKSHOP on ENTREPRENEURSHIP” organizing by PLANTS ZONE, BANGALORE in association with department of MBA. The details are as follows:

Date: 2nd January, 2017

Venue: Seminar hall, 6th floor, The Oxford College of Engineering

Resource Person: Mr . Pradeep , Executive, Plants Zone, Bangalore.

All are informed to participate.

A REPORT ON

WORKSHOP

on

ENTREPRENEURSHIP

Organized by
PLANTS ZONE, BANALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

2nd January, 2017

A workshop was organized by **PLANTS ZONE, BANGALORE** on **2nd January, 2017**, at The Oxford College of Engineering on the topic “Entrepreneurship” .

Total number of students present : **82 MBA students**

There are numerous causes to promote entrepreneurship among young folks since it has a number of prospective benefits. A noticeable and important one is that it generates employment for the person possessing the business. We should however admit that not all fresh graduates could become businesspersons in a business sense. It is so significant to emphasize that entrepreneurial talents can help adolescence familiarize well to other non-entrepreneurial careers. The improving shared attitudes towards entrepreneurship are obvious among fresh graduates

The speaker Mr . Pradeep , Executive, Plants Zone, Bangalore gave lot of inputs on Entrepreneurship and skills required to become ENTREPRENEUR and made all the participants to involve in practical session of doing entrepreneurial activities.

Speech by Mr . Pradeep , Executive, Plants Zone, Bangalore

Students participation in the workshop

There were different eco-friendly products and services that were made and marketed in the Entrepreneurship workshop namely decorative items out of waste glass, plastic bottles, waste papers, rags, mud items etc.

Students participating in Entrepreneurship workshop

82 students have participated from MBA department. The students were with the opinion that the event was very helpful in transforming their ideas into product / service which was possible because of a real time event like Entrepreneurship Workshop and gave them the opportunity to show their business acumen.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

To

The Principal,
TOCE,
Bangalore.

Respected Sir,

Subject : Proposal to conduct two day Workshop on "Applications of MSP430"

(for 4th Sem EEE/ECE)

The Dept. of EEE in association with Jyothi Embedded Labs ,Bangalore is planning to conduct 2 days workshop on Applications of MSP 430 for fourth Semester EEE students. The proposed dates are 31/3/2016 and 1/4/2016. (Thursday and Friday)

The Mixed Signal Processor (MSP) 430 is an advanced low power microcontroller produced by Texas Instruments. The microcontroller and its applications are included in the lab syllabus recently by VTU. This workshop will enable the students to get an in-depth knowledge about the processor and its application in various industries and it will benefit the students for placement in industries.

The cost of the workshop is Rs. 500/- per student which will be collected by M/s Jyoti Embedded Labs.
The company will provide hardware kits and related programs to the participants to be used in the workshop.

The workshop will enhance the skills of students, improving their employability.

We request the Principal to kindly give permission to conduct the workshop in the college.

Thanking You,

Jyoti Embedded Labs

BTM II stage, Bangalore

Mobile: 9845615462

Email: info@jyotielabs.com

“Proposal for MSP430 Workshop”

Established in 2010, Jyoti Embedded Labs is driven by passion to make a difference in embedded learning. Our training programs are customized to provide hands-on training to students and graduates. We focus on both behavioral and technical skills while improving overall development of our candidates.

Jyoti Embedded Labs has partnered with Pearl Assisi-E Technologies Pvt. Ltd. to provide advance self-learning DIY kits. Our kits help in learning in an easier and interesting manner. We are also associated with Sitec Electronics who provides advanced lab Equipments such as micro controllers, FPGA Kits, etc.

Our aim is to reduce the gap between the graduate skill set and industry requirement. To do this we have one of the best minds in teaching offers their vast experience to our students.

Workshops for colleges

We offer embedded training and Workshop in campus. Our workshops provide DIY kits and learner centered educational practices. With these interactive learning strategies, participants leave with an abundance of creative ideas, which could be implement immediately.

Outcome of our workshops are greater student engagement and boosted academic success. These workshops are ideal for students in ECE/TCE/CSE.

“2 Days Fully Hands-on Sessions”

With 2 or 3 Project Demo in the last session

Day 1 - 3 sessions

9 AM to 11 AM: Session -I, 120 Minutes

MSP430 RISC CPU architecture: Memory subsystem (Programmer Model), Clock system, Key differentiating factors between different MSP430 families. – 100 minutes

Motivation for MSP430 microcontrollers – Low Power embedded systems, analog and digital low-power RF capabilities. – 20 minutes

11 :30 AM to 1 PM : Session -II , 90 Minutes

Introduction to Code Composer Studio (CCS) – 30 minutes

Digital I/O – I/O ports programming using C and assembly, Understanding the MUXing scheme of the MSP430 pins.

Interfacing LED, Seven segment LED modules interfacing -- 60 minutes

2 PM - 4 PM: Session –III , 120 Minutes

Instruction set – Need for assembly language, Assembly Lab Programs (6 to 7) -- 120 minutes

Day 2 : 3 sessions

8.30 AM to 11 AM: Session -I, 150 Minutes

LCD, ADC, Basic Timer, , Watchdog Timer -- 180 minutes

11.30 AM – 1 PM: Session –II, 90 Minutes

Real Time Clock (RTC), Low-power programming(Clock system), SD16 /DMA -- 90 minutes

2 PM - 4 PM Session –III, Demo Session, 120 Minutes

Interrupt programming. Wireless sensor network with RF interfaces. Demo of 23.3 Projects in either MSP430 / ARM7 (with explanation , no hands-on) – 90 minutes

End session – Questionnaire – 30 minutes

Note: Above content is only for reference. Revision of Content and Timing can be best settled by further discussion with H.O.D and the concerned Professor taking the subject.

Continuation Program for MSP430:

1. Free: 1 or 2 days, 4 PM – 6 PM - For any clarification, whoever wants (minimum 10 students).
2. Paid Training at any time at company office: Rs. 100 per student per hour, minimum 4 students (on prior appointment)

Key Features:

- Complete practical hands-on session with theory concepts
- Designed by experienced people working on embedded systems since long.
- Qualified and skillful trainers
- Quality product designed by Pearl Assisi-e Technologies Pvt. Ltd.

Benefits to Participants

- Hands-on into Embedded System design with MSP430 Controller
- Development of firmware programming
- Design the entire Embedded system applications themselves under the guidance of professionals
- Workshop experience may lead to development of final year projects B.Tech.

Who Should Attend:

- Specially targeted to 4th sem ECE/ECE who wants to understanding technology practically
- Those who wants to do project in wireless communication and Embedded Systems
- Those who want to improve their practical and technical skills and create something innovative

What we provide:

Hardware

- MSP430 Kit with all required interfacing modules (1 set per group (3 or 4 of student) - H/W will be given only for hands-on, if students wants Kits they can buy from us separately.)

Software/ IDE

- Free Version of IDE will be installed only for the workshop

Study Material

- Relevant PDF
- Certificate of participation

What we required to conduct the session

- A computer lab with required nos. of PCs and a projector
- List of registered Participant

Thank you

We ensure that our Technical initiative & training programs extremely beneficial for all the participating students. If you have any queries kindly get back to us. We are looking forward to a quick and positive response and a long-term association with your esteemed organization.

For any Further details please contact us:

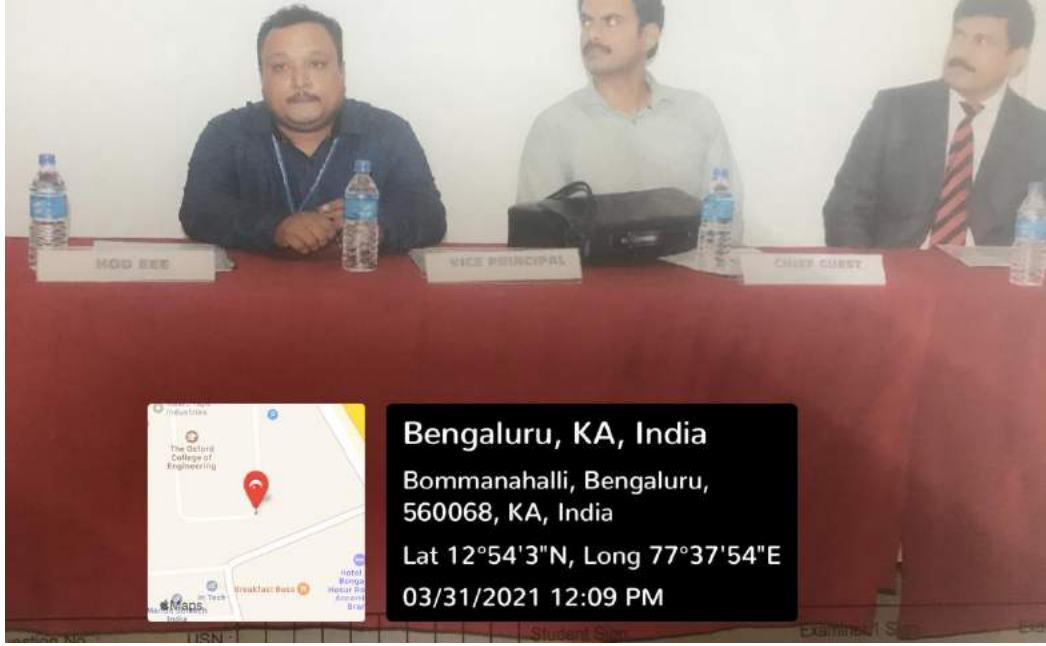

Thanks & Regards,
Sanjay Kumar Bhagat

Workshop on MSP 430 with VENJAY Automation

Inauguration of workshop on MSP 430 with VENJAY Automation

The Oxford College of Engineering

Department of MCA

CIRCULAR

This is to inform that All the students of MCA Final Year must attend Project Internship Guidance Training Session conducted by Mr. Abhilash Gupta from M/s. MadMac Technology on 15th December 2018

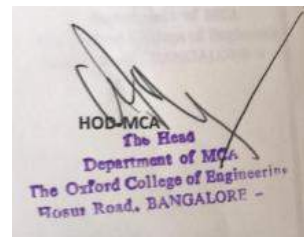

Venue : 6th Floor MCA Seminar hall

Speaker : Mr. Abhishek Gupta , Project Lead

Date and Time : 15 December 2018 [10:00-11:45 AM]

Copy to:

1. Principal
2. Principal Office
3. Dept File

The Oxford College of Engineering Department of MCA

Talk on Final Year Project Internship Guidance

Name of the Guest Speaker : Mr. Abhilash Gupta, Team Lead

Title : **Opportunities for MCA Final Year Project Internship Training** Under the MOU of Dept of MCA and The Oxford College of Engineering and **M/s. MadMac Technology**

We have conducted in the association and explore long term collaboration opportunities between both parties to

- Through the above program they support development of employability enhancing skills and traits that lead to overall success of students.
- They have promote a global mindset through hands-on experiences and exposure to best practices from the best institutions in the world.

They have create Placements engagement and development opportunities for students

The above Program goals will be accomplished by undertaking the following students participated as follow .

