Report on Webinar

"DATA SCIENCE"

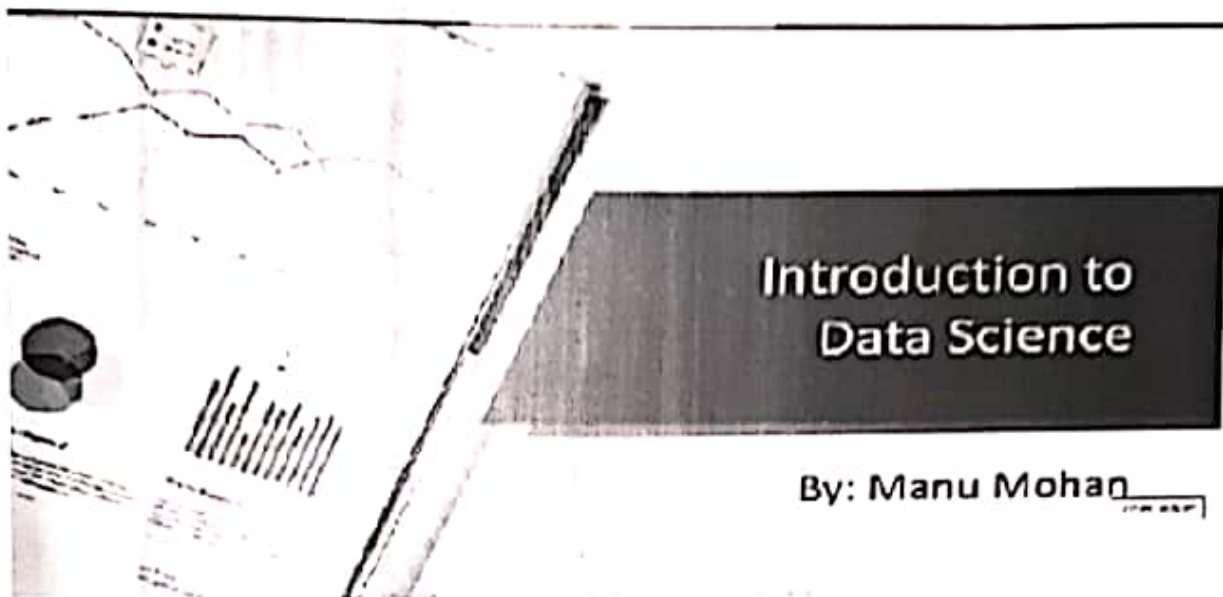

The Department of Information Science & Engineering, The Oxford College of Engineering organized webinar on "DATA SCIENCE" on 19th June 2020 at old building 3rd floor ISE 4th lab. The guest was Mr. Manu Mohan, Co-founder & Product Director

The webinar was conducted on WebEx Application in window platform. The Event started with introduction of the guest given by Mr. Channappa Gowda D V, Assistant Professor ISE Department, TOCE. The Webinar was preceded by a short talk by Dr. R. Kanagavalli, HOD - ISE, TOCE. In her talk she highlight the importance of DATA SCIENCE.

The webinar started around 11:00 AM and ended around 11:45 AM, The session covered the following Topics':

- **Data Engineer:** Data Engineers prepare the "big data" infrastructure to be analyzed by Data Scientists. They are software engineers who design, build, integrate data from various resources, and manage big data.
- **Data Analyst:** Data analysts utilize large data sets to gather information that meets their company's needs.
- **Data Consultant:** Data consultants work with businesses to determine the best usage of the information yielded from data analysis.
- **Data Architect:** Data architects build data solutions that are optimized for performance and design applications.
- **Applications Architect:** Applications architects track how applications are used throughout a business and how they interact with users and other applications

At the end of the session vote of thanks given by the Dr. R. Kanagavalli, HOD - ISE, TOCE. All participants got there E-Certificate after giving the feedback.

Mr.Manu Mohan Delivering webinar on DataScience.

What is Data Science

Data science is an inter-disciplinary field that uses **scientific** methods, processes, algorithms and systems to extract knowledge and insights from many structural and unstructured **data**.

