Certificate of Internship

This is to certify that Ms. Chaithanya R, (Reg. No. 10X15BT011) student of 4th year B.Tech Biotechnology at The Oxford College of Engineering, Bengaluru, India successfully completed one month (July 09, 2018 to August 09, 2018) long industry internship at Zastra Innovations Private Limited under my supervision. Her internship activity includes familiarizations to different Bioinformatics methods and Drug Discovery selection related projects. Her internship involved one project and learning of methodologies simultaneously,

- i) Inhibition of MAPKinase in cardiovascular hypertrophy.

During the phase of her internship program, she learned and worked on softwares like AutoDock, PaDEL, MyStat, Mendeley and commercial softwares like StarDrop and FlexX. She had been exposed to different situations to meet deadlines on submissions of weekly and project reports including weekly presentation of results during which we found her punctual, hardworking and inquisitive.

We wish her every success in her life and career

Duration of Internship:	July 09, 2018 to August 09, 2018
Evaluation of the Internship:	Excellent / Satisfactory / Unsatisfactory
Comments on the student's performance noting strengths and weaknesses:	Uses time constructively.

Signature of the Supervisor
Girinath G. Pillai, PhD

Certificate of Internship

This is to certify that Ms. Deepika M, (Reg. No. 10X15BT012) student of 4th year B.Tech Biotechnology at The Oxford College of Engineering, Bengaluru, India successfully completed one month (July 09, 2018 to August 09, 2018) long industry internship at Zastra Innovations Private Limited under my supervision. Her internship activity includes familiarizations to different Bioinformatics methods and Drug Discovery selection related projects. Her internship involved one project and learning of methodologies simultaneously.

- i) Drug targets and protein target expression in Melanoma.

During the phase of her internship program, she learned and worked on softwares like AutoDock, PaDEL, MyStat, Mendeley and commercial softwares like StarDrop and FlexX. She had been exposed to different situations to meet deadlines on submissions of weekly and project reports including weekly presentation of results during which we found her punctual, hardworking and inquisitive.

We wish her every success in her life and career

Duration of Internship: July 09, 2018 to August 09, 2018
Evaluation of the Internship: Excellent / ~~Satisfactory~~ / ~~Unsatisfactory~~
Comments on the student's performance noting strengths and weaknesses: Uses time constructively.

A report on student project under advice of Petritian Creation Private Ltd.

Some batches of the students have done final year project using 3D-printer for multipurpose robotic hand. It was very useful product for the agriculture application & in medical health care. Another batch has fabricated human skull for the hidden camera using 3D-printer. Another batch is fabricating device using hand gripped device.

Memorandum of Understanding

EFFECTIVE DATE: This MOU is executed on (effective date) between

PARTY 1: [Primary applicant: Academia's particulars] The Oxford College of Engineering).

PARTY 2: [Collaborator: Industry particulars] Patrician Creations Pvt. Ltd).

Whereas, the Institute has developed proof of concept with regard to **Orthodontic Treatment planning and prediction** Whereas institute has identified Patrician Creations Pvt. Ltd. to carry part of its study that will involve providing necessary services required for the testing of the software and stand alone.

Whereas Patrician Creations Pvt. Ltd has agreed to perform such required service which is testing of the developed module as per the schedule and terms agreed mutually. Now thereof the parties for valid consideration enter into this MOU:

1. **OBJECTIVE:** The present study Providing turnkey solution to orthodontists to shift to a more modern electronics based approach rather than the traditional modus operandi)
2. **SCOPE OF WORK: The scope of work shall include:**
 - . Large number of dentist and orthodontic patients will get benefited by proposed work
3. **ROLES & RESPONSIBILITIES:**
 - A. Development of software
 - B. Overall testing of the module
4. **CONFIDENTIALITY:** All information under the MOU shared between the parties shall be treated as confidential information and shall be subject to restrictions on disclosure other than for the purpose of this MOU. The confidentiality obligations shall survive even after the termination or expiration of this MOU. Confidential information shall not include:

Disclaimer: This sample MoU is for example only. It should not merely be duplicated without consideration of the project for CRS. The parties should include additional terms and conditions based on project specifics and additional aspects that require mutual governance.