Class and semester: 6th Sem

Section: A

Final Year Students during Session

Sl. No	USN	Name of the student	Signature
1	1OX15MCA01	AKSITHA K V	P
2	1OX15MCA02	ANJAPPA T	P

ACTIVITY REPORT

Date – 12 November 2016

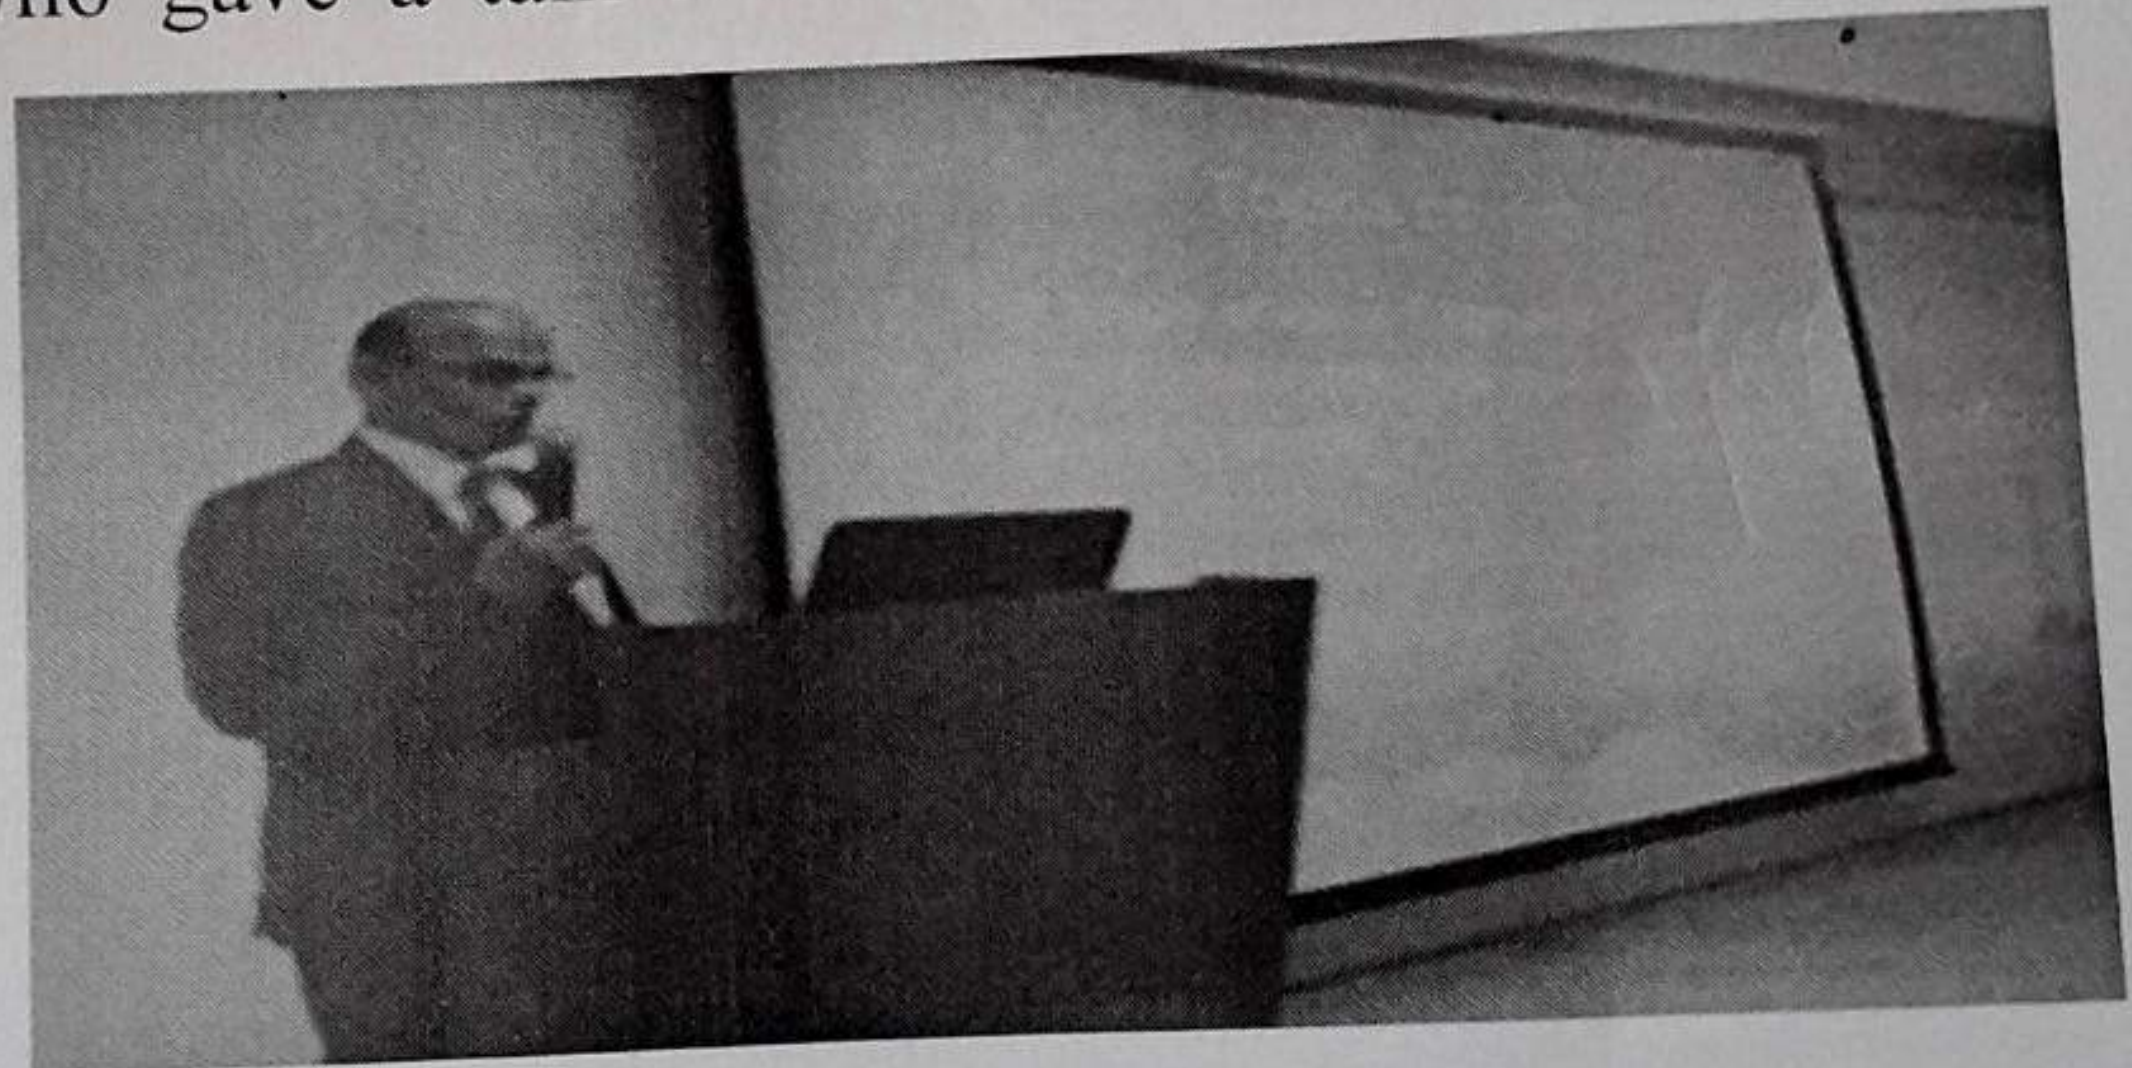

The Memorandum of Understanding between School of Construction Management Excellence and The Oxford College of Engineering, provided an opportunity for us to conduct a guest lecture on the topic “Introduction to value Engineering Methodology”. The resource persons were Ms. Anita Lukose, Mr. Murthy, Mr. Daniel, Mr. R. Chandrashekar, who gave a talk related to methods to be used to create valuable

Engineering

Work and

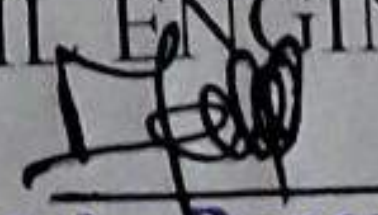

advanced

techniques used

in industries by Engineers for many purposes. This motivated our students to learn more in depth about Civil Engineering knowledge which they have to acquire.

Report on Internet Protocols and their impact on IOT

With the respect of MoU between the Department of Information Science & Engineering, The Oxford College of Engineering and Itorizon India Pvt Ltd, Bengaluru, Guest lecture on **“Internet Protocols and their impact on IOT”** was organized in the college on 23th August 2017.

Ms. Anandhi from Itorizon India Pvt Ltd, Bengaluru was the resource person. Various aspects on Internet protocols in IOT environment were covered and Students of seventh semester actively attended and had interactive session with the resource person.

Student interacting with resource person during session (23/8/2017)

DATA ANALYSIS IN MBA PROJECTS

Organized by
RESEARCH POST, BANGALORE

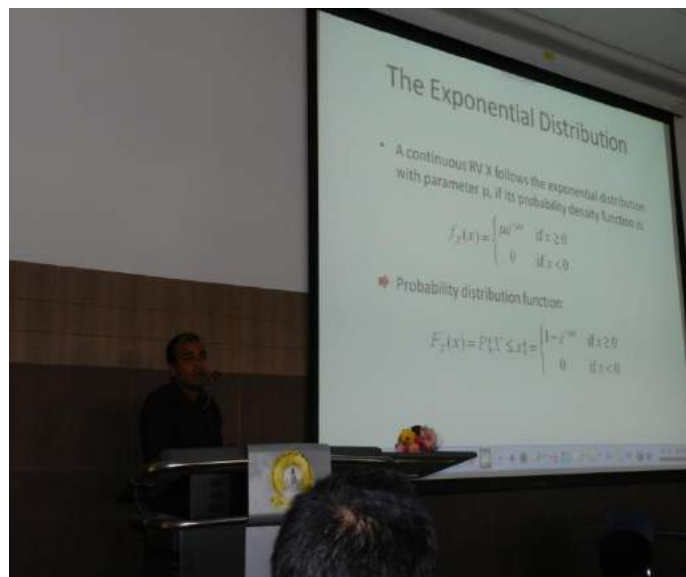

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

23rdDecember, 2017

Researchers rely profoundly on data as they have a story to tell or problems to solve. It starts with a query, and data is nothing but an response to that question. But, what if there is no question to ask? Well! It is possible to explore data even without a problem – we call it '*Data Mining*' which often discloses some exciting patterns within the data that are value exploring.

One of the important things predictable from researchers while analyzing data is to stay open and remain unbiased towards unforeseen patterns, vocabularies, and results. Sometimes, data analysis tells the most unexpected yet exciting stories that were not expected at the time of initiating data analysis. Guest Lecture on Research related topics help students refine their skills of research, text processing, penetrating scholarly information and bestowing their work. Students also progress their understanding of study design, which includes defining the hypothesis, providing a rationale for it and selecting a line of argument. Students then write term papers to showcase and review the results obtained during research seminars.