Plainly stated, data science involves extracting knowledge from data you gather using different methodologies.

Report on Internship “Preventing and detecting data leakage discharge analysis”

With the respect of MoU between the Department of Information Science & Engineering, The Oxford College of Engineering and TechCiti Technologies Pvt.Ltd an internship program was carried out by Sushma B N on the title “Preventing and detecting data leakage discharge analysis” from July 18th 2019 to August 18th 2019.

Ref. No.: TTPL/2019-20/HRD/INT 1316

Date: 20th August, 2019

TO WHOMSOEVER IT MAY CONCERN

We would like to inform you that Ms. **Sushma B N** has successfully completed her internship with our company, she has been working on the Project Title “**Preventing and Detecting the Data Leakage Discharge Analysis**” from 18.07.2019 to 18.08.2019 as “Software Developer – Intern”.

We have found her to be a self–starter who is motivated, duty-bound and hardworking. She has worked sincerely on her assignments and her performance is at par excellence.

We wish her all the best for her future endeavors.

Sincerely,

Manager

HR-Operations

TechCiti Technologies Private Limited.

II. Webinar closure Report

The Department of Information Science & Engineering, The Oxford College of Engineering organized Webinar on **"INTERNET OF THINGS & EMBEDDED SYSTEMS"** on 27TH JULY 2020, 02:30 PM TO 03:30 PM. The guest was **Ms. Rajani Bhandari**, Senior Manager

The webinar was conducted on Microsoft Teams in window platform. The Event started with a short talk by Dr. R. Kanagavalli, HOD -ISE, TOCE. The introduction of the guest and Welcome address given by Ms. Indu K S , Asst. professor, ISE, TOCE. Then session proceeded by Expert talk, she emphasized the importance and applications of the INTERNET OF THINGS & EMBEDDED SYSTEMS.

The webinar started around 02:30 PM and ended around 03:40 PM. The session covered the following Topics*:

1. Embedded systems are part and parcel of every modern electronic component. These are low power consumption units that are used to run specific tasks for example remote controls, washing machines, microwave ovens, RFID tags, sensors, actuators and thermostats used in various applications, networking hardware such as switches, routers, modems, mobile phones, PDAs, etc.
2. Usually embedded devices are a part of a larger device where they perform specific task of the device. For example embedded systems are used as networked thermostats in Heating, Ventilation and Air Conditioning (HVAC) systems, in Home Automation embedded systems are used as wired or wireless networking to automate and control lights, security, audio/visual systems, sense climate change, monitoring, etc.
3. Embedded systems will also be at the cornerstone for the deployment of many Internet of Things (IoT) solutions, especially within certain industry verticals and Industrial Internet of Things (IIoT) applications.
4. Major players in embedded system hardware and software developments are aiming to bring these transformations into their products to take advantage of growing IoT market. The areas that are going to transform are Real Time Operating Systems (RTOS) and microprocessors and microcontrollers, followed by memory footprints and networking, open source communities and developers.

Finally question and answer session with guest and students. The event ended with vote of thanks given by Mr. Channappa Gowda, Asst.professor,Dept of ISE,TOCE and feedback link and certificate are shared with all participants. All participants got there E-Certificate after giving the feedback.

Certificate of Internship

This is to certify that G Pratheeksha(10X16BT014), Krithika S(10X16BT023), Roshni K K(10X16BT032) and Urvi Narayan(10X16BT036), BTech students of Biotechnology at Department Of Biotechnology, The Oxford College Of Engineering, Bengaluru, India successfully completed 03 months (Jan 2020 to Mar 2020) long research internship at Zastra Innovations Private Limited under my supervision. Their internship activity includes a) familiarizing to different Bioinformatics methods and Chemical Biology related approaches, and b) understanding the methods in disease target identification, molecular modelling, molecular dynamics, QSAR, lead optimization, research methodologies, public speaking and scientific writing. Their internship involved a project as follows,

- Interaction studies of selected lead candidates with anti-apoptotic BCL-2 protein to reactivate trail-induced apoptosis in lymphoma cell lines

During the phase of their internship program, they all learned and worked on softwares like AutoDock, PaDEL, MODELLER and commercial softwares like, StarDrop, SeeSAR and FlexX. They had been exposed to different situations to meet deadlines on submissions of weekly and project reports including bi-weekly technical presentations. During their tenure at Zastra Innovations we found them punctual, hardworking and inquisitive.