- a. information that is available in public domain;
- b. information already known to the receiving party;
- c. information disclosed to the receiving party by a third party not under obligation of confidentiality;
- d. Information developed by the receiving party independent of the confidential information received under this MOU.

5. PUBLICATION:

6. INTELLECTUAL PROPERTY RIGHTS :

- a. "Intellectual Property" means the legal rights relating to inventions, patent applications, patents, copyrights, trademarks, mask works, trade secrets, and any other legally protectable information, including computer software, first made or generated by such investors .
- b. The "Intellectual Property Rights (IPR)" generated during the project will exclusively lie with the academia, The Oxford College of Engineering
- c. Patent Prosecution and Expenses. The filing, prosecution, defense and maintenance of all Patents for the Inventions will be conducted and controlled individually in the name of Patrician Creations Pvt. Ltd. And The Oxford College of Engineering (institute), acting reasonably and in good faith.
- d. Background Intellectual Property: Any of the party possess rights in background intellectual property, that is, intellectual property not otherwise subjected to this MOU , which would be useful or essential to the practice or commercialization of the results of this MOU, should be disclosed. Except to the limited extent required to perform a party's obligations under this MOU, neither party receives any right, title, or interest in or to any Research Materials provided to it by the other party or any technology, works or inventions of the other party that are not Research Program Inventions, or any patent, copyright, trade secret or other proprietary rights in any of the foregoing.
- e. Maintaining the Laboratory Notes: Each party agrees that research efforts will be well documented in the form a laboratory notes with accurate data disclosed for each experiments performed therein, during the course of this MOU.
- f. In the event of commercialization of the technology by Patrician Creations Pvt. Ltd, The Oxford College of Engineering will have the first right of refusal

7. TERM AND TERMINATION: This MOU shall be valid for a period of Three years from the Effective Date and can be terminated by a notice of six months by either party. The termination of this MOU shall not affect any IP rights accrued and related obligations

Disclaimer: This sample MoU is for example only. It should not merely be duplicated without consideration of the project for CRS. The parties should include additional terms and conditions based on project specifics and additional aspects that require mutual governance.

arising under this MOU. As per the need the MOU will be revised for further duration with same terms and conditions or mutually agreeable modifications.

8. **INDEMNIFICATION:** Neither party shall be held responsible for the indemnification of their respective obligations under this MOU due to the exigency of one or more of the force majeure events such as but not limited to acts of God, War, Flood, Earthquakes, Strikes, Lockouts beyond the control of the party claiming force majeure, Epidemics, Riots, Civil Commotions etc. provided on the occurrence and cessation of any such event the party affected thereby shall give a notice in writing to the other party within one month of such occurrence or cessation. If the force majeure conditions continue beyond six months, the parties shall jointly decide about the future course of action.

9. **DISPUTE RESOLUTION, GOVERNING LAW AND JURISDICTION:**

Any disputes between the parties shall be resolved by mutual discussions. Minor dispute during execution of the project shall be subjected to resolution out of this MOU. The MoU shall be considered, interpreted and governed by the laws of India and Courts at Nagpur shall have exclusive jurisdiction in all such matters.

A REPORT ON

EXPERT TALK

on

**TECHNOLOGY IMPACT ON MANAGEMENT
EDUCATION & INDUSTRY**

**Organized by
GenEd TECHNOLOGIES, BANALORE**

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

29th August, 2018

An Expert Talk on TECHNOLOGY IMPACT ON MANAGEMENT EDUCATION &INDUSTRY was organized by **GenEd TECHNOLOGIES, BANALORE** on **29th August, 2018**, at The Oxford College of Engineering. Mr. Rajasekhar, Technical Expert, GenEd Technologies, Bangalore has addressed the gathering of 150 MBA students.

Technology has been altering at a rapid pace ever since the onset of Industrialization. The effects of these varying cycles or ‘Industrial Revolutions’ have been felt not just on industry and business but also on everyday life.