Research related guest lectures by experts are taught in a cross-cutting pattern throughout both years of study. Research workshops/ seminars help students develop research skills and prepare for writing the term paper and Master's thesis.

Dr. M. John form Research Post, Bangalore delivering lecture on DATA ANALYSIS
Dr. M. John ,form Research Post, Bangalore has delivered an rousing lecture on “DATA ANALYSIS IN MBA PROJECTS” at MBA department, The Oxford College of Engineering on 23rdDecember, 2017..

The Guest Lecture was attended by 141 students from MBA programme

Points Highlighted by the Speaker:

Project work is an important element of MBA Curriculum. A logical presentation of the empirical results after completing the data analysis. This should contain neatly tabulated results, results of Hypotheses tested, graphs and figures, if any, along with necessary interpretation. A comparison of results with earlier studies may add novelty to the work.

Students participation in Guest lecture on DATA ANALYSIS

The students were given directions to publish their research outcomes. The Guest Lecture was a memorable learning for the Management students.

A REPORT ON

GUEST LECTURE

on

ENTREPRENEURIAL SKILLS

Organized by
PLANTS ZONE, BANALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

3rd February, 2018

Mrs. Swetha, prominent motivational presenter, Executive form PLANTS ZONE, Bangalore has delivered an stirring lecture on “Entrepreneurial Skills” at MBA department, The Oxford College of Engineering on 3rd February, 2018. She introduced the diverse facets of entrepreneurship and highlighted that enthusiasm is the only one constituent in a way for business start-up.

Total Number os students present: 96

She also highlighted the reasons that people do not start their new projects in India and stressed to raise the basic attentiveness of entrepreneurial ideas and to enable students to identify and learn how to take up entrepreneurship as a perplexing career. She has discussed in detail about the various qualities of successful entrepreneurs, communication skills and technical skills.

She suggested all the participants that one must also look for viability, investment and return on investment. If proper care is not taken about these three things, Survival will be the toughest problem.

Also she mentioned about different kinds of sources available for finance, various sources like self, private, bank, venture capital, angel, partners etc. To all he explained about working with time limit, and one should forestall competition, employing right people.

Mrs. Swetha, Executive, PLANTS ZONE
Lecture

Students participation in Guest

Towards the end of the lecture, she illustrated so many examples of successful entrepreneurs.

Students participation in Guest Lecture

Presentation by Student

96 students have participated from MBA department. She interacted with the students and asked them questions on the process of Entrepreneurship. Students enthusiastically participated by responding to her questions. Further, she emphasized on the importance of becoming an Entrepreneur.

Mrs. Swetha, Executive, PLANTS ZONE, BANGALORE

She concluded the lecture by thanking all the students, principal and the coordinators. Students found this session useful, and interesting.

The Memorandum of Understanding between "Heaven Bird" and Civil Engineering Department, The Oxford College of Engineering, provided an opportunity for us to conduct a guest lecture on the topic "Requirements of Buildings and bye-laws". The resource person was Ms. Pushpa Devanathan an Architect provided a detailed knowledge about the building BYE-LAWS and its importance in construction practices. This proved to be very helpful for students to learn about the topic which is generally not included in their curriculum.

Report on 4G with focus on LTE & its architecture

With the respect of MoU between the Department of Information Science & Engineering, The Oxford College of Engineering and 3G Network Solutions Pvt Ltd, Bengaluru, an expert lecture on “**4G with focus on LTE & its architecture**” was organized in the college on 23rd March 2018.

Mr. Kannan Kadirvelu, System Architect from the 3G Network Solutions was the resource person. He covered various aspects of LTE architecture. Students of sixth semesters actively attended and had interactive session with the resource person.

Resource Person Mr. Kannan Kadirvelu delivering lecture on LTE architecture (23/3/2018.)

THE OXFORD COLLEGE OF ENGINEERING

DEPARTMENT OF ISE

INVITES ALL

For Expert Lecture On

“Entrepreneurship Management”

By

Mr. Parameshwar

Date: May 8th 2018

Venue: IV Floor Seminar Hall

Timings: 2:00 pm to 4:00 pm

Certificate of Internship

This is to certify that Ms. Chaithanya R, (Reg. No. 10X15BT011) student of 4th year B.Tech Biotechnology at The Oxford College of Engineering, Bengaluru, India successfully completed one month (July 09, 2018 to August 09, 2018) long industry internship at Zastra Innovations Private Limited under my supervision. Her internship activity includes familiarizations to different Bioinformatics methods and Drug Discovery selection related projects. Her internship involved one project and learning of methodologies simultaneously,

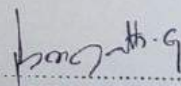

- i) Inhibition of MAPKinase in cardiovascular hypertrophy.

During the phase of her internship program, she learned and worked on softwares like AutoDock, PaDEL, MyStat, Mendeley and commercial softwares like StarDrop and FlexX. She had been exposed to different situations to meet deadlines on submissions of weekly and project reports including weekly presentation of results during which we found her punctual, hardworking and inquisitive.

We wish her every success in her life and career

Duration of Internship:	July 09, 2018 to August 09, 2018
Evaluation of the Internship:	Excellent / Satisfactory / Unsatisfactory
Comments on the student's performance noting strengths and weaknesses:	Uses time constructively.

Signature of the Supervisor
Girinath G. Pillai, PhD

Certificate of Internship

This is to certify that Ms. Deepika M, (Reg. No. 10X15BT012) student of 4th year B.Tech Biotechnology at The Oxford College of Engineering, Bengaluru, India successfully completed one month (July 09, 2018 to August 09, 2018) long industry internship at Zastra Innovations Private Limited under my supervision. Her internship activity includes familiarizations to different Bioinformatics methods and Drug Discovery selection related projects. Her internship involved one project and learning of methodologies simultaneously.

- i) Drug targets and protein target expression in Melanoma.

During the phase of her internship program, she learned and worked on softwares like AutoDock, PaDEL, MyStat, Mendeley and commercial softwares like StarDrop and FlexX. She had been exposed to different situations to meet deadlines on submissions of weekly and project reports including weekly presentation of results during which we found her punctual, hardworking and inquisitive.

We wish her every success in her life and career

Duration of Internship: July 09, 2018 to August 09, 2018
Evaluation of the Internship: Excellent / ~~Satisfactory~~ / ~~Unsatisfactory~~
Comments on the student's performance noting strengths and weaknesses: Uses time constructively.

A report on student project under advice of Petritian Creation Private Ltd.

Some batches of the students have done final year project using 3D-printer for multipurpose robotic hand. It was very useful product for the agriculture application & in medical health care. Another batch has fabricated human skull for the hidden camera using 3D-printer. Another batch is fabricating device using hand gripped device.

Memorandum of Understanding

EFFECTIVE DATE: This MOU is executed on (effective date) between

PARTY 1: [Primary applicant: Academia's particulars] The Oxford College of Engineering).

PARTY 2: [Collaborator: Industry particulars] Patrician Creations Pvt. Ltd).

Whereas, the Institute has developed proof of concept with regard to **Orthodontic Treatment planning and prediction** Whereas institute has identified Patrician Creations Pvt. Ltd. to carry part of its study that will involve providing necessary services required for the testing of the software and stand alone.

Whereas Patrician Creations Pvt. Ltd has agreed to perform such required service which is testing of the developed module as per the schedule and terms agreed mutually. Now thereof the parties for valid consideration enter into this MOU:

1. **OBJECTIVE:** The present study Providing turnkey solution to orthodontists to shift to a more modern electronics based approach rather than the traditional modus operandi)
2. **SCOPE OF WORK: The scope of work shall include:**
 - . Large number of dentist and orthodontic patients will get benefited by proposed work
3. **ROLES & RESPONSIBILITIES:**
 - A. Development of software
 - B. Overall testing of the module
4. **CONFIDENTIALITY:** All information under the MOU shared between the parties shall be treated as confidential information and shall be subject to restrictions on disclosure other than for the purpose of this MOU. The confidentiality obligations shall survive even after the termination or expiration of this MOU. Confidential information shall not include:

Disclaimer: This sample MoU is for example only. It should not merely be duplicated without consideration of the project for CRS. The parties should include additional terms and conditions based on project specifics and additional aspects that require mutual governance.

- a. information that is available in public domain;
- b. information already known to the receiving party;
- c. information disclosed to the receiving party by a third party not under obligation of confidentiality;
- d. Information developed by the receiving party independent of the confidential information received under this MOU.

5. PUBLICATION:

6. INTELLECTUAL PROPERTY RIGHTS :

- a. "Intellectual Property" means the legal rights relating to inventions, patent applications, patents, copyrights, trademarks, mask works, trade secrets, and any other legally protectable information, including computer software, first made or generated by such investors .
- b. The "Intellectual Property Rights (IPR)" generated during the project will exclusively lie with the academia, The Oxford College of Engineering
- c. Patent Prosecution and Expenses. The filing, prosecution, defense and maintenance of all Patents for the Inventions will be conducted and controlled individually in the name of Patrician Creations Pvt. Ltd. And The Oxford College of Engineering (institute), acting reasonably and in good faith.
- d. Background Intellectual Property: Any of the party possess rights in background intellectual property, that is, intellectual property not otherwise subjected to this MOU , which would be useful or essential to the practice or commercialization of the results of this MOU, should be disclosed. Except to the limited extent required to perform a party's obligations under this MOU, neither party receives any right, title, or interest in or to any Research Materials provided to it by the other party or any technology, works or inventions of the other party that are not Research Program Inventions, or any patent, copyright, trade secret or other proprietary rights in any of the foregoing.
- e. Maintaining the Laboratory Notes: Each party agrees that research efforts will be well documented in the form a laboratory notes with accurate data disclosed for each experiments performed therein, during the course of this MOU.
- f. In the event of commercialization of the technology by Patrician Creations Pvt. Ltd, The Oxford College of Engineering will have the first right of refusal

7. TERM AND TERMINATION: This MOU shall be valid for a period of Three years from the Effective Date and can be terminated by a notice of six months by either party. The termination of this MOU shall not affect any IP rights accrued and related obligations

Disclaimer: This sample MoU is for example only. It should not merely be duplicated without consideration of the project for CRS. The parties should include additional terms and conditions based on project specifics and additional aspects that require mutual governance.

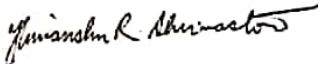

arising under this MOU. As per the need the MOU will be revised for further duration with same terms and conditions or mutually agreeable modifications.

8. **INDEMNIFICATION:** Neither party shall be held responsible for the indemnification of their respective obligations under this MOU due to the exigency of one or more of the force majeure events such as but not limited to acts of God, War, Flood, Earthquakes, Strikes, Lockouts beyond the control of the party claiming force majeure, Epidemics, Riots, Civil Commotions etc. provided on the occurrence and cessation of any such event the party affected thereby shall give a notice in writing to the other party within one month of such occurrence or cessation. If the force majeure conditions continue beyond six months, the parties shall jointly decide about the future course of action.

9. **DISPUTE RESOLUTION, GOVERNING LAW AND JURISDICTION:**

Any disputes between the parties shall be resolved by mutual discussions. Minor dispute during execution of the project shall be subjected to resolution out of this MOU. The MoU shall be considered, interpreted and governed by the laws of India and Courts at Nagpur shall have exclusive jurisdiction in all such matters.