We wish him every success in his life and career

Duration of Internship:	Jan 2020 to Mar 2020
Evaluation of the Internship:	Excellent / Satisfactory / Unsatisfactory
Comments on the student's performance noting strengths and weaknesses:	All of them demonstrates dedication and team work

A REPORT ON
2 Day- ENTREPRENEURSHIP-MELA

Organized by
PLANTS ZONE, BANALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

20th & 21st December, 2019

ENTREPRENEURSHIP MELA

Plants Zone, Bangalore in association with MBA-department, The Oxford College of Engineering has organized Two day Entrepreneurship-mela n the college premisis. 147 students from B.TECH, M.Tech, MBA have participated in it.

The objective of Entrepreneurship-mela is to make students aware about start-up and entrepreneurship, to encourage them towrads entrepreneurship, which will enhance their urge for becoming self-employed in future. Entrepreneurship-mela will make students to practice entrepreneurial activities that would be shared by young entrepreneurs and trainer.

The Entrepreneurship-mela began with a warm welcome to Mr.Manoj.D Founder, PLANTS ZONE and other delegates with flower bouquet. Dr.R V Dhanalakshmi, HOD-MBA, TOCE gave inaugural speech, snd emphasized on market breakdown, allegiance and hazards .

It was followed by Business Plan contest on 20th December,2019. The theme being “Transforming India” the students were given a platform to cabinet their thoughts and creativeness of feelings and transformed them into products and services. This was a great occasion to bring out the Entrepreneurship potentials among the wishful student tycoons.

There were 147students and made into10 teams. The students were of the opinion that the event was very helpful in transmuting their thoughts into product / service which was conceivable because of a real time event like E-MELA which gave them the chance to show their business wisdom.

Students Presentation in E-mela

On Day-1, The students had set up food kiosks which were with full of inventiveness in their way of presentation. The food stalls had ranges of food illustrating the culture of India. There were other products also that were well promoted which assisted the students know what a actual trade is and it gave them a real knowledge of being an businessperson.

Students Participation in E-mela

On Day-2, There were different eco-friendly products and services that were advertised in the E-MELA namely ornate items out of waste goblet, plastic bottles, discarded papers, shreds, mud items etc.

Students Presentation in E-mela

Also the presentation of Business plan of their respective products were happened. The best two teams were awarded cash prizes.

MANAGEMENT & TECHNOLOGY

Organized by
GenEd TECHNOLOGIES, BANALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

23rd November, 2019

MBA Department, The Oxford College of Engineering, Bangalore has organized an Expert talk on the topic “MANAGEMENT & TECHNOLOGY” on 23rd November,2019. Mr. Nagaraj, Technical Support Leader, GenEd Technologies addressed 122 MBA students.

It is widely documented that worldwide viable strategies are increasingly becoming technology-driven in the context of tremendously dynamic, high-velocity, and tempestuous environments. Such a framework of quick technological change is perceptibly very risky. As a result, managers used to be directed by management of technology researchers and experts to get a better accepting of the technologies they are implementing and developing and have a clear vision of the role of technology in their business strategy. The aim of this talk is to hassle that, at the same time, they must also control the impact of technology on marketing, finance and human resources functions of the firm.

Mr. Nagaraj, Technical Support Leader, GenEd Technologies addressing the students

From the very beginning, the management of technology (MOT) has been under the strong inspiration of engineering-based domains. The field's structure was inbred from research and development (R&D) management and the typical in the literature initially dealt with topics such as project assessment and selection, R&D organization, technology forecasting, etc.