Mr. Rajasekhar, Technical Expert, GenEd Technologies, Bangalore deliberations

With the rapid progressions of technology uninterruptedly changing needs and prospects of students and customers and increasing global rivalry, business schools and management development bodies are faced with many opportunities and challenges for the ways they teach, operate, and promote themselves. Some hold technology with openly while some prefer to follow more traditional and tested methods.

Students participation in Expert Talk.

The speaker highlighted that, although technology is lastly being assimilated into education, its use for teaching and education still leftovers a challenge. Notwithstanding the fact that many schools today are fortunate to have ready access to technology, trained teachers, and a favorable policy atmosphere, the use of technology in the classroom is still low. Some attribute low levels of technology use in education to the pedagogical beliefs of teachers.

Students participation in Expert Talk.

He also specified the following ways that technology could be better leveraged to improve learning:

- With the extensive availability of student databases that are able to trajectory individual progress, teachers are stimulated to identify learning purposes and segregate instruction based on the needs of their students.
- Whenever teachers try to present teaching using technology, they should do so using a network that is relevant to the objectives, the learning style, mode and the skill selected.
- When evaluating technology-based instruction, there needs to be suitable assessment techniques that are in line with the methods of instruction, objectives and the technology.
- Teachers can design follow-up activities when using technology to evaluate students' learning and the role technology played in that process.

The Workshop program was well appreciated by students.

A REPORT ON

WORKSHOP

on

ENTREPRENEURSHIP

Organized by
PLANTS ZONE, BANALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

29th December, 2018

A workshop on entrepreneurship was successfully conducted by Mr. Sampath , Plants Zone, Bangalore on 29th December, 2018 in MBA department, The Oxford College of Engineering.

Presentation by Mr. Sampath , Plants Zone, Bangalore

The workshop began with displaying of Slides on the screen and publicity materials. The first session was on the prominence of Skill and Entrepreneurship Development and the participants were communicated about the prospects that they can become Entrepreneurs.

Student talk in workshop

Proper material and demos were given to the participants. A very good feedback was received for the e-content, and the candidates cherished that the content is in local language as well. The entire session proved to be very fruitful for all the candidates.

The next session was titled “Business Plan and Funding”, and looked into brief investment requirement for setting up a small business and Credit Linkages available through different Financial Institutions and Banks for those who want to take this step.

Students participation in workshop

This proved to be a very productive session as most participants were eager to become entrepreneurs

Talk about the Marketing Linkages was the last topic for the day, with the details about the Logistics and Admin Management to the candidates.

Students doing exercise in workshop

101 Students from both 1st & 3rd Semester of MBA have participated. There was an encouraging response from all the participants and they found the workshop to be very useful for their future. They were given information about career growth.

A REPORT ON

WORKSHOP

on

RESEARCH PAPER WRITING & PUBLISHING

Organized by
COMBINED GROUP OF SCIENCE & TECHNOLOGY, BANGALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

7th February, 2019

Writing a seminar paper can be quite challenging, especially when you are doing it for the first time. However, it is not as hard as it seems and today we will teach you how to write seminar paper. All you need is time and effort!

A workshop on “RESEARCH PAPER WRITING & PUBLISHING” was successfully conducted by Dr. Anuradha, Combined Group of Science & Technology, Bangalore on 7th February, 2019 in MBA department, The Oxford College of Engineering.

Presentation by Dr. Anuradha

Introducing the implication of research she introduced various techniques of conducting a research.

Students participation in Workshop

She explained what a research design is and discussed its divisions in the form of Descriptive, Exploratory and Experimental Research Designs. The whole 'Research Process' was deliberated along with its elements like description of the problem; Designing of the approach to the problem and then formulation of a Research Design. She elucidated the components of each research design with clear details regarding gathering of primary or secondary data; Designing a Questionnaire and choosing of a sample. She also illuminated the idea of Literature review which is one of the most vigorous parts of the research attempt.

The workshop consisted of both theory and applied knowledge. She evidently conveyed to the students on how to write the format that must be followed in citing a book, journal, article, websites, case studies, reports, international & national documents and periodicals, single author to many others through APA style and other style

Student Participation in Workshop

147 Students from both 2nd & 4th Semester of MBA have participated. There was an encouraging response from all the participants and they found the workshop to be very useful for their future. They were given information about career growth.