A REPORT ON

EXPERT TALK

on

**TECHNOLOGY IMPACT ON MANAGEMENT
EDUCATION & INDUSTRY**

**Organized by
GenEd TECHNOLOGIES, BANALORE**

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

29th August, 2018

An Expert Talk on TECHNOLOGY IMPACT ON MANAGEMENT EDUCATION &INDUSTRY was organized by **GenEd TECHNOLOGIES, BANALORE** on **29th August, 2018**, at The Oxford College of Engineering. Mr. Rajasekhar, Technical Expert, GenEd Technologies, Bangalore has addressed the gathering of 150 MBA students.

Technology has been altering at a rapid pace ever since the onset of Industrialization. The effects of these varying cycles or ‘Industrial Revolutions’ have been felt not just on industry and business but also on everyday life.

Mr. Rajasekhar, Technical Expert, GenEd Technologies, Bangalore deliberations

With the rapid progressions of technology uninterruptedly changing needs and prospects of students and customers and increasing global rivalry, business schools and management development bodies are faced with many opportunities and challenges for the ways they teach, operate, and promote themselves. Some hold technology with openly while some prefer to follow more traditional and tested methods.

Students participation in Expert Talk.

The speaker highlighted that, although technology is lastly being assimilated into education, its use for teaching and education still leftovers a challenge. Notwithstanding the fact that many schools today are fortunate to have ready access to technology, trained teachers, and a favorable policy atmosphere, the use of technology in the classroom is still low. Some attribute low levels of technology use in education to the pedagogical beliefs of teachers.

Students participation in Expert Talk.

He also specified the following ways that technology could be better leveraged to improve learning:

- With the extensive availability of student databases that are able to trajectory individual progress, teachers are stimulated to identify learning purposes and segregate instruction based on the needs of their students.
- Whenever teachers try to present teaching using technology, they should do so using a network that is relevant to the objectives, the learning style, mode and the skill selected.
- When evaluating technology-based instruction, there needs to be suitable assessment techniques that are in line with the methods of instruction, objectives and the technology.
- Teachers can design follow-up activities when using technology to evaluate students' learning and the role technology played in that process.

The Workshop program was well appreciated by students.

A REPORT ON

WORKSHOP

on

ENTREPRENEURSHIP

Organized by
PLANTS ZONE, BANALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

29th December, 2018

A workshop on entrepreneurship was successfully conducted by Mr. Sampath , Plants Zone, Bangalore on 29th December, 2018 in MBA department, The Oxford College of Engineering.

Presentation by Mr. Sampath , Plants Zone, Bangalore

The workshop began with displaying of Slides on the screen and publicity materials. The first session was on the prominence of Skill and Entrepreneurship Development and the participants were communicated about the prospects that they can become Entrepreneurs.

Student talk in workshop

Proper material and demos were given to the participants. A very good feedback was received for the e-content, and the candidates cherished that the content is in local language as well. The entire session proved to be very fruitful for all the candidates.

The next session was titled “Business Plan and Funding”, and looked into brief investment requirement for setting up a small business and Credit Linkages available through different Financial Institutions and Banks for those who want to take this step.

Students participation in workshop

This proved to be a very productive session as most participants were eager to become entrepreneurs

Talk about the Marketing Linkages was the last topic for the day, with the details about the Logistics and Admin Management to the candidates.

Students doing exercise in workshop

101 Students from both 1st & 3rd Semester of MBA have participated. There was an encouraging response from all the participants and they found the workshop to be very useful for their future. They were given information about career growth.

RESEARCH PAPER WRITING & PUBLISHING

Organized by
COMBINED GROUP OF SCIENCE & TECHNOLOGY, BANGALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

7th February, 2019

Writing a seminar paper can be quite challenging, especially when you are doing it for the first time. However, it is not as hard as it seems and today we will teach you how to write seminar paper. All you need is time and effort!

A workshop on “RESEARCH PAPER WRITING & PUBLISHING” was successfully conducted by Dr. Anuradha, Combined Group of Science & Technology, Bangalore on 7th February, 2019 in MBA department, The Oxford College of Engineering.

Presentation by Dr. Anuradha

Introducing the implication of research she introduced various techniques of conducting a research.

Students participation in Workshop

She explained what a research design is and discussed its divisions in the form of Descriptive, Exploratory and Experimental Research Designs. The whole 'Research Process' was deliberated along with its elements like description of the problem; Designing of the approach to the problem and then formulation of a Research Design. She elucidated the components of each research design with clear details regarding gathering of primary or secondary data; Designing a Questionnaire and choosing of a sample. She also illuminated the idea of Literature review which is one of the most vigorous parts of the research attempt.

The workshop consisted of both theory and applied knowledge. She evidently conveyed to the students on how to write the format that must be followed in citing a book, journal, article, websites, case studies, reports, international & national documents and periodicals, single author to many others through APA style and other style

Student Participation in Workshop

147 Students from both 2nd & 4th Semester of MBA have participated. There was an encouraging response from all the participants and they found the workshop to be very useful for their future. They were given information about career growth.

ACTIVITY REPORT

Date – 23 January 2019

The Event of Visit to Construction site was conducted under the MOU of Skyscraper and Department Of Civil Engineering, The Oxford College of Engineering. This event provided a great knowledge about the practices that are adopted in the construction sites during the construction. The 5th semester students were accompanied by few faculty members on this occasion.

Report on Webinar

"DATA SCIENCE"

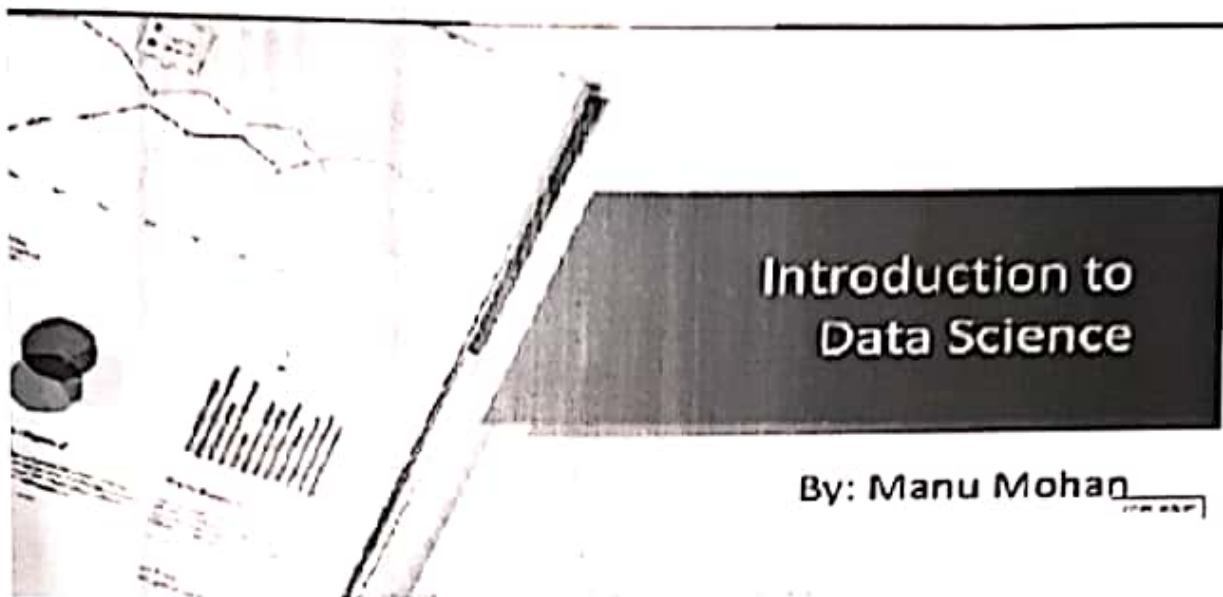

The Department of Information Science & Engineering, The Oxford College of Engineering organized webinar on "DATA SCIENCE" on 19th June 2020 at old building 3rd floor ISE 4th lab. The guest was Mr. Manu Mohan, Co-founder & Product Director

The webinar was conducted on WebEx Application in window platform. The Event started with introduction of the guest given by Mr. Channappa Gowda D V, Assistant Professor ISE Department, TOCE. The Webinar was preceded by a short talk by Dr. R. Kanagavalli, HOD - ISE, TOCE. In her talk she highlight the importance of DATA SCIENCE.

The webinar started around 11:00 AM and ended around 11:45 AM, The session covered the following Topics':

- **Data Engineer:** Data Engineers prepare the "big data" infrastructure to be analyzed by Data Scientists. They are software engineers who design, build, integrate data from various resources, and manage big data.
- **Data Analyst:** Data analysts utilize large data sets to gather information that meets their company's needs.
- **Data Consultant:** Data consultants work with businesses to determine the best usage of the information yielded from data analysis.
- **Data Architect:** Data architects build data solutions that are optimized for performance and design applications.
- **Applications Architect:** Applications architects track how applications are used throughout a business and how they interact with users and other applications

At the end of the session vote of thanks given by the Dr. R. Kanagavalli, HOD - ISE, TOCE. All participants got there E-Certificate after giving the feedback.

Mr.Manu Mohan Delivering webinar on DataScience.

What is Data Science

Data science is an inter-disciplinary field that uses **scientific** methods, processes, algorithms and systems to extract knowledge and insights from many structural and unstructured **data**.

Plainly stated, data science involves extracting knowledge from data you gather using different methodologies.

Report on Internship “Preventing and detecting data leakage discharge analysis”

With the respect of MoU between the Department of Information Science & Engineering, The Oxford College of Engineering and TechCiti Technologies Pvt.Ltd an internship program was carried out by Sushma B N on the title “Preventing and detecting data leakage discharge analysis” from July 18th 2019 to August 18th 2019.

Ref. No.: TTPL/2019-20/HRD/INT 1316

Date: 20th August, 2019

TO WHOMSOEVER IT MAY CONCERN

We would like to inform you that Ms. **Sushma B N** has successfully completed her internship with our company, she has been working on the Project Title “**Preventing and Detecting the Data Leakage Discharge Analysis**” from 18.07.2019 to 18.08.2019 as “Software Developer – Intern”.

We have found her to be a self–starter who is motivated, duty-bound and hardworking. She has worked sincerely on her assignments and her performance is at par excellence.

We wish her all the best for her future endeavors.

II. Webinar closure Report

The Department of Information Science & Engineering, The Oxford College of Engineering organized Webinar on **"INTERNET OF THINGS & EMBEDDED SYSTEMS"** on 27TH JULY 2020, 02:30 PM TO 03:30 PM. The guest was **Ms. Rajani Bhandari**, Senior Manager

The webinar was conducted on Microsoft Teams in window platform. The Event started with a short talk by Dr. R. Kanagavalli, HOD -ISE, TOCE. The introduction of the guest and Welcome address given by Ms. Indu K S , Asst. professor, ISE, TOCE. Then session proceeded by Expert talk, she emphasized the importance and applications of the INTERNET OF THINGS & EMBEDDED SYSTEMS.