Strong emphasis was put on the managing of technological assets. Economists helped to examine public policy concerns and to discover variances in management of technology according to industry, size or country. Yet, the impact of management disciplines remained pretty marginal.

Mr. Nagaraj advocated that management of technology would benefit from a sturdier impact of management disciplines such as accounting and control, finance, marketing, human research management, organizational behaviour- through a transversal configuring of the field. Such a standpoint helps discharge from a view which is far too absorbed on the management of the technology assortment.

Mr. Nagaraj, Technical Support Leader, GenEd Technologies addressing the students

Rather than tapering the scope of the management of technology, this view allows one to consider the impact of technology on each of the traditional management disciplines. Technology develops more than a characteristic set of resources: it is the common thread of a cohesive management perception.

The event finally made the students to understand the present Technology in Management studies and corporates requirements.

MARKETING RESEARCH & TECHNIQUES

Organized by
COMBINED GROUP OF SCIENCE AND TECHNOLOGY, BANALORE

DEPARTMENT OF BUSINESS ADMINISTRATION
THE OXFORD COLLEGE OF ENGINEERING

23rd November, 2019

COMBINED GROUP OF SCIENCE AND TECHNOLOGY, BANALORE in association with MBA-department, The Oxford College of Engineering has organized a WORKSHOP On MARKETING RESEARCH & TECHNIQUES” in the college premises on 23rd November, 2019. 99 students from MBA have participated in it.

Without research, it’s impossible to understand your users. Sure, you might have a general idea of who they are and what they need, but you have to dig deep if you want to win their loyalty.

There are lots of different ways you could conduct market research and collect customer data, but you don’t have to limit yourself to just one research method. Four common types of market research techniques include surveys, interviews, focus groups, and customer observation. Which method you use may vary based on your business type: ecommerce business owners have different goals from SaaS businesses, so it’s typically prudent to mix and match these methods based on your particular goals and what you need to know.

The Workshop began with a warm welcome to Dr. Praveen Kumar, COMBINED GROUP OF SCIENCE AND TECHNOLOGY, BANGALORE. Dr.R V Dhanalakshmi, HOD-MBA, TOCE gave inaugural speech, and emphasized on importance of market research and present competition on the Market.

Deliberations from Dr. Praveen Kumar

Points Highlighted in the Workshop:

- How to translate management decisions and information needs into researchable issues.
- How to select from a myriad of research design alternatives such as focus groups, depth interviews, mail, telephone and in-person surveys, computerized techniques, conjoint analysis and many more.
- Which approach is best for a wide range of specific applications such as concept tests, customer satisfaction and other tracking studies, segmentation research and the like.
- How to phrase the right questions, implement the best study design, select the most appropriate sample, control the quality of data and interpret the results to provide the information your management needs.
- How to communicate the research findings to the decision makers so they will listen and take action.

Students Participation in Workshop

All 99 students were with the opinion that the event was very helpful in understanding Research in Marketing domain and its significance. It also gave them the opportunity to show their business acumen.

ACKNOWLEDGEMENT

The satisfaction and euphoria that accompany the successful completion of any task would be but incomplete without the mention of the people who made it possible, whose constant guidance and encouragement crowned our efforts with success.

I have a great pleasure in expressing my deep sense of gratitude to founder Chairman Late Sri S.Narasa Raju and to our Executive Director Sri S.N.V.L.Narasimha Raju for providing me a great infrastructure and well-furnished labs.

I take this opportunity to express my profound gratitude to the Principal, Dr. A S Arvind for his constant support and encouragement

I am grateful to Dr. G Madhusudhan Reddy, HOD, Department of Mechanical engineering, for his unfailing encouragement and suggestion given to me in the course of my internship work.

Guidance and Deadlines play a very important role in successful completion of the internship report on time. I also convey my gratitude to Prof. Raviprakash M Associate Professor, Department of Mechanical Engineering, for having constantly monitored the development of the internship report and setting up precise deadlines.

Finally, a note of thanks to the Department of Mechanical Engineering, both teaching and non-teaching staff for their co-operation extended.

GAJENDRA. A