ACTIVITY REPORT

Date – 23 January 2019

The Event of Visit to Construction site was conducted under the MOU of Skyscraper and Department Of Civil Engineering, The Oxford College of Engineering. This event provided a great knowledge about the practices that are adopted in the construction sites during the construction. The 5th semester students were accompanied by few faculty members on this occasion.

DEPARTMENT OF AUTOMOBILE ENGINEERING

CERTIFICATE

Certified that the project work entitled by "*Influence of Nano Fillers on Glass-Basalt Hybrid Composites in Automobile Applications*" carried about the bonafide students of The Oxford College of Engineering, **AKHIL ARJUN (10X15AU005), AMBADI M P (10X15AU006), CHETAN KUMAR (10X15AU013), HARISREE VAISHNAV (10X15AU017)** in partial fulfillment for the award of "Bachelor of Engineering" as prescribed by **VISVESVARAYA TECHNOLOGICAL UNIVERSITY, Belagavi** during the academic year **2018-19**. It is certified that all corrections/suggestions for internal assessment have been incorporated in the report deposited in the departmental library. The project report has been approved as it satisfies the academic requirements in respect of project report prescribed for the said degree.

Certificate of Internship

This is to certify that Ms. Chaithanya R, (Reg. No. 10X15BT011) student of 4th year B.Tech Biotechnology at The Oxford College of Engineering, Bengaluru, India successfully completed one month (July 09, 2018 to August 09, 2018) long industry internship at Zastra Innovations Private Limited under my supervision. Her internship activity includes familiarizations to different Bioinformatics methods and Drug Discovery selection related projects. Her internship involved one project and learning of methodologies simultaneously,

- i) Inhibition of MAPKinase in cardiovascular hypertrophy.

During the phase of her internship program, she learned and worked on softwares like AutoDock, PaDEL, MyStat, Mendeley and commercial softwares like StarDrop and FlexX. She had been exposed to different situations to meet deadlines on submissions of weekly and project reports including weekly presentation of results during which we found her punctual, hardworking and inquisitive.

We wish her every success in her life and career

Duration of Internship: July 09, 2018 to August 09, 2018
Evaluation of the Internship: Excellent / Satisfactory / Unsatisfactory
Comments on the student's performance noting strengths and weaknesses: Uses time constructively.

Certificate of Internship

This is to certify that Ms. Deepika M, (Reg. No. 10X15BT012) student of 4th year B.Tech Biotechnology at The Oxford College of Engineering, Bengaluru, India successfully completed one month (July 09, 2018 to August 09, 2018) long industry internship at Zastra Innovations Private Limited under my supervision. Her internship activity includes familiarizations to different Bioinformatics methods and Drug Discovery selection related projects. Her internship involved one project and learning of methodologies simultaneously,

- i) Drug targets and protein target expression in Melanoma.

During the phase of her internship program, she learned and worked on softwares like AutoDock, PaDEL, MyStat, Mendeley and commercial softwares like StarDrop and FlexX. She had been exposed to different situations to meet deadlines on submissions of weekly and project reports including weekly presentation of results during which we found her punctual, hardworking and inquisitive.

We wish her every success in her life and career

Duration of Internship: July 09, 2018 to August 09, 2018
Evaluation of the Internship: Excellent / ~~Satisfactory~~ / ~~Unsatisfactory~~
Comments on the student's performance noting strengths and weaknesses: Uses time constructively.

Date: 27th July 2018

To whomsoever it may concern

We are pleased to certify that Ms. Deepti Krishnamurthy, successfully completed her Internship in Lab Operations at Sigma Aldrich Chemicals Pvt. Ltd. Bangalore for the period starting 05th July 2018 to 27th July 2018.

She gained the expertise in "SYNTHESIS OF OLIGONUCLEOTIDES"

During the above period, we found her to be hardworking, diligent and sincere. Her interpersonal skills and performance were excellent.

We wish her very best in all her future endeavours.

For Sigma Aldrich Chemicals Pvt Ltd.