The webinar started around 02:30 PM and ended around 03:40 PM. The session covered the following Topics*:

1. Embedded systems are part and parcel of every modern electronic component. These are low power consumption units that are used to run specific tasks for example remote controls, washing machines, microwave ovens, RFID tags, sensors, actuators and thermostats used in various applications, networking hardware such as switches, routers, modems, mobile phones, PDAs, etc.
2. Usually embedded devices are a part of a larger device where they perform specific task of the device. For example embedded systems are used as networked thermostats in Heating, Ventilation and Air Conditioning (HVAC) systems, in Home Automation embedded systems are used as wired or wireless networking to automate and control lights, security, audio/visual systems, sense climate change, monitoring, etc.
3. Embedded systems will also be at the cornerstone for the deployment of many Internet of Things (IoT) solutions, especially within certain industry verticals and Industrial Internet of Things (IIoT) applications.
4. Major players in embedded system hardware and software developments are aiming to bring these transformations into their products to take advantage of growing IoT market. The areas that are going to transform are Real Time Operating Systems (RTOS) and microprocessors and microcontrollers, followed by memory footprints and networking, open source communities and developers.

Finally question and answer session with guest and students. The event ended with vote of thanks given by Mr. Channappa Gowda, Asst.professor,Dept of ISE,TOCE and feedback link and certificate are shared with all participants. All participants got there E-Certificate after giving the feedback.

Certificate of Internship

This is to certify that G Pratheeksha(10X16BT014), Krithika S(10X16BT023), Roshni K K(10X16BT032) and Urvi Narayan(10X16BT036), BTech students of Biotechnology at Department Of Biotechnology, The Oxford College Of Engineering, Bengaluru, India successfully completed 03 months (Jan 2020 to Mar 2020) long research internship at Zastra Innovations Private Limited under my supervision. Their internship activity includes a) familiarizing to different Bioinformatics methods and Chemical Biology related approaches, and b) understanding the methods in disease target identification, molecular modelling, molecular dynamics, QSAR, lead optimization, research methodologies, public speaking and scientific writing. Their internship involved a project as follows,

- Interaction studies of selected lead candidates with anti-apoptotic BCL-2 protein to reactivate trail-induced apoptosis in lymphoma cell lines

During the phase of their internship program, they all learned and worked on softwares like AutoDock, PaDEL, MODELLER and commercial softwares like, StarDrop, SeeSAR and FlexX. They had been exposed to different situations to meet deadlines on submissions of weekly and project reports including bi-weekly technical presentations. During their tenure at Zastra Innovations we found them punctual, hardworking and inquisitive.

We wish him every success in his life and career

Duration of Internship:	Jan 2020 to Mar 2020
Evaluation of the Internship:	Excellent / Satisfactory / Unsatisfactory
Comments on the student's performance noting strengths and weaknesses:	All of them demonstrates dedication and team work

Signature of the Supervisor
Girinath G. Pillai, PhD

A REPORT ON
2 Day- ENTREPRENEURSHIP-MELA

Organized by
PLANTS ZONE, BANALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

20th & 21st December, 2019

ENTREPRENEURSHIP MELA

Plants Zone, Bangalore in association with MBA-department, The Oxford College of Engineering has organized Two day Entrepreneurship-mela n the college premissis. 147 students from B.TECH, M.Tech, MBA have participated in it.

The objective of Entrepreneurship-mela is to make students aware about start-up and entrepreneurship, to encourage them towrads entrepreneurship, which will enhance their urge for becoming self-employed in future. Entrepreneurship-mela will make students to practice entrepreneurial activities that would be shared by young entrepreneurs and trainer.

The Entrepreneurship-mela began with a warm welcome to Mr.Manoj.D Founder, PLANTS ZONE and other delegates with flower bouquet. Dr.R V Dhanalakshmi, HOD-MBA, TOCE gave inaugural speech, snd emphasized on market breakdown, allegiance and hazards .

It was followed by Business Plan contest on 20th December,2019. The theme being “Transforming India” the students were given a platform to cabinet their thoughts and creativeness of feelings and transformed them into products and services. This was a great occasion to bring out the Entrepreneurship potentials among the wishful student tycoons.

There were 147students and made into10 teams. The students were of the opinion that the event was very helpful in transmuting their thoughts into product / service which was conceivable because of a real time event like E-MELA which gave them the chance to show their business wisdom.

Students Presentation in E-mela

On Day-1, The students had set up food kiosks which were with full of inventiveness in their way of presentation. The food stalls had ranges of food illustrating the culture of India. There were other products also that were well promoted which assisted the students know what a actual trade is and it gave them a real knowledge of being an businessperson.

Students Participation in E-mela

On Day-2, There were different eco-friendly products and services that were advertised in the E-MELA namely ornate items out of waste goblet, plastic bottles, discarded papers, shreds, mud items etc.

Students Presentation in E-mela

Also the presentation of Business plan of their respective products were happened. The best two teams were awarded cash prizes.

EXPERT TALK

on

MANAGEMENT & TECHNOLOGY

Organized by
GenEd TECHNOLOGIES, BANALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

23rd November, 2019

MBA Department, The Oxford College of Engineering, Bangalore has organized an Expert talk on the topic “MANAGEMENT & TECHNOLOGY” on 23rd November,2019. Mr. Nagaraj, Technical Support Leader, GenEd Technologies addressed 122 MBA students.

It is widely documented that worldwide viable strategies are increasingly becoming technology-driven in the context of tremendously dynamic, high-velocity, and tempestuous environments. Such a framework of quick technological change is perceptibly very risky. As a result, managers used to be directed by management of technology researchers and experts to get a better accepting of the technologies they are implementing and developing and have a clear vision of the role of technology in their business strategy. The aim of this talk is to hassle that, at the same time, they must also control the impact of technology on marketing, finance and human resources functions of the firm.

Mr. Nagaraj, Technical Support Leader, GenEd Technologies addressing the students

From the very beginning, the management of technology (MOT) has been under the strong inspiration of engineering-based domains. The field's structure was inbred from research and development (R&D) management and the typical in the literature initially dealt with topics such as project assessment and selection, R&D organization, technology forecasting, etc.

Strong emphasis was put on the managing of technological assets. Economists helped to examine public policy concerns and to discover variances in management of technology according to industry, size or country. Yet, the impact of management disciplines remained pretty marginal.

Mr. Nagaraj advocated that management of technology would benefit from a sturdier impact of management disciplines such as accounting and control, finance, marketing, human research management, organizational behaviour- through a transversal configuring of the field. Such a standpoint helps discharge from a view which is far too absorbed on the management of the technology assortment.

Mr. Nagaraj, Technical Support Leader, GenEd Technologies addressing the students

Rather than tapering the scope of the management of technology, this view allows one to consider the impact of technology on each of the traditional management disciplines. Technology develops more than a characteristic set of resources: it is the common thread of a cohesive management perception.

The event finally made the students to understand the present Technology in Management studies and corporates requirements.

MARKETING RESEARCH & TECHNIQUES

Organized by
COMBINED GROUP OF SCIENCE AND TECHNOLOGY, BANALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

23rd November, 2019

COMBINED GROUP OF SCIENCE AND TECHNOLOGY, BANALORE in association with MBA-department, The Oxford College of Engineering has organized a WORKSHOP On MARKETING RESEARCH & TECHNIQUES” in the college premises on 23rd November, 2019. 99 students from MBA have participated in it.

Without research, it’s impossible to understand your users. Sure, you might have a general idea of who they are and what they need, but you have to dig deep if you want to win their loyalty.

There are lots of different ways you could conduct market research and collect customer data, but you don’t have to limit yourself to just one research method. Four common types of market research techniques include surveys, interviews, focus groups, and customer observation. Which method you use may vary based on your business type: ecommerce business owners have different goals from SaaS businesses, so it’s typically prudent to mix and match these methods based on your particular goals and what you need to know.

The Workshop began with a warm welcome to Dr. Praveen Kumar, COMBINED GROUP OF SCIENCE AND TECHNOLOGY, BANGALORE. Dr.R V Dhanalakshmi, HOD-MBA, TOCE gave inaugural speech, and emphasized on importance of market research and present competition on the Market.

Deliberations from Dr. Praveen Kumar

Points Highlighted in the Workshop:

- How to translate management decisions and information needs into researchable issues.
- How to select from a myriad of research design alternatives such as focus groups, depth interviews, mail, telephone and in-person surveys, computerized techniques, conjoint analysis and many more.
- Which approach is best for a wide range of specific applications such as concept tests, customer satisfaction and other tracking studies, segmentation research and the like.
- How to phrase the right questions, implement the best study design, select the most appropriate sample, control the quality of data and interpret the results to provide the information your management needs.
- How to communicate the research findings to the decision makers so they will listen and take action.

Students Participation in Workshop

All 99 students were with the opinion that the event was very helpful in understanding Research in Marketing domain and its significance. It also gave them the opportunity to show their business acumen.

The Oxford College of Engineering, Bangalore-ISE department, in association with Institute Innovation Council and code Tunner's club has organized a seminar on "**Way to Learn Innovative Technical skills to crack any Interview**" by Ms.Farheen Farhath Co-Founder and technical lead , Prinston Smart Engineers on on 31st December 2021 at 11:00AM in 4th floor seminar hall, ISE department.

she motivated the students to pursue their passion and ideas and through her life story, guided them through the monumental task of establishing and running successful start-ups and small-scale industries. She gave motivation to be very strong in the basics of the programming language, irrespective of your technical role, Be ready to say NO I don't know. Interviewers are not gauging you with the correct answers that you provided. They are gauging you based on how open you are to learn new areas.

She gave tips to crack interview-

1. Be concise on the answers. Do not add extra word arts to explain the basic answer
2. Do not beat the bush by saying irrelevant answers or asking question that does not make sense. When you do this, any interviewer will immediately put negatives in their score card.
3. Take your time to answer. Many times, our initial response would not be appropriate or may be wrong.

Around 69 students and 14 faculties are participated in the Session.

[Exposure on Enterptenureship awareness in Software industry by AdJ Infotech](#)

The oxford college of Engineering, Bengaluru- Institution Innovation Council in association with Department of Information Science and Engineering & code Tunner's club organized a Seminar on **“Exposure on Enterptenureship awareness in Software industry”** by Mrs.Anshu Agarwal ,Dispute Expert ,ADJ Infotech, on 29th of December 2021 in ISE seminar hall 4th floor.

During the session expert talk was given regarding the developing it in industry and various opportunities that are present for engineer and also, many tips were given on how to face interview, and develop the skills and aptitude to crack our interviews,

and tips were are given to grab the opportunities by building up our resume and knowledge on booming language in IT industry.

He also said that Software products are critical to commercial, social, governmental, and entertainment activities throughout the world and If software fails, lights go out, motorized transport is impaired, phone and Internet communication doesn't work, financial transactions can be frozen, and manufacturing and business operations are severely affected. He stressed how much important to create a good software.

During the Session resource person shared the information about exposure and field visit for problem identification.

Around 49 students are participated in the Session from Information Science & Engineering Department , Faculty-14 member attended the session.

The Oxford college of Engineering, Bengaluru- with Department of Information Science and Engineering organized a webinar on “**Web Development**” by Ms. Shweta Gayakward , **Senior Developer, Fantasy Technologies, Ashok Chowk,Solapur-413006** from 2:00pm to 3:00 pm through online mode using Cisco Webex.

The speaker explained the following points on **Web Development**:What to put on the web site?

- Who will host it?
- How to make it interactive?
- How to code it?
- How to create search engine friendly web site?
- How to secure the source code frequently?
- Will the web site design display well in different browsers?
- Will the navigation menus be easy to use?
- Will the web site loads quickly?
- How easily will the site pages print?
- How easily will visitors find important details specific to the web site?
- How effectively the style sheets be used on your web sites?

Report on Expert Lecture on "Career Prospectus in the Context of Covid-19 Outbreak" on 22nd May 2021

The Department of Biotechnology organized an Expert Lecture on “Career Prospectus in the Context of Covid-19 Outbreak” on 22nd May 2021, Saturday for final and pre-final year Biotech students. The objective of the guest lecture was to enlighten the students about the Career Prospectus in the Context of Covid-19 Outbreak. The speaker for the session was Dr. Girinath G Pillai, Director, Nyro Research Pvt.Ltd, Cochin. Dr. Girinath G Pillai explained the importance of Bioinformatics and he stated that bioinformatics was one of the major focus areas for every country as the COVID-19 pandemic has developed has been getting to the bottom of what the virus really looks like with a view to finding a way to halt its progress. He explained how decoding the genome of the severe acute respiratory syndrome coronavirus 2 that is responsible for the COVID-19 disease is crucial to being able to develop a vaccine and to better understanding how it works and why it affects human beings as it does. Girinath also discussed about the various studies that are now being undertaken, driven by Bioinformatics. He concluded the session by mentioning that Bioinformatics has a key role to play in enabling researchers to develop visualization platforms that provide an opportunity to students for research and also be crucial for the future as COVID-19 evolves and starts to mutate.

Further the discussion led to an interactive session with Q & A and the students realized the importance of career prospectus of Bioinformatics in the context of Covid-19 outbreak.

Certificate of Internship

This is to certify that Mr. Atul Anand Gupta (Reg. No. 1OX17BT007), BE student of Biotechnology at The Oxford College of Engineering, Bengaluru, India successfully completed 3 months (October 1, 2020 to December 30, 2020) long industry internship at Nyro Research India Private Limited under my supervision. His internship activity includes a) familiarizing to different Bioinformatics methods related approaches, and b) understanding the methods in disease target identification, molecular modelling, molecular dynamics, QSAR, docking, research methodologies, presentation skills and scientific writing.

During the phase of his internship program, he learned and worked on softwares like AutoDock, PaDEL, MODELLER, NAMD and commercial softwares like StarDrop, SeeSAR and FlexX. He had been exposed to different situations to meet deadlines on submissions of weekly and progress reports including bi-weekly technical presentations. During his tenure at Nyro Research India we found him punctual, hardworking and inquisitive.

We wish him every success in his life and career.

Evaluation of the Internship : Satisfactory
Comments on the student's performance
noting strengths and weaknesses : Good team player and Hard working

A Report on Remote Monitoring of Rail wheel model for Indian Railway

In this project remote monitoring of Indian railway, rail wheel monitoring has been done remotely so that it can be helpful for the safety of the passenger. In this continuation flat wheel detection can be detected which can avoid the derailment of the train. Additionally it also help for the collision of 2 trains in the same track by remotely monitoring the 2 trains on the same track. With the respect of MOU between the Department of ECE, TOCE, and the Lab to Market Pvt.ltd IISc,Bangalore, a group of final year students are doing internship on "Remote Monitoring of Rail wheel model 20th December 2020.Trainer from Lab to Market trained them on the field site at Yellahanka railway station, to monitor the actual train passing on the track and taken the reading of FBG based optical sensor for Rail wheel experiment. In this way they found the graph for good wheel and bad wheel.Which will help Indian railway to replace the bad wheel accurately.so that it can save the passenger life.. For this programme, 6 students participated and still they are continuing the project for further analysis of AXLE counetr for railway.

Final year students visited railway site and took the readings for Rail wheel impact.

Observing load impact on optical sensor.

Memorandum of Understanding

EFFECTIVE DATE: This MOU is executed on 6th Feb 2020

Between

PARTY 1: [Primary applicant: Academia's particulars] The Oxford College of Engineering, Bangalore represented by Dr. A. S. Aravind, Principal.

And

PARTY 2: [Collaborator: Industry particulars] Lab to Market Innovation Pvt. Ltd, Indian Institute of Science Campus, Bangalore represented by Mr Sreenivasa Rao Ganapa, Ex IRSSE (Indian Railway Services), Founder and MD.

DETAILS OF MOU:

1. **OBJECTIVE:** To promote Industry-Academia Interaction through Joint R&D on developing safety systems for Railways.

2. **SCOPE OF WORK:**

- To develop the necessary laboratory facility and infrastructure required to carry out the R&D activity.
- To carry out joint research in order to gain deep understanding of the science and technology behind Fibre-Bragg-Grating (FBG) based system.
- To develop FBG based safety systems for railways and other applications.

3. **ROLES & RESPONSIBILITIES:**

- A. Both parties agree to work towards achieving a/m objectives.
- B. Strengthen research at both UG and PG levels.
- C. Meet regularly to review and evaluate the progress and work diligently towards successful completion of the project.
- D. Work out new ideas for future collaborative activities.

4. Terms and Conditions:

- ❖ Lab To Market Innovations P LTD will arrange / provide:
 - Lab facility such as testing FBG, Interrogator (to be returned to the company after experiment or whenever asked by the company)
 - Access to Railway and other Sites
 - Travel expenses for experimentation/testing/meetings
 - Additional man power, if required (but they will be in the roles of company)
- ❖ Oxford College of Engineering will provide lab premises for the R&D activity along with the necessary Infrastructure.
- ❖ The services of Dr. Preeta Sharan and Mr. Anup M Upadhyaya towards R&D / Lab Visit/ meeting/ conference and attending workshop in this R&D Project.
- ❖ There shall be no financial Implications on the part of TOCE.
- ❖ This MOU shall be valid for a period of two years from the Effective Date and can be terminated by a notice of six months by either party. As per the need the MOU will be revised for further duration with same terms and conditions or mutually agreeable modifications.

5. IPR (Intellectual Property Rights) : Generated IPR, though this joint R&D, will be owned by Lab To Market Innovations Private Limited as funding will be done by the company.

6. Benefits:

- ❖ Contributing to Railway Safety Systems
- ❖ Enriching the faculties and students in fibre bragg grating technology and to develop research interests among the same.
- ❖ Improves Infrastructure and upgrades electronics lab and department in application of optical technology.
- ❖ Helps in student training, internships and projects.
- ❖ Collaborative research will always be helpful for TOCE in accreditation with respect to NBA, NAAC etc.
- ❖ Industry partnership for collaborative research is required to obtain research grants.
- ❖ Greatly improves the profile of the college.

Organizes a Webmar on

MANUSCRIPT PREPARATION FOR SCIE/SCI HIGH IMPACT FACTOR PUBLICATION

Speaker

Dr. Muhammad Kamrul Hasan,
 National University of Malaysia (UKM), Malaysia

- *Senior Lecturer
- *Senior Member IEEE
- *Professional Technologist
- *Centre for Cyber Security, Faculty of Information Science and Technology The National University of Malaysia
- *Member of Institution of Engineering and Technology and Internet Society
- *IEEE IETM student branch chair
- *Reviewer of SCIE journals - The Journal of traffic and transportation engineering, IEEE Access, Telecommunication Systems, Hindawi, ETRI Journal, KSI Transactions on Internet and Information Systems

Registration Free 10th August 2020 | 11.00 AM E-Certificate Will be provided

Registration Link: <https://forms.gle/VPOuPndUmrQ8huC68> **Webinar Link:** <https://bit.ly/3x33999>

Chief Patron: Sri S. N. V. L. Narasimha Raja, President, The Oxford group of Institutions.

Patron's: Dr. Anamath K., Director, The Oxford Educational Institutions; Dr. Anand A. S., Principal, The Oxford College of Engineering.

Coventer's: Dr. Manjiv Devi, Prof. & HOD, Department of ECE; Dr. Prieta Sharon, Professor & IEEE Branch Counsellor, Dept. of ECE.

Faculty Coordinator's: Mr. Bhargav Rama Gowd, Assistant Professor, Dept. of ECE; Ms. Laya Tojo, Assistant Professor, Dept. of ECE; Ms. Lakshmi H, Assistant Professor, Dept. of ECE.

Types of Manuscript

- Reviews:** These provide concise and precise updates on the latest progress made in a given area of research. **Systematic reviews** should follow the standard process on how to select **keyword/searching/target research/exclusion/inclusion**. The recommended length of a Review is more than 20 journal pages.
- Articles:** The journal considers all original research manuscripts, provided that the work reports scientifically sound experiments and provides a substantial amount of new information.
How many paper from one research? Authors should not unnecessarily divide their work into several related manuscripts.
Number of Pages: standard 12 to 16 pages
- Letters:** A Letter is a brief disclosure of a significant new sensing concept or application and will be considered on an accelerated schedule. The recommended length of a Letter is 4 to 10 journal pages (depending on Journals, IET/IEEE accept 4 pages, while open access allows 10 pages).

**LETTER OF INTENT FOR COLLABORATION
BETWEEN
UNIVERSITI KEBANGSAAN MALAYSIA
AND
The Oxford College of Engineering, Bangalore, India**

In order to promote the mutual interests between the parties, Universiti Kebangsaan Malaysia represented by its Faculty of Information Science and Technology, and The Oxford College of Engineering, Bangalore, India agree to exercise their best efforts to develop the research work, publication and funding application.

Both parties shall appoint a coordinator from each party for the development and management of joint activities.

Details for the implementation of specific projects will be mutually developed.

In the event where both parties wish to formalise the above mentioned collaboration, the parties may enter into a Memorandum of Understanding (MoU) or a Memorandum of Agreement (MoA) of which the MoA shall have a binding effect on both parties.

The undersigned being duly authorised thereto, have signed this Letter of Intent, on this 23rd day of October 2020.

Memorandum of Understanding

EFFECTIVE DATE: This MOU is executed on dated 11th Dec 2020, between

PARTY 1: [Primary applicant: The Oxford College of Engineering, Bangalore] And

PARTY 2: [Collaborator: Sathyanarayana Renewable Energy Consultancy, Coimbatore]

DETAILS OF MOU:

1. **OBJECTIVE:** Industry academia Joint R&D – EV & EVSE system

2. **SCOPE OF WORK:**

- To promote interest in research activities of the institution
- Carry out joint research and development in order to deepen the analysis and understanding of science and technology EV

3. **ROLES & RESPONSIBILITIES:**

A. To strengthen research excellence at faculty, both graduate and undergraduate student levels.

B. To meet periodically to review and evaluate the work carried and to work out new ideas for future cooperative agreements.

4. **Terms and Conditions:**

Parity 1 would provide

- Lab facility such as testing fabrication, simulation etc.
- Access to software/hardware and other Sites
- Travel expenses for experimentation/testing/meetings
- Additional man power, if required (but they will be in the roles of company)

College of Engineering will arrange / provide:

- The Services of name who is an expert person in EV and he/she will be the main contact person for this R&D.
- The services of RS who will contribute towards

College of Engineering has agreed to provide the service of PI/CO PI towards R&D / Lab Visit/ meeting/conference and attending workshop/ in this R&D Project.

This MOU shall be valid for a period of two years from the Effective Date and can be terminated by a notice of six months by either party. As per the need the MOU will be revised for further duration with same terms and conditions or mutually agreeable modifications.

5. **Benefits:**

- Contributing to EV & EVSE system
- Enriching the faculties and students in EV & EVSE technology and to develop research interests among the same.
- Enriching the knowledge of electronics lab in terms of EV & EVSE
- Training the skill set of the students in EV & EVSE Technology
- It will be helpful for students to go for higher study and also helps to get to job in the market of EV

Head Off: Marudham Nagar, Vilankurichi Road, Saravanampatti, Coimbatore, Tamilnadu, India – 641 035.

Branch Off.: Sushant Lok II, Golf Course Road, Sector 56, Gurgaon – 122 011, Delhi-NCR

A Report on Entrepreneurship –Support for students pursuing Entrepreneurship”

E-rickshaw he maintenance issues related to e-rickshaws are quite less, which saves maintenance cost. E-rickshaws provide better employment opportunities to cycle-rickshaw drivers whose business is swiftly vanishing. Environmental benefits: E-rickshaws help mitigate air and noise pollution. Today, e-rickshaws play a vital role in providing livelihood to people in India. Due to their low *cost* and high efficiency they are accepted on the Indian streets, but government policies have been threatening the e-rickshaw and banned its use in the capital city Delhi, but failed to put them off the streets. It was very informative talk and very useful for the faculty and research community.

Faculty/students attending talk given by Dr.Devanayan

Memorandum de Entendimiento

entre

Oxford College Of Engineering, Bangalore, India
Amity School of Engineering & Technology, Amity University,
Lucknow Campus, India

y

Grupo de Investigación “Tecnologías de Información aplicado a las Ciencia de los Datos” – ITDTA, Universidad Nacional Mayor de San Marcos UNMSM, Perú

PRIMERO. Por el presente Memorando de entendimiento manifestamos el interés de participar de manera colaborativa en las actividades de investigación entre el Grupo de Investigación **“Tecnologías de Información aplicado a las Ciencia de los Datos” - ITDTA**, grupo registrado en el RAIS-VRIP y reconocido mediante la RR No.05086-R-19 por la Universidad Nacional Mayor de San Marcos (UNMSM), cuyo coordinador es el Profesor investigador **Norberto Ulises ROMAN CONCHA** del Departamento Académico de Ciencias de la Computación de la UNMSM, con código Docente No.08954E, DNI No.08510560 , Subcoordinador de Machine Learning Profesor investigador Dr. CIRO RODRIGUEZ RODRIGUEZ del Departamento de Ingeniería de Software de la UNMSM, con DNI 06020241 y Código Docente No. 0A5230 y, de la otra parte, la Dr. **Preeta SHARAN** Profesor de Oxford College of Engineering, y la Dr. **Sumita MISHRA** Assistant Profesor de la Amity School of Engineering & Technology (ASET) Amity University, Lucknow Campus de la India.

SEGUNDO. Acordamos establecer esfuerzos académicos y de investigación en los siguientes puntos:

1. Desarrollo de Proyectos de investigación conjuntos (local, nacional o internacional).

2. Participación en eventos científicos en el área.
3. Asistencia técnica para el desarrollo de proyectos de Inv.
4. Publicación de artículos científicos a nivel de scopus y wos.
5. Formación de masa crítica de investigadores del GI en temas de Data Science, Machine Learning, Educational Data Mining, Big Data, BI, base de datos NoSQL y Aprendizaje Estadístico.
6. Intercambio de clases Ingles- Español
7. Publicación conjunta de papers, libros, guías y manuales.
8. Registro de patentes / derechos de autor de los productos desarrollados.

TERCERO. El presente Memorandum de entendimiento de cooperación será válido desde el momento de su firma y tendrá una vigencia de dos (2) años prorrogables por anualidades, con la salvedad que alguna de las Partes comunique a la otra su deseo en sentido contrario, por escrito y con treinta (30) días de antelación.

CUARTO. Que teniendo en cuenta los objetivos e intereses comunes descritos es oportuno acordar y poner en funcionamiento una "**Memorando de entendimiento**" que permita oficialmente una interacción, colaboración y cooperación activa en el desarrollo actividades de investigación y acciones de interés común. En consecuencia, las dos (2) partes acuerdan suscribir la presente carta a los tres (15) días del mes de enero del año 2021.

En prueba de conformidad con los términos contenidos en la presente Memorando de entendimiento, ambas partes firman en la ciudad de Lima, Perú (vía meet).

MEMORANDUM OF UNDERSTANDING

between

**The Oxford College Of Engineering, Bangalore, India.
Amity School of Engineering & Technology, Amity University,
Lucknow Campus, India**

and

**Research Group "Information Technologies applied to Data
Science" - ITDTA, Universidad Nacional Mayor de San Marcos
UNMSM, Perú.**

FIRST. By this Memorandum of Understanding we express our interest in participating collaboratively in research activities between the Research Group RG "Information Technologies applied to Data Science" - ITDTA, group registered in the RAIS-VRIP and recognized through RR No. 05086-R-19 by the Universidad Nacional Mayor de San Marcos (UNMSM), whose coordinator is the Research Professor **Norberto Ulises ROMAN CONCHA** of the Academic Department of Computer Sciences of the UNMSM, with Code No. 08954E, ID No. 08510560, and the Sub group-coordinator of Machine Learning Professor Dr. **Ciro RODRIGUEZ** of the Department of Software Engineering of the UNMSM, with ID: 06020241 and Code No. 0A5230; and, on the other hand, Professor Dr. **Preeta SHARAN** of Oxford College of Engineering, and Astt. Professor Dr. **Sumita MISHRA** at the Amity School of Engineering & Technology (ASET) Amity University, Lucknow Campus, India. Assistant Professor, Mr. **Anup M Upadhyaya** of The Oxford College of Engineering, Professor, Dr **A Chrispin Jiji**, The Oxford College of Engineering, Bangalore, India.

SECOND. We agree to establish academic and research efforts on the following points:

1. Development of joint research projects (local, national or international).
2. Participation in scientific events in the area.
3. Technical assistance for the development of Inv projects.
4. Publication of scientific articles at scopus and wos level.
5. Critical mass training of IG researchers in Data Science, Machine Learning, Educational Data Mining, Big Data, BI, NoSQL database and Statistical Learning.
6. Exchange of English-Spanish classes
7. Joint publication of papers, books, guides and manuals.
8. Registration of patents / copyrights of the products developed.

THIRD. This MOU will be valid from the moment it is signed and will have a validity of two (2) years, extendable by annuities, with the exception that one of the parties communicates to the other its wish to the contrary, in writing and thirty (30) days in advance.

FOURTH. Taking into account the objectives and common interests described, it is appropriate to agree and put into operation the MOU that officially allows interaction, collaboration and active cooperation in the development of research activities and actions of common interest. Consequently, the two (2) parties agree to sign this letter on the third (15) day of the month of January of the year 2021.

In proof of compliance with the terms contained in this MOU, both parties sign in the city of Lima, Peru (via meet).

A Report on Internship

I was a part of the one-month online internship on Embedded System Design and IoT organized by EdGate Technologies Pvt Ltd Bangalore under Texas Instruments India University program. In the course of the internship, we were taught Application Peripheral Interface (API) programming for Advanced RISC Machine (ARM) Cortex M4 based microcontroller. The architecture and performance of Texas Instruments Versatile ARM (TIVA) TM4C123GH6PM series 32 bit, 80MHz microcontroller was thoroughly understood including GPIO ports and system clock generation concepts.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (MOU) entered on the 7th day of April 2021 Between **Texas Review (SK Training and Consulting Services)** having its Corporate office, at 4th Floor, HM Zeta, 11th Main Rd, above Burger King, 4th T Block East, 4th Block, Jayanagar Bangalore - 560041 (hereinafter referred as "**Texas Review**") represented by its Partner, Mr. Kartheek Namburi

And

The Oxford College of Engineering (ECE Department), having its CAMPUS at Bommanahalli, and represented by its **Head of the Department Dr. Manju Devi** (which expression shall mean and include its successors in office and assigns). Both parties, desiring to promote and develop co-operation in overseas admission, research and education, intend by this agreement to establish a program of educational co-operation, student and faculty exchange. This is an Exclusive Agreement for Overseas Education Consulting, Processing on Campus.

The parties agree that Texas Review will provide the following services (but not limited) to the Final and Pre- Final year students as follows

Appropriate course guidance & Universities selection

Texas Review will help students in getting admissions with the best universities through our expertise. We have a team of experts at our corporate office who do continuous research on the education system of all countries. We will give them a list of Universities which will suit Students requirements.

+91 7022 878 969

bengaluru@texasreview.in

HM Zeta, 4th floor, 11th Main road, Aurobindo Marg,
4th T block east, Jayanagar 4th block, Bengaluru,
Karnataka- 560011.

Admission Process

Texas Review will guide the students by providing them with the appropriate checklist of the documents needed and A to Z guidance pertaining to the Admission.

Coaching Services

Texas Review will provide On Campus Coaching Facilities for courses like **GRE, GMAT, TOEFL, IELTS, PTE, SAT, CRT and CAT etc.**, provided there is a batch of 30 or more students.

Liaison with Foreign Universities and Colleges

Texas Review will work on collaboration between foreign Universities and the Colleges for the following on the need basis

1. Student Exchange Program
2. Faculty Exchange Program
3. Twinning Program
4. Creation of HELP DESK in the Campus for student's operational convenience.
5. Foreign Delegates Visit/Seminars
6. Educational Tours etc.

British Council IELTS Partnership Program

Texas Review is the Platinum Plus Partner with British Council and has been awarded for highest number of IELTS test registrations in South India. We help colleges for the membership scheme with the following benefits

- Wide range of learning resources for your students
- Range of support services and other resources from the British Council
- Certificate from the British Council recognizing your organization
- Exclusive access to use the following straplines in your marketing communications: 'IELTS registration Centre for the British Council' or 'Member of the British Council IELTS Partnership Program'.
- Registration fee of Rs.400 for every registration made through the British Council Online Registration System for Members
- British Council IELTS branding at the premises
- Exclusive orientation and presentations for your students
- **IELTS test centre at your campus premises for your students – Based on a minimum number of 100**

Sponsorship for College Fests

Texas Review will sponsor on need basis for college events

Program Coordinator

The Head of the ECE Dept of The Oxford College Of Engineering shall appoint a "Program Coordinator" for the duration of the program, who shall liaise with Texas Review and make the training process learner-friendly and effective. Texas Review shall work in close relationship with the Program Coordinator, who in-turn shall keep a close touch with the students. In the event of any difference of opinion between Texas Review and the Program Coordinator, the matter should be referred to the HOD ECE Dept, whose decision thereon shall be final and binding on both the parties.

Commencement Of Course

The Oxford College Of Engineering (ECE Dept.)will ensure that the one Seminar & first course will start within 45 (forty five) days from the date of signing of MOU.Texas Review will ensure that the courses will commence from **(25/05/2021)** on intimation from ECE Dept.However, exception can be made due to reasons mentioned in the Course Completion Clause or due to delay on ECE Dept's side.

Course Fees & Payment Pattern

The course fee per student for each course offered is decided and mutually agreed upon by both the parties. The course fee and the payment pattern are available in the ANNEXURE – 1. The student shall pay the course fee directly to ECE Dept before the start of the course. ECE Dept will make payment by Cheque/DD/Cash payable at Bangalore Jayanagar Branch in the name of

SK Training and Consulting services as per the schedule detailed in ANNEXURE - 1.No refund is entertained to the student once the student is registered for the course.

Course Completion

While Texas Review will endeavor to complete the course as per the schedule mutually agreed upon and mentioned in Annexure 1. Texas Review will not be responsible and accountable for delay in completing the course due acts of nature, unforeseen circumstances and reasons which are beyond the control of Texas Review.However, students can complete the same course in any of the Texas Reviews branches within one year from date of enrolment. In case of dispute the decision of the Head of ECE Dept of The Oxford College Of Engineering shall be binding on both the parties.

Jurisdiction

All matters, queries, disputes or differences, whatsoever, arising between the parties touching the construction, meaning, operation or effect of this Memorandum of Understanding or out of or relating to this Memorandum of Understanding or breach thereof shall be settled through arbitration in accordance with the relevant Arbitration Act in force at such time. The Arbitration award shall be binding on both parties.

Validity

Both The Oxford College Of Engineering (ECE Dept.) and Texas Review shall have the rights to terminate this MOU by providing **THREE** months notice in writing on their respective letter head only after a minimum period of one year from the date of signing this agreement. Termination of this MoU for whatever reason shall be without prejudice to the rights of either party and of the students and the ongoing academic program. This Memorandum of Understanding will be valid for a period of Three years. This Memorandum of Understanding shall come into effect from the date of agreement aforementioned.

A REPORT ON
ENTREPRENEURSHIP-MELA

Organized by
PLANTS ZONE, BANGALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

27th February, 2021

Young dynamic entrepreneurs got an opportunity to bring out and showcase their entrepreneurial talent vis-à-vis the Young Entrepreneurs E-Mela was organized by MBA Department , The Oxford College of Engineering on the 27th February,2021 in the college premises.

Entrepreneurship-Mela was successfully conducted by Mr. Manoj.D, Founder- Plants Zone, Bangalore in MBA department, The Oxford College of Engineering.

The E-mela began at 10.00 a.m by a short inaugural programme. Officiating HOD-MBA Dr. RV Dhanalakshmi declared the E-mela open. in the presence of staff & student participants .

The E-mela was adorned by the presence of our invitees. The staff as well as non-teaching staff of our college provided tremendous support to the nascent entrepreneurs during the E-mela.

Activities in E-mela

There were 89 students and were of the opinion that the event was very helpful in transmuting their thoughts into product / service which was conceivable because of a real time event like E-MELA which gave them the chance to show their business wisdom.

The students had set up kiosks which were with full of inventiveness in their way of presentation. The stalls had ranges of Hand-made ornaments that resembles the culture of India.

Students participating in E-Mela

There were other products also that were well promoted which assisted the students know what a actual trade is and it gave them a real knowledge of being an businessperson.

Entrepreneurial Activities done by students

A REPORT ON

GUEST LECTURE

on

IoT & ITS ROLE IN INDUSTRY

Organized by
GenEd TECHNOLOGIES, BANGALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

29th December, 2020

A Guest Lecture on “IoT & ITS ROLE IN INDUSTRY” was successfully conducted by Mr. Nandiswar, Technical Expert & Trainer, GenED Technologies Bangalore on 29th December, 2020 in MBA department, The Oxford College of Engineering.

The industrial internet of things (IIoT) refers to interconnected sensors, instruments, and other devices networked together with computers' industrial applications, including manufacturing and energy management. This connectivity allows for data collection, exchange, and analysis, potentially facilitating improvements in productivity and efficiency as well as other economic benefits.[1] The IIoT is an evolution of a distributed control system (DCS) that allows for a higher degree of automation by using cloud computing to refine and optimize the process controls.

Guest Lecture by Mr. Nandiswar

Mr. Nandiswar mentioned that, Today, the world is on the nib of digital conversion where businesses across assorted industries are progressively looking to systematize their business processes. The transformation has come a long way, foremost enterprises to the new industrial rebellion . The evolution of this engineering revolution makes it possible to garner and assess data across apparatuses, enabling faster, sprightlier, and more proficient processes to create higher-quality goods cost-effectively.

The manufacturing industry is already used unconventional digital technology. But Industry 4.0 technology is poised to transform the sector from the bottom. This will lead to greater productivities and alter bequest production systems. In this evolution of production systems, the

Internet of Things (IoT) plays a major role, enabling workers on the production ground to control more smart devices that can make their work smoother and more dynamic.

Students interaction with Mr. Nadiswar

Further he specified that, IoT devices and embedded systems become more and more lush in our daily lives as the fourth industrial revolution and home automation activities gather more tug. With brainpower driven by IoT, devices can be programmed to perform in aggregation to generate productions on an association line. It can accumulate data according to the environment and equipment that enables fail-safes and smart technologies to be put in place that provides the ability for proactive maintenance or automated recovery after failures.

So, according to him v, the way humans work in industrial and production settings may get changed as IoT devices will continue to rise. Advancements and new breakthroughs in this technology will impact the supply chain management across industry verticals.

105 MBA students were present and the session was highly appreciated by them.

A REPORT ON

WORKSHOP

ON

ONLINE DATA COLLECTION METHODS AND

ITS IMPACT ON DATA INTERPRETATION

Organized by
COMBINED GROUP OF SCIENCE & TECHNOLOGY, BANGALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

6th February, 2021

The Oxford College of Engineering in association with COMBINED GROUP OF SCIENCE & TECHNOLOGY, BANALORE organized a workshop on “ONLINE DATA COLLECTION METHODS NAD ITS IMPACT ON DATA INTERPRETATION” on 6th February,2021 in the college premises.

The Workshop began at 10.00 a.m by a short inaugural programme. Officiating HOD-MBA Dr. RV Dhanalakshmi in the presence of staff & student participants invited the speaker for the workshop Dr.Manjunath, COMBINED GROUP OF SCIENCE & TECHNOLOGY, BANGALORE .

Guest Lecture by Dr.Manjunath, Combined Group of Science & Technology, Bangalore .

Today businesses and organizations are connected to their clients, customers, users, employees, vendors, and sometimes even their competitors. Data can tell a story about any of these relationships, and with this information, organizations can improve almost any aspect of their operations. Although data can be valuable, too much information is unwieldy, and the wrong data is useless. The right data collection method can mean the difference between useful insights and time-wasting misdirection.

Highlights of the Speaker Presentations:

Students attending Guest Lecture

The steps that need to follow for accurate online data collection:

Select the right data source: The data source here is your panel members, who are a group of individuals who will be responding to the questionnaire or surveys sent by you. Make sure your research panel is well versed in the field in which the questions are asked. Selecting the right panel is the key to accurate data.

Establish a sufficient revert time: It is true that online data collection is faster than other conventional methods, but it is also equally important to give sufficient time to your research panel to revert to the questionnaire or the survey. A timeline added to the questionnaire helps respondents understand the urgency of the survey.

Customize your survey or questionnaire: While sending out the questionnaire or the survey to your research panel, as a survey creator, you should customize the survey. Remember not to keep the survey too long. Avoid asking confusing questions. Make sure that the questions can be well read on hand-held devices.

Be careful when requesting sensitive data: Online data collection makes the respondents feel less uncomfortable when they have to give an opinion on politics, religion, sex and other related topics. Since there is no face to face interview, there are chances that your respondents will provide accurate information. But you need to make sure that this sensitive information is used in the right manner. For this, a disclaimer should be provided before collecting the data.

Displaying data online: Once all the data is collected, you need to be careful what percentage or what kind of data can be displayed in public. Your respondents need to be anonymous and their privacy should be of the primary importance. Therefore as the data collector, you have to determine to draw that line.

Students doing exercise given by Dr. Manjunath

To sum up, online data collection has become a more favorable process in recent times. Advantages like, it's less time to consume, more accurate and authentic make it a more reliable choice. Remember, a good research panel always helps to yield a good data.

There were 101 MBA students and were of the opinion that the event was very helpful.

A REPORT ON

TALK on

COVID-19 & ITS IMPACT ON JOB SERCHING

Organized by
LUCIO IT SERVICES, BANGALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

13^h February, 2021

The Covid-19 outbreak in India and the subsequent nationwide lockdown from March 25 altered the landscape of the country's employment sector. With close to 10.9 million jobs being lost across sectors, 2020 was termed the worst-ever year for the job market in India. Job search portals are seeing an increase in work from home (WFH) postings by recruiters, as the covid-19 crisis has balanced the demand-supply equation.

MBA Department, The Oxford College of Engineering in association with LUCIO IT Services organized a talk on "COVID-19 & ITS IMPACT ON JOB SEARCHING" . Mrs.Priyanka, Job Consultant & Trainer from LUCIO IT Services, Bangalore addressed the gathering of 69 MBA students.

Mrs. Priyanka talks with students

She mentioned that, as per news in "Financial Express" Coronavirus pandemic brought the economy of India to a halt over the past one year, and numerous people have lost their jobs, especially women. A recent study in Delhi found that in eight months, the unemployment rate in the national capital increased by 17%, with about 83% of women respondents choosing to permanently opt out of participating in the workforce.

Students attending talk

A similar trend has been observed throughout the country and this at a time when the participation of women was already declining in the workforce with each passing year.

Students attending Expert's talk

She specified that about COVID-19 impact on unemployment rate in India 2020-2021- Unemployment went up to nearly 24 percent in April 2020. This was possibly a result of a decrease in demand as well as the disruption of workforce faced by companies. Furthermore, this caused a GVA loss of more than nine percent for the Indian economy that month.

Report on Expert Lecture

With the MoU between The Oxford College of Engineering and Prinston Smart Engineers, India, and Expert lecture on “Internship opportunities” has been conducted in the Department of Mechanical Engineering on 4thth July 2020 at 11.AM to 12 PM. Mr Asif , Founder of Prinston smart engineers introduced various internship opportunities available in Prinston smart engineers and as well as with its clients companies. He also explained importance of internship for the engineering graduates.

The poster is for a webinar titled "INTERNESHIP OPPORTUNITIES" held on 4th July 2020 at 11:00 AM. It is organized by the Department of Mechanical Engineering at The Oxford College of Engineering. The college is affiliated with VTU, Belgaum and is accredited by AICTE, NBA, and NIRF. The resource person is Mr. Asif, Founder of Prinston Smart Engineers. The poster lists several faculty members: Convener (Dr. Madhu Sudana Reddy G), Supporting Faculty (Mr. Vidyadhar Pujar), Faculty Coordinator (Mr. Prasad H Nayak, Mr. Vinay V, Mr. Raviprakash M), and Chief Patron (Sri. S.N.V.L. Narasimha Raju, Dr. Amarnath K, Dr. Aravind A S).
